Submarine The Ultimate Naval Weapon Its:

Submarine, the Ultimate Naval Weapon Drew Middleton, 1976 Traces the development of undersea warfare and explains its importance in current global strategy *Warships Associated with World War II in the Pacific* Harry A. Butowsky, 1985 **Jellicoe's War** Nicholas Jellicoe, 2024-12-31 In February 1917 German U boats launched a savage unrestricted campaign against both Allied and neutral shipping At its peak in April 860 000 tons of Allied merchant shipping was sunk Britain's supremacy at sea was being severely challenged and with it the chances of victory in the wider war Taking up the challenge was Britain's new First Sea Lord Sir John Jellicoe until the previous December C in C of the Grand Fleet famously described by Churchill as the only man who could have lost the war in an afternoon The battle he now faced was equally critical although the timeline of defeat was a matter of days rather than hours Britain's food stocks were dangerously low with wheat reserves down to six weeks and sugar to only two while wide scale shortages were crippling the industrial economy Jellicoe outlined the gravity of the situation with total candor to Rear Admiral William Sims USN sent over before America officially declared war by Franklin Roosevelt the Assistant Secretary of the Navy The two men already knew each other from service together in China during the Boxer Rebellion so Jellicoe's plea for urgent American assistance was taken seriously by Sims After the USA joined the war in April 1917 together they lobbied Washington for aid addressing their needs directly to two reluctant Anglophobes at the head of the USN Secretary of the Navy Josephus Daniels and Chief of Naval Operations William Benson Clearly a radical new approach to anti submarine warfare was called for and Convoy was the leading contender There were many objections to protecting shipping in this way some ideological but most practical a workable system for example effectively required state control of both shipping and distribution networks something inconceivable in normal circumstances However Convoy had powerful advocates including the Prime Minister Lloyd George who later claimed he had personally forced its adoption on a reluctant Admiralty This self serving political myth cast Jellicoe as an opponent of Convoy nothing could be further from the truth As both Jellicoe and Sims understood the key requirement was a rapid increase in the number of destroyers for escort duties America provided them the first arriving in Queenstown Ireland on 4 May and by June 46 were operating in European waters This was the first step in an Anglo American campaign that gradually brought the U boat threat under control and led to its ultimate defeat This book takes a fresh look at the undersea war as a whole and all the complex factors bearing on the campaign only one of which was convoy Its analysis is original and its conclusions thought provoking an important contribution to the naval history of the Great War

Confederate Saboteurs Mark K. Ragan, 2015-09-01 Facing an insurmountable deficit in resources compared to the Union navy the Confederacy resorted to unorthodox forms of warfare to combat enemy forces Perhaps the most energetic and effective torpedo corps and secret service company organized during the American Civil War the Singer Secret Service Corps led by Texan inventor and entrepreneur Edgar Collins Singer developed and deployed submarines underwater weaponry and

explosive devices The group's main government financed activity which eventually led to other destructive inventions such as the Hunley submarine and behind enemy line railroad sabotage was the manufacture and deployment of an underwater contact mine During the two years the Singer group operated several Union gunboats troop transports supply trains and even the famous ironclad monitor Tecumseh fell prey to its inventions In *Confederate Saboteurs Building the Hunley and Other Secret Weapons of the Civil War* submarine expert and nautical historian Mark K Ragan presents the untold story of the Singer corps Poring through previously unpublished archival documents Ragan also examines the complex personalities and relationships behind the Confederacy's use of torpedoes and submarines

The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual Ron Martini, 2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal

World War II in Europe David T. Zabecki, 2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto

Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps **Choke Hold: The Attack On Japanese Oil In**

