Child Welfare Revisited Joyce Everett, Sandra Stukes Chipungu, Bogart R. Leashore, 2004 Why are there proportionally more African American children in foster care than white children Why are white children often readily adoptable while African American children are difficult to place Are these imbalances an indication of institutional racism or merely a coincidence In this revised and expanded edition of the classic volume *Child Welfare* twenty one educators call attention to racial disparities in the child welfare system by demonstrating how practices that are successful for white children are often not similarly successful for African American children Moreover contributors insist that policymakers and care providers look at African American family life and child development from a culturally based Africentric perspective Such a perspective the book argues can serve as a catalyst for creativity and innovation in the formulation of policies and practices aimed at improving the welfare of African American children *Child Welfare Revisited* offers new chapters on the role of institutional racism and economics on child welfare the effects of substance abuse homelessness HIV AIDS and domestic violence and the internal strengths and challenges that are typical of African American families Bringing together timely new developments and information this book will continue to be essential reading for all child welfare policymakers and practitioners
