Subsistence and Economic Development Ronald E. Seavoy,2000-08-30 Annotation Shows why economic development is primarily a political process Disentangling food security from subsistence agriculture in Malawi Benson,

Todd,2021-05-24 Many rural Malawian households cannot reliably obtain enough food to meet their needs even though most have access to arable land for food production This book calls for three critical changes to promote sustainable food security in Malawi 1 government support for a significantly more diversified and commercially oriented agriculture sector 2 increased agricultural productivity of rural farmers and 3 strengthened food markets *Subsistence And Change* Garth

Massey,2019-07-11 Focusing on an agropastoral society of southcentral Somalia this book explores the seeming incompatibility of subsistence agriculture and development goals Based upon survey and ethnographic research carried out among the Rahanweyn the study pays particular attention to economic activities linking them with environmental factors as well as with history culture the division of labor and women s roles family structure demography and herding and agriculture How change can best be introduced into such a society is the central question of the book The meaning of subsistence and its relationship to self sufficiency and a survival threshold are examined within the context of an externally imposed market system The implications of rapidly induced market involvement in a traditional society are looked at in light of data on a range of subsistence societies The author argues for a redirection of development practices making a case for the viability of a mixed agropastoral system that diverges little from the traditional subsistence patterns and for peasant centered development compatible with subsistence production balancing national and international interests *The 'Green*

Revolution' and Economic Development M. Alauddin,C. Tisdell,1991-11-13 Green Revolution technologies have transformed the countryside of many less developed countries This book examines the processes involved in the adoption of these new technologies and their socio economic impact It provides an integrated view of the effects of Green Revolution technologies on economic growth and returns distribution of income and resources stability of agricultural production and returns and their sustainability in Bangladesh **A Critical Analysis of the Contributions of Notable Black Economists** Kojo A.

Quartey,2017-07-05 This book introduces and critically analyzes the achievements of major black economists and their contributions to the realm of economic thought The book begins with a brief overview of the contribution of Africans to philosophy and economic thought and goes on to discuss individuals who have made the most significant contributions to this field There is particular reference to their background and influences including a critical analysis of individual thought Kojo Quartey s book provides an essential supplement to any economic history text **Primary Commodities and Economic**

Development Stephan Pfaffenzeller, 2016-08-12 Our post industrialised global economy has achieved spectacular success and pushed back poverty to an extent previously thought impossible This success is ultimately based on the continued supply of both renewable and non renewable resources Will this supply of primary commodities remain sufficient to support global economic growth Why are the gains for countries specialising on commodity production often so limited Can commodity dependent countries diversify into other economic activities Primary Commodities and Economic Development addresses the changing position of primary commodities in the world economy and investigates their importance for commodity exporting under developed countries The book commences with a review of the theoretical foundations for inter dependence between commodity specialisation and economic underdevelopment Having related the role of commodity exports and the commodity terms of trade to growth models relevant to developing economies the discussion shifts to an in depth review of the statistical properties of the commodity terms of trade The review of commodity price trends at the global level is then rounded off with a series of country case studies showing the concrete threats and opportunities surrounding commodity specialization This book will be of essential reading for those with an interest in development economics and international economics as well as for scholars of natural resource and agricultural economics