World War II Stephen L. Wolborsky, 2014-08-15 After WWI Army airmen like Billy Mitchell in a bid for service independence touted land based air power's dominance over ships Later airmen at the Air Corps Tactical School developed a theory of independent air power application based on strategic bombing These airmen persuaded Congress to purchase the tools to implement strategic bombing fleets of heavy bombers by citing these aircraft as optimum for defending the US coasts against enemy ships However when the opportunity to test the efficacy of bombers against ships presented itself in WWII's Pacific Theater Army Air Force AAF leaders proved reluctant to throw their full support behind such an effort A key aspect of the US Navy's Pacific strategy was an intense campaign against Japanese commercial shipping This blockade primarily targeting oil after late 1943 was spearheaded by US Navy submarines A blockade proved the most effective means of attacking Japan's oil although AAF leaders preferred strategic bombing of the Japanese home islands including oil facilities over blockade support This preference was particularly true for the B 29 This thesis analyzes the campaign against Japanese oil to explore why an oil blockade was effective against Japan and more important to examine how service parochialism distorted the development of a rational military strategy in the Pacific Theater **We Were Pirates** Robert D Schultz, James Shell, 2009-09-01 A sailor's extraordinary experiences on an American submarine in the Pacific are candidly reported in this eyewitness account of war from a torpedoman's perspective Robert Hunt managed to survive twelve consecutive war patrols on the submarine USS Tambor During the course of the war Hunt was everywhere that mattered in the Pacific He stood on the bow of the Tambor as it cruised into Pearl Harbor just days after the devastation of the Japanese air raid peered through binoculars as his boat shadowed Japanese cruisers at the Battle of Midway ferried guns and supplies to American guerilla fighters in the Philippines fired torpedoes that sank vital Japanese shipping and survived a near fatal seventeen hour depth charge attack For exceptional skill and proficiency at his battle station Hunt received a commendation from Fleet Admiral Chester W Nimitz This WWII torpedoman's account of the war offers the rare perspective of an enlisted seaman that is not available in the more common officer accounts To capture and recount the progress of the Pacific War through Hunt's eyes coauthors Robert Schultz and James Shell examined the young submariner's war diary as well as crew letters photographs and captains reports and they also conducted hours of interviews Their vivid descriptions of the ways in which sailors dealt with the stress

of war while at sea or on liberty show a side of the war that is rarely reported The fact that Hunt s submarine was the first of a new fleet of World War II boats and the namesake of a significant class adds further value to his remarkable story **War, Science and Terrorism** Dr J Richardson,2012-12-06 Describes the application of research to the evolution of weapons It shows how natural engineering information and environmental sciences are exploited how even social science is applied to recruitment battlefield and logistical management and careful preparation of terroristic acts **The Royal Navy in the Cold War Years, 1966-1990** Edward Hampshire,2024-07-30 During the period covered by this new book the Royal Navy faced some of its greatest challenges both at sea confronting the increasingly capable and impressive Soviet Navy and on shore when it faced policy crises that threatened the survival of much of the fleet During this remarkable period the Navy had rarely been so focussed on a single theater of war the Eastern Atlantic but also rarely so politically vulnerable The author sets out to analyze shadowing operations and confrontations at sea with Soviet ships and submarines the Navy s role in the enormous NATO and Warsaw Pact naval exercises that acted out potential war scenarios individual operations from the Falklands and the 1990 91 Gulf War to the Beira and Armilla patrols the development of advanced naval technologies to counter Soviet capabilities policy making controversies as the three services fought for resources including the controversial 1981 Nott defense review and what life was like in the Cold War navy for ratings and officers The book the first to cover this subject in depth for more than thirty years will make use of the full range of archival sources that have been publicly available over the last two decades but of which little use has been made by historians This work is destined to become a definitive naval history of the period and also provide a fascinating and gripping narrative of a navy under threat from many directions but which survived and eventually prospered winning a remarkable victory in the far South Atlantic more than 7 000 miles from its expected battleground in the North Atlantic Elegantly written for a wide audience it will be a very significant volume for professional and enthusiast alike *Tooling for War* Elwood L. Distant Victory Daniel A. Butler,2006-07-30 Distant Victory is an examination of the great sea fight at Jutland that is more than a mere balance sheet of ships sunk and lives lost or an account of which fleet fled before the other Rather it is an retelling of the battle that reveals its long term consequences set in motion by the decisions both the Germans and the British made as a result of each fleet s experience at Jutland While the German High Seas Fleet could claim a tactical victory because it sank more ships and inflicted higher casualties on the Royal Navy s Grand Fleet than the British did to the Germans the British could rightly claim that strategically they won the battle for when it was over the German warships had retreated to the safety of their harbors having failed in their objective of defeating the Grand Fleet in detail For the past nine decades the Battle of Jutland has been history s most hotly debated and least understood naval action Treated usually as a tactical German victory or else as a draw and dismissed as strategically indecisive it has been remembered by historians as for its lost opportunities mistakes and sheer scale the largest naval surface action ever fought and the greatest clash of battleships the world would ever see The Battle of Jutland has never been seen as one of the decisive battles of the First
