Goering Cross Examined Jacqueline George, 2014-07-13

When Field Marshall Hermann Goering Deputy Führer and commander of the Luftwaffe appeared before the Nuremberg Tribunal in 1946 to answer for his crimes the world was watching Much of Europe had directly suffered through the war that he and the Nazi system had brought to the continent and now he would have to answer for his crimes On the other hand Germany was full of Nazis who had been defeated but did not feel any part of the guilt for those terrible events Would Goering be able to stand up for them and give them hope for the future Goering proved to be intelligent and resourceful a natural leader who dominated the other defendants at the trial and showed no self doubt at all The evidence he gave on his own behalf made the unthinkable seem reasonable the normal reaction of a government and country under threat from outside forces He denied all knowledge of war crimes and the crimes against humanity that were now being uncovered Only cross examination by American and British prosecutors could force him to admit his complicity but Goering was far too clever to be pinned down easily Here in the actual words spoken by the three adversaries is the story of the American prosecutor Supreme Court Justice Robert Jackson and his British colleague Sir David Maxwell Fyfe fighting to bring the true story of Goering's crimes into the light Using complete court transcripts with commentaries on each session this book allows the reader to follow the battle day by day All three men and especially Goering jump from the pages in the words they used seventy years ago This is Goering from a different angle seen not through his deeds but as you might see him at a town hall meeting He is talkative and charismatic even when on trial for his life and with the ruins of the Third Reich around him His trial is followed through to the end and the book has an Epilogue from his fellow defendant Albert Speer This very readable book brings together the many strands of the Goering war crimes trial in a way that allows the interested but legally challenged reader to appreciate the hubris and depravity of the Reich's Deputy Führer The reader is left with the impression that Goering throughout his trial believed in the righteousness of the Nazi Cause and was surprised and disappointed in the final outcome Goering's testimony to the Tribunal is both chilling and a fitting final testimony to the Nazi era Charles Gillman Wells

The Nuremberg Trials (Volume 9) International Military Tribunal, 2022-11-13

The Nuremberg Trials Volume 9 is a critical compilation of the landmark proceedings that followed World War II marking a transformative moment in the history of international law and justice This volume delves into the intricate legal arguments testimonies and moral dilemmas faced by the judges as they grappled with crimes against humanity war crimes and genocide The narrative is meticulously structured reflecting the formal tone typical of judicial proceedings while also spotlighting the profound ethical implications woven throughout the testimonies of witnesses and defendants alike further underscored by the historical context of a devastated Europe emerging from totalitarian oppression The International Military Tribunal composed of judges from the Allied powers was birthed out of a desire to provide accountability and justice for the atrocities committed during the war

This unprecedented effort to impose the rule of law on military leaders and officials epitomizes the evolution of global legal standards. By synthesizing complex legal frameworks with moral imperatives, the tribunal's work reflects the authors' deep commitment to establishing a precedent for future international justice. Readers seeking to understand the foundations of contemporary human rights law and the judicial responses to egregious state-sponsored violence will find Volume 9 invaluable. It serves not only as a historical document but also as a scholarly resource that encourages reflection on the enduring questions of justice, morality, and the societal obligations we have towards one another in the face of inhumanity.

Cover Crops and Sustainable Agriculture Rafiq Islam, Bradford Sherman, 2021-06-16 This book will not serve as the encyclopedia of cover crop management but it's close. The benefits of a wide range of individual cover crops and blends, mixes for specific agronomic crop rotations and geographic locations are included. Descriptions, photographs, and illustrations show how cover crops look in the field, including plant height, leaf architecture, and rooting patterns. Long-term benefits are described for soil health, soil structure, water quality, nutrient contributions, soil biodiversity, air quality, and climate change. In addition to the whys of cover crop use, the book includes details on the hows: how to choose cover crops for specific applications and locations, how and when to plant, how to manage and maintain the cover for maximum benefit, and how and when to terminate. Planting options include drilling (planting between rows of an agronomic crop at planting time or when the crop is short, i.e., corn in early June), aerial seeding with an airplane or high-clearance machine shortly before the crop reaches maturity, and drilling/planting immediately after harvest of the agronomic crop. Selected cover crop blends can help with pest and disease management. Cover crops are an economic input with an expected return on investment similar to pesticides and fertilizer. As part of a continuous no-till system, cover crops provide long-term biological, chemical, and structural benefits. The resulting increase in soil organic matter means the agronomic crop yields benefit from better water infiltration and water holding capacity, greater availability of nitrogen and other nutrients, deeper rooting, and increased soil microbial activity in the root zone.

Interactive Theorem Proving Jeremy Avigad, Assia Mahboubi, 2018-07-03 This book constitutes the refereed proceedings of the 9th International Conference on Interactive Theorem Proving (ITP 2018) held in Oxford, UK, in July 2018. The 32 full papers and 5 short papers presented were carefully reviewed and selected from 65 submissions. The papers feature research in the area of logical frameworks and interactive proof assistants. The topics include theoretical foundations and implementation aspects of the technology, as well as applications to verifying hardware and software systems to ensure their safety and security, and applications to the formal verification of mathematical results. Chapters 2, 10, 26, 29, 30, and 37 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.
