Subquantum Kinetics The Alchemy Of Creation:

Subquantum Kinetics Paul A. LaViolette, 1994 *Subquantum Kinetics* Paul A. LaViolette, 2003 Subquantum kinetics is a revolutionary physics methodology that was inspired by advances in our understanding of how non equilibrium reaction systems spawn self organising wave patterns Replacing the fragmented self contradictory framework of modern physics subquantum kinetics opens the door to a unified field theory **Genesis of the Cosmos** Paul A. LaViolette, 2004-04-15 Provides compelling evidence that creation myths from the dawn of civilization correspond to cutting edge astronomical discoveries Exposes the contradictions in current cosmological theory and offers a scientific basis for the ancient myths and esoteric lore that encode a theory of continuous creation By the scientist who was the first to disprove the Big Bang theory on the basis of observational data Recent developments in theoretical physics including systems theory and chaos theory are challenging long held mechanistic views of the universe Many thinkers have speculated that the remnants of an ancient science survive today in mythology and esoteric lore but until now the scientific basis for this belief has remained cloaked in mystery Paul LaViolette reveals the remarkable parallels between the cutting edge of scientific thought and creation myths from the dawn of civilization With a scientific sophistication rare among mythologists LaViolette deciphers the forgotten cosmology of ancient lore in a groundbreaking scientific tour de force In direct nontechnical language he shows how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from the surrounding subquantum chaos Exposing the contradictions that bedevil the big bang theory LaViolette offers both the specialist and the general reader a controversial and highly stimulating critique of prevailing misconceptions about the seldom questioned superiority of modern science over ancient cosmology By restoring and reanimating this ancient scientific worldview *Genesis of the Cosmos* leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century *The Giza Death Star Destroyed* Joseph P. Farrell, 2005 Final volume in a trilogy the first of which is the author's *The Giza death star* and the second of which is his *The Giza death star deployed* *Advanced Electromagnetism And Vacuum Physics* Patrick Cornille, 2003-07-07 This book is aimed at a large audience scientists engineers professors and students wise enough to keep a critical stance whenever confronted with the chilling dogmas of contemporary physics Readers will find a tantalizing amount of material calculated to nurture their thoughts and arouse their suspicion to some degree at least on the so called validity of today's most celebrated physical theories **Forbidden History** J. Douglas Kenyon, 2005-03-29 Challenges the scientific theories on the establishment of civilization and technology Contains 42 essays by 17 key thinkers in the fields of alternative science and history including Christopher Dunn Frank Joseph Will Hart Rand Flem Ath and Moira Timmes Edited by Atlantis Rising publisher J Douglas Kenyon In *Forbidden History* writer and editor J Douglas Kenyon has chosen 42 essays that have appeared in the bimonthly journal *Atlantis Rising* to provide readers with an overview of the core positions of key thinkers in the field of ancient mysteries and alternative history The 17 contributors

include among others Rand Flem Ath Frank Joseph Christopher Dunn and Will Hart all of whom challenge the scientific establishment to reexamine its underlying premises in understanding ancient civilizations and open up to the possibility of meaningful debate around alternative theories of humanity's true past Each of the essays builds upon the work of the other contributors Kenyon has carefully crafted his vision and selected writings in six areas Darwinism Under Fire Earth Changes Sudden or Gradual Civilization's Greater Antiquity Ancestors from Space Ancient High Tech and The Search for Lost Origins He explores the most current ideas in the Atlantis debate the origins of the Pyramids and many other controversial themes The book serves as an excellent introduction to hitherto suppressed and alternative accounts of history as contributors raise questions about the origins of civilization and humanity catastrophism and ancient technology The collection also includes several articles that introduce compare contrast and complement the theories of other notable authors in these fields such as Zecharia Sitchin Paul LaViolette John Michell and John Anthony West [The Anti-Gravity Files](#) David Hatcher Childress,2017-04-11 In the tradition of The Anti Gravity Handbook and the Time Travel Handbook comes this all new compilation of material on anti gravity free energy flying saucers and Tesla technology With plenty of technical drawings and explanations this suppressed technology will change the world in ways we can only dream of Chapters on anti gravity mercury gyros the motionless electromagnet generator patent the Tesla pyramid engine anti gravity patents rare photos of the machines in flight and tons more The book that finally blows the lid on suppressed technology and anti gravity Heavily illustrated **How Humans Fight the Laws of Nature -- and Lose** William E. Caswell,2011-05 All too often in our efforts to be ambitious and succeed in life we fight against nature's laws and fail What would happen if we could understand some of the basic natural principals and apply them effectively As well if things aren't going quite right could a new perspective on nature provide us insights to help us recover and move forward *A New Paradigm: Design by TEAMS* Andi Bowe,2009-01-13 A short journey through the educational systems of the 20th Century using the work of Dr Fred B Wood the Tofflers among others *Electrogravitics II, 2nd Edition* Thomas Valone,2005 A companion volume to *Electrogravitics Systems Reports* on a New Propulsion Methodology this book delivers 1 the scientific validation from three different authorities 2 the compelling public history of gravity research conducted by the aviation industry before it became unacknowledged and 3 testimonials which eye witnesses have provided In total this anthology attests to the validity of the Biefeld Brown high voltage force effect The book's Science Section includes a well known electrokinetic force and how it works the proposed ion mobility explanation and how electricity and gravity may couple The Historical Section contains seven articles about T T Brown gravity research etc Also included are a Testimonial Section and Patent Section *Climate Change & Advanced Electromagnetics* Andi Bowe,2009-01-13 CLIMATE CHANGE AND ADVANCED ELECTROMAGNETICS **Electrogravitics Systems** Thomas Valone,1993 Discovered in 1918 by a professor electrogravitics has been put to the test decade after decade by aviation industries and the military It is an anomalous propulsion force from a high voltage

capacitive charge similar to an electrokinetic force In the 1950s T Townsend Brown recommended a flying wing model to the Naval Research Lab for its implementation and years later the B 2 bomber fulfilled this vision Electrogravitics Systems includes historical documents patents and an exciting article by Dr Paul LaViolette on how the B 2 uses such an energy efficient futuristic propulsion concept today
