side of the page Hold the book with the front cover facing you and read the book forward when studying the ordered subtraction facts Hold the book with the back cover facing you and read the book backward i e read page 100 first then 98 then 96 etc to test your memory with the shuffled subtraction facts It s a good idea to skip around sometimes when working with the shuffled subtraction facts so you learn the facts instead of memorizing the order of the answers The answers from the two sides of a page coincide in position and the book is printed on 60 white paper so that you can t read through the page to see the answers instead you turn the page to check the answers      *Subtraction 0-12 Flash Cards* Alex A.
