God, Faith, and Health Jeff Levin, 2007-07-20 In this groundbreaking book Dr Jeff Levin explores the latest compelling evidence of the connection between health and an array of spiritual beliefs and practices including prayer attending religious services meditation and faith in God Drawing on his own and other published studies Dr Levin shows how religion s emphasis on healthy behaviors and supportive relationships influences one s overall health and how the optimism and hopefulness of those who profess faith promote the body s healing responses Filled with dramatic personal stories God Faith and Health will alter the way you think about your body and your faith and will show you the path to improving your own health through spiritual practice Jeff Levin writes with incredible clarity style and passion This book is a must read for anyone interested in the religion health connection especially those wondering if such a connection exists at all Harold G Koenig M D Associate Professor of Psychiatry and Medicine Duke University Medical Center and author of The Healing Power of Faith Beautifully written and packed with compelling scientific evidence for the spirituality health connection With the precision of a scientist the courage of a true pioneer and the artistry of a storyteller Levin reminds us of what we can no longer afford to ignore that our spiritual life matters mightily to our health and well being at every level Janet F Quinn Ph D R N Associate Professor University of Colorado School of Nursing

The Spiritual Anatomy of Emotion Michael A. Jawer, 2009-05-21 A cutting edge examination of feelings not thoughts as the gateway to understanding consciousness Contends that emotion is the greatest influence on personality development Offers a new perspective on immunity stress and psychosomatic conditions Explains how emotion is key to understanding out of body experience apparitions and other anomalous perceptions Contemporary science holds that the brain rules the body and generates all our feelings and perceptions Michael Jawer and Dr Marc Micozzi disagree They contend that it is our feelings that underlie our conscious selves and determine what we think and how we conduct our lives The less consciousness we have of our emotional being the more physical disturbances we are likely to have from ailments such as migraines fibromyalgia chronic fatigue and post traumatic stress to anomalous perceptions such as apparitions and

involuntary out of body experiences Using the latest scientific research on immunity sensation stress cognition and emotional expression the authors demonstrate that the way we process our feelings provides a key to who is most likely to experience these phenomena and why They explain that emotion is a portal into the world of extraordinary perception and they provide the studies that validate the science behind telepathic dreams poltergeists and ESP The Spiritual Anatomy of Emotion challenges the prevailing belief that the brain must necessarily rule the body Far from being by products of neurochemistry the authors show that emotions are the key vehicle by which we can understand ourselves and our interactions with the world around us as well as our most intriguing and perennially baffling experiences *Etiology* Christina L. Ross, PhD,

BCPP,2013-03 What is disease Why do we get sick Etiology is a groundbreaking work in the field of disease causation Author Christina Ross PhD is a board certified Polarity Practitioner and biophysicist who studies inflammatory response which she believes is the cause of all physical illness Disease Dr Ross explains begins long before biochemical imbalances occur in our physical body Disease begins at the spiritual level at the very essence of our being and evolves through our mind and emotions before it is established in our body Etiology is a study on how to detect disease before it manifests as chronic or incurable Ross empowers the reader by providing research based complementary and alternative medicine options encouraging involvement in one s own healing process **The Holistic Healing Handbook** Colin Tandy,2024-07-04
