Translation and Identity in the Americas Edwin Gentzler, 2012-11-12 Translation is a highly contested site in the Americas where different

groups often with competing literary or political interests vie for space and approval In its survey of these multiple and competing groups and its study of the geographic socio political and cultural aspects of translation Edwin Gentzler's book demonstrates that the Americas are a fruitful terrain for the field of translation studies Building on research from a variety of disciplines including cultural studies linguistics feminism and ethnic studies and including case studies from Brazil Canada and the Caribbean this book shows that translation is one of the primary means by which a culture is constructed translation in the Americas is less something that happens between separate and distinct cultures and more something that is capable of establishing those very cultures Using a variety of texts and addressing minority and oppressed groups within cultures Translation and Identity in the Americas highlights by example the cultural role translation policies play in a discriminatory process the consequences of which can be social marginalization loss of identity and psychological trauma Translation and Identity the Americas will be critical reading for students and scholars of Translation Studies Comparative Literature and Cultural Studies

The Cinematic Novel and Postmodern Pop Fiction Décio Torres Cruz, 2019-12-05 D cio Torres Cruz approaches connections between literature and cinema partly through issues of gender and identity and partly through issues of reality and representation In doing so he looks at the various ways in which people have thought of the so called cinematic novel tracing the development of that genre concept not only in the French cin roman and film scenarios but also in novels from the United States England France and Latin America The main tendency he identifies is the blending of the cinematic novel with pop literature through allusions to Pop Art and other postmodern cultural trends His prime exhibits are a number of novels by the Argentinian writer Manuel Puig Betrayed by Rita Hayworth Heartbreak Tango The Buenos Aires Affair Kiss of the Spider Woman and Pubis angelical Bringing in suggestive sociocultural and psychoanalytical considerations Cruz shows how in Puig's hands the cinematic novel resulted in a pop collage of different texts films discourses and narrative devices which fused reality and imagination into dream and desire

Borges and Translation Sergio Gabriel Waisman, 2005 This book studies how Borges constructs a theory of translation that plays a fundamental role in the development of Argentine literature and which in turn expands the potential for writers in Latin America to create new and innovative literatures through processes of re-reading rewriting and mis-translation The book analyzes Borges's texts in both an Argentine and a transnational context thus incorporating Borges's ideas into contemporary debates about translation and its relationship to language and aesthetics Latin American culture and identity tradition and originality and center periphery dichotomies Furthermore a central objective of this book is to show that the study of the importance of translation in Borges and of the importance of Borges for translation studies need not be separated Furthermore translation studies has much to gain by the inclusion of Latin American thinkers such as Borges while literary studies has much to gain by in depth considerations of the role of translation in Latin American literatures Sergio Waisman is an Assistant Professor of Spanish at The George Washington University

Unfaithful Suzanne Jill Levine, 2025-06-12 In this witty and incisive memoir Suzanne

Jill Levine winner of the 2024 PEN Ralph Manheim Award for Translation establishes a new way of writing about a translator's life. Levine is a living legend in the translation world who credits her good fortune as a young translator to being in the right place at the right time beginning in the era of the Cuban revolution with growing interest in Latin America and its writers and unfolding in New York City in the turbulent 1960s and 1970s and beyond. In *Unfaithful A Translator's Memoir* Levine interweaves her personal history and translation history in an important period. Levine analyzes how her openness to another culture and new experiences along with a knack for translating the most difficult Latin American novels and positive interactions with her authors took her from a modest New York background into a whole new literary and linguistic world. She also writes about how her friendship and then long relationship with Uruguayan writer and intellectual Emir Rodríguez Monegal helped her develop her career and how translating creatively subversive Guillermo Cabrera Infante and Manuel Puig taking on the task of making spoken Cuban and Argentine into a new literary language in translation was her true entry into the world of writing. It is now common for translation scholars to talk about the embodied nature of the act of translation. Levine fleshes out that embodiment in provocative detail with humor and style.

Translation and Minority Lawrence Venuti, 2016-04-29 The premise of this volume is a question: What can the concept of minority bring to the practice and study of translation? Minority is understood here to mean a cultural or political position that is subordinate whether the social context that so defines it is local national or global. This position is occupied by languages and literatures that lack prestige or authority the non standard and the non canonical what is not spoken or read much by a hegemonic culture. Yet minorities also include the nations and social groups that are affiliated with these languages and literatures the politically weak or underrepresented the colonized and the

disenfranchised the exploited and the stigmatized Translation today is itself a minor use of language a lesser art an invisible craft that commands less cultural capital and fewer legal privileges than original composition Yet the focus in this collection is not on what translators worldwide have in common but on the distinctive forms that translating takes when it is done by or on behalf of minorities The articles in this volume present a variety of case studies that illuminate the linguistic and cultural problems posed by such translating as well as the economic and political agendas it has served Together these pieces show that the concept of minority is worth exploring because it inspires innovation in translation practice and research Minor cultures are coincident with new translation strategies new translation theories and new syntheses of the diverse methodologies that constitute the discipline of translation studies

Vladimir Nabokov and Haruki Murakami The advent of printing the cultural institutions and the legal and political environment that regulate the production of translated texts have each formalized many of the inherently social and communicative practices of translation Yet this publishing regime has been profoundly disrupted by the technologies that are currently revolutionizing collaborative translation techniques This volume details the impact that this technological and environmental evolution is having upon the translator proliferating sites and communities of collaboration transforming traditional relationships with authors and editors revisers stage directors actors and readers
