Genghis Khan's Greatest General Richard A. Gabriel, 2006 This book tells the story of Subotai the Valiant a warrior for Genghis Khan and one of the greatest generals in military history Subotai commanded armies whose size scale and scope of operations surpassed those led by any other commander in the ancient world Under Subotai's direction Mongol armies moved faster over greater distances and with a greater scope of maneuver than any army had ever done before When Subotai died at age seventy three he had conquered thirty two nations and won sixty five pitched battles according to Muslim historians Had the great Khan not died Subotai likely would have destroyed Europe itself **Subotai the Valiant** Richard A. Gabriel, 2004-06-30 This book tells the story of Subotai the Valiant one of the greatest generals in military history surely the equal of Hannibal and Scipio in tactical brilliance and ranking right along with both Alexander and Caesar as a strategist Subotai commanded armies whose size scale and scope of operations surpassed all of the commanders of the ancient world Under his direction and command Mongol armies moved faster over greater distances and with a greater scope of maneuver than any army had ever done before His legacy lives to the present day for much of the theory and practice of modern military operations was first used by Subotai The modern emphasis on speed maneuver surprise envelopment the rear battle the deep battle concentration of firepower and the battle of annihilation all emerged as tactical skills first practiced by this great Mongol general Subotai died at age 73 by which time he had conquered 32 nations and won 65 pitched battles as the Muslim historians tell us For 60 of those years Subotai lived as Mongol soldier first as a lowly private who kept the tent door of Genghis himself rising to be the most brilliant and trusted of Genghis Khan's generals When Genghis died Subotai continued to be the moving force of the Mongol army under his successors It was Subotai who planned and participated in the Mongol victories against Korea China Persia and Russia It was Subotai's conquest of Hungary that destroyed every major army between the Mongols and the threshold of Europe Had the great Khan not died it is likely that Subotai would have destroyed Europe itself **500 Great Military Leaders** Spencer C. Tucker, 2014-12-16 This insightful encyclopedia examines the most influential commanders who have shaped military history and the course of world events from ancient times to the present From Alexander the Great and Attila the Hun to Ho Chi Minh and Colin Powell 500 Great Military Leaders provides readers with insight into the most innovative and prominent individuals who have led armies to victory on battlefields all over the world The broad coverage ranges from military leaders from the ancient world to the present day including political figures who directed war efforts and those who were responsible for major technological improvements This encyclopedia goes beyond providing factual information about each individual's life to delve into the greater historical context and impact on their contemporaries as well as on future military history The presentation of information is designed to enable readers to both observe the gradual evolution of warfare over time and clearly perceive the differences in tactics used by generals with varying military resources at their disposal The entries include not only information on the individual's

life and work but a summary statement that assesses successes and failures across each leader's career and summarizes the overall impact. Each entry also provides several references for further reading about that individual. The accessible writing style of this resource and in-depth information and analyses make it appropriate for high school and undergraduate level students as well as scholars of military history and individuals who simply enjoy reading about military history.

The Mongol Conquests Carl Fredrik Sverdrup, 2017-05-04 A scholarly detailed history of how the Mongols created the greatest landlocked empire in history. Midwest Book Review: The Mongols created the greatest landlocked empire known to history. It was an empire created and sustained by means of conquest. Initially an insignificant tribal leader, Genghis Khan gradually increased his power, overcoming one rival after another. After he had subjugated all tribes of Inner Asia, he struck southward into China and later attacked distant Khwarizm in the Near East. Subetei continued to make significant conquests after Genghis Khan died, conquering central China and leading a large force into the heart of Europe. Between them, Genghis Khan and Subetei directed more than 40 campaigns, fought more than 60 battles, and conquered all lands from Korea in the east to Hungary and Poland in the west. This book offers a detailed narrative of the military operations of these two leaders based on early Mongolian, Chinese, Near Eastern, and European sources. Making full use of Chinese sources not translated properly into any European language, the account offers details never before given in English works. Detailed maps showing the operations support the text. Many conventional wisdom views of the Mongols, such as their use of terror as a deliberate strategy or their excellence at siege warfare, are shown to be incorrect. This is a major contribution to our knowledge of the Mongols and their way of warfare. History is littered with great leaders leading great armies and conquering large swathes of the world: Attila the Hun, Alexander the Great, the Roman Empire, but none perhaps as staggering as that of Genghis Khan. I have never heard of Subetei. I'm ashamed to say until now in this excellent book by Carl Fredrik Sverdrup. Asian history has never particularly appealed to me, but this is big history and the author's style makes it compelling and readable. Books Monthly: This is a very valuable addition to the literature on the Mongol conquests, giving us a much clearer idea of the detailed course of their campaigns, the world in which they took place, and the methods used to win them. The History of Central Asia Christoph Baumer, 2016-05-30 Between the ninth and the fifteenth centuries, Central Asia was a major political, economic, and cultural hub on the Eurasian continent. In the first half of the thirteenth century, it was also the pre-eminent centre of power in the largest land-based empire the world has ever seen. This third volume of Christoph Baumer's extensively praised and lavishly illustrated new history of the region is above all a story of invasion when tumultuous and often brutal conquest profoundly shaped the later history of the globe. The author explores the rise of Islam and the remarkable victories of the Arab armies, which inspired by their vital, austere, and egalitarian desert faith, established important new dynasties like the Seljuks, Karakhanids, and Ghaznavids. A golden age of artistic, literary, and scientific innovation came to a sudden end when, between 1219 and 1260, Genghis Khan and his successors overran the Chorasmanian

Abbasid lands Dr Baumer shows that the Mongol conquests while shattering to their enemies nevertheless resulted in much greater mercantile and cultural contact between Central Asia and Western Europe

Dandrea,2012-03-20 A novel about Subotai the Orlok the leader of Genghis Khan s Mongol hordes in the 13th century Orlok a nomad hunter and herder of beasts outgeneraled the powers of three empires to conquer half the known world He conquered or overran more territory than any other commander in history And yet this is an absorbing story of a man whose spiritual consciousness rises to a point that brings him beyond his time *The Identity of the Great Conqueror Genghis Khan with the Japanese Hero Yoshitsuné; an Historical Thesis* Kencho Suematsu,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1879 edition Excerpt We next see that Genghis Khan according to the account given had to contend with his revolted subjects but Abulghagi says nothing more than It is true he did his best to remedy this evil at its commencement and fought a sanguinary battle with them though so young but was obliged to temporise till about the fortieth year of his age when he having learned that his confederate enemies such as the Merkit and the Tartars intended to surprise him encamped with thirteen hordes consisting of thirty thousand men placing his baggage and cattle in the centre In this posture of defence he awaited the enemy and having engaged them gained a complete victory Then the author continues to show that gaining another great victory over the Khan of Keraite in the following year he made himself master of that country In one of these battles it is said five or six thousand of the enemy were slain and many prisoners taken He ordered the principal leaders of the revolt to be thrown headlong into seventy cauldrons of boiling water This action to use the words of the Conversations Lexicon was the first example of his cruelty which put all Asia under the terror of his power Of course this story is very problematical as Mr Howorth says and there is much room to doubt its exact truth However it is an unquestionable fact that every author regards this period as the outburst of the triumphant impulse of Genghis Khan s victories and there would be great wonder if something of the kind did not occur at all as Gibbon noticing this story says In a state of society in which policy is rude and valour universal the ascendancy of one man must be founded on his power and resolution to punish his enemies and recompense his friends **Genghis Khan** Walter Scott,2018-03-09 Genghis Khan was
