**College Success for Students on the Autism Spectrum** S. Jay Kuder,Amy Accardo,John Woodruff,2023-07-03 Helping both college faculty and student affairs staff enlarge their understanding of the experiences of students on the autism spectrum this book provides guidance on putting supports in place to increase college success Uniquely the authors bring the perspective of neurodiversity to this work Many individuals on the autism spectrum have been stigmatized by the diagnosis and experience autism as a negative label that brings with it marginalization and barriers through an emphasis on deficits Autistic self advocates within the neurodiversity movement are leading the charge to rethinking autism as neurodiversity and to celebrating autism as central to identity Neurodiversity is not a theory or a way of being it is a fact and neurological diversity should be valued and respected along with any other human variation such as race ethnicity gender and sexuality The book provides the practical guidance needed to help neurodivergent students succeed with chapters that address a variety of key issues from the transition to college to career readiness after graduation The authors address support services faculty and staff roles and enhancing academic success They also cover navigating the social demands of college life working with families and mental health The final chapter brings it all together describing the elements of a comprehensive program to help this student population succeed Difficulties with social interaction and communication are one of the defining characteristics of autism and often persist into adulthood It can be assumed that difficulties with social interaction and communication may also impact college success both socially and academically But the answer for these students is not necessarily to try to fix these issues since the fact that these students have been admitted to a degree granting program shows that they can be successful students Instead there should be an emphasis on helping faculty staff and students understand the diversity of human behavior while helping autistic students achieve college success through a support system and by providing accommodations and services when needed *Discipline Survival Guide for the Secondary Teacher* Julia G. **Building Classroom Success** Andrew Martin, 2016-02-29 School has the potential to be a major source of personal and academic fulfilment However the reality is that fear and failure pervade many students academic lives Rather than respond to these fears in constructive and courageous ways many students engage in self defeating avoidant and helpless behaviours This book examines the counterproductive strategies students use in schools today and suggests successful practices educators can adopt to eliminate fear and failure in the classroom and help students respond to their problematic behaviours in more positive and productive ways Through building student success educators build classroom success

Children Who Fail at School But Succeed at Life: Lessons from Lives Well-Lived Mark Katz, 2016-04-11 Understanding resiliency and student success by studying people who succumbed to risk but later triumphed A number of people who failed in school currently enjoy meaningful and successful lives They include though they are by no means limited to those with attention and executive function challenges learning disabilities learning and behavioral challenges arising out of traumatic events in their lives and even those impacted by all of the above Up until recently little attention was paid to successful people who did poorly in school Why One reason might be that many of us doubted that it was actually possible After all many loving parents and caring teachers spent countless hours trying their hardest to help these failing children turn things around in school sometimes with little or nothing to show for it If these children continued to struggle and fail in school with all this help and support it was understandable to assume that they would not succeed in the real world decades later without it So what did we miss Why were we so wrong about them And perhaps most importantly how can their life experiences help educators and parents understand what schools can do better to support students who are struggling today In his groundbreaking new book Mark Katz draws on research findings in clinical and social psychology cognitive neuroscience education and other fields of study as well as stories of successful individuals who overcame years of school failure to answer these and other questions In the process he shows how children who fail at school but succeed at life can give teachers and schools counselors and health care professionals parents and guardians even those whose childhood struggles have persisted into their adult years new remedies for combatting learning behavioral and emotional challenges reducing juvenile crime school dropout and substance abuse improving our health and well being and preventing medical problems later in life
