Success in Referential Communication M. Paul,2014-01-15   **Success in Referential Communication** M. Paul,2013-03-09 One of the most basic themes in the philosophy of language is referential uptake viz the question of what counts as properly understanding a referring act in communication In this inquiry the particular line pursued goes back to Strawson s work on re identification but the immediate influence is that of Gareth Evans It is argued that traditional and recent proposals fail to account for success in referential communication A novel account is developed resembling Evans account in combining an external success condition with a Fregean one But in contrast to Evans greater emphasis is placed on the action enabling side of communication Further topics discussed include the role of mental states in accounting for communication the impact of re identification on the understanding of referring acts and Donnellan s referential attributive distinction Readership Philosophers cognitive scientists and semanticists   *Success in Referential Communication* Matthias Paul,1996   Handbook of Research in Second Language Teaching and Learning Eli Hinkel,2005-03-23 This landmark volume provides a broad based state of the art overview of current knowledge and research into second language teaching and learning Fifty seven chapters are organized in eight thematic sections social contexts of second language learning research methodologies in second language learning acquisition and teaching contributions of applied linguistics to the teaching and learning of second language skills second language processes and development teaching methods and curricula issues in second or foreign language testing and assessment identity culture and critical pedagogy in second language teaching and learning and important considerations in language planning and policies The Handbook of Research in Second Language Teaching and Learning is intended for researchers practitioners graduate students and faculty in teacher education and applied linguistics programs teachers teacher trainers teacher trainees curriculum and material developers and all other professionals in the field of second language teaching and learning   **Asian Students' Classroom Communication Patterns in U.S. Universities** Jun Liu,2001-10-30 The past decade has witnessed a steady increase in the numbers of Asian students in North American institutions of higher learning While their academic success has been widely recognized concerns about their silence in classrooms have also been expressed by educators Following an overview of Asian students in North American higher education this book presents a focused ethnographic study of twenty Asian graduate students enrolled in a major US university exploring and describing Asian student s oral classroom participation modes across multiple factors Four major classroom communication patterns total integration conditional interaction marginal participation and silent observation are identified among the participants and discussed across sociocultural affective cognitive linguistic and pedagogical environmental factors Also discussed are the Asian concepts of face saving politeness and social identity in multiple discourse communities in light of Asian students perceptions of and modes in classroom participation The book concludes with a call for the development of cultural transformation competence which encompasses

social identity negotiation skills and culture sensitivity knowledge and mindful reflexivity in addition to communicative competence   The Routledge Handbook of Linguistic Reference Stephen Biggs,Heimir Geirsson,2020-12-24 This Handbook offers students and more advanced readers a valuable resource for understanding linguistic reference the relation between an expression word phrase sentence and what that expression is about The volume s forty one original chapters written by many of today s leading philosophers of language are organized into ten parts I Early Descriptive Theories II Causal Theories of Reference III Causal Theories and Cognitive Significance IV Alternate Theories V Two Dimensional Semantics VI Natural Kind Terms and Rigidity VII The Empty Case VIII Singular De Re Thoughts IX Indexicals X Epistemology of Reference Contributions consider what kinds of expressions actually refer names general terms indexicals empty terms sentences what referring expressions refer to what makes an expression refer to whatever it does connections between meaning and reference and how we know facts about reference Many contributions also develop connections between linguistic reference and issues in metaphysics epistemology philosophy of mind and philosophy of science   **The Effects of Communication Success and Failure on the Referential Communication of Preschool Children** Laura Jean Smith,1985

   Model-Based Reasoning in Science, Technology, and Medicine Lorenzo Magnani,Ping Li,2007-06-30 The volume is based on papers presented at the international conference on Model Based Reasoning in Science and Medicine held in China in 2006 The presentations explore how scientific thinking uses models and explanatory reasoning to produce creative changes in theories and concepts The contributions to the book are written by researchers active in the area of creative reasoning in science and technology They include the subject area s most recent results and achievements   *Pragmatic Development in First Language Acquisition* Danielle Matthews,2014-06-15 Pragmatic development is increasingly seen as the foundation stone of language acquisition more generally From very early on children demonstrate a strong desire to understand and be understood that motivates the acquisition of lexicon and grammar and enables ever more effective communication In the 35 years since the first edited volume on the topic a flourishing literature has reported on the broad set of skills that can be called pragmatic This volume aims to bring that literature together in a digestible format It provides a series of succinct review chapters on 19 key topics ranging from preverbal skills right up to irony and argumentative discourse Each chapter equips the reader with an overview of current theories key empirical findings and questions for new research This valuable resource will be of interest to scholars of psychology linguistics speech therapy and cognitive science

   Referent Similarity and Nominal Syntax in Task-Based Language Teaching Craig Lambert,2018-12-07 This volume addresses an important gap in the literature on task design and second language use Building on insights from over 50 years of research on the relationship between task demands and language use it examines how referent similarity relates to developmentally relevant variation in the use of nominal structures comparative structures and abstract lexis among first and second language speakers of English In addition to providing an empirical basis for future research on tasks it shares both

theoretical and practical information on task design which will greatly benefit curriculum and material developers

Revision Cognitive and Instructional Processes Linda Allal,L. Chanquoy,Pierre Largy,2004-01-31 Revision is a fundamental part of writing and the acquisitionof revision skills is a complex and lengthy process This book drawstogether current research on revision from two areas The first is thelarge body of empirical work on the cognitive processes involved inthe revision of written language production This research looks athow operations of revision intervene during various phases of writing at the resources or constraints e g working memory load contentknowledge strategy use that affect revision and at developmentalaspects of revision capabilities The second area of research concernsthe study of students learning to revise texts in instructionalsettings This research examines the effects of instructional designconditions structure and sequencing of tasks strategy instruction word processing and the impact of peer interactions on studentacquisition of revision skills The contributions by European and North American specialists providenew insights into revision processes and raise new questions about theinterplay between cognitive and instructional factors The authorspresent critical reviews of research findings as well as recentempirical work conducted in experimental and classroom settings Revision is an essential resource for researchers in cognitive developmental and educational psychology who are interested inlanguage acquisition and for professionals of language instruction including pre service and in service teacher training   **Communication Strategies** Gabriele Kasper,Eric Kellerman,2014-06-03 This book examines the topic of communication strategies the ways in which people seek to express themselves or understand what someone else is saying or writing Typically the term has referred to the strategies that non native speakers use to address the linguistic and pragmatic problems encountered in interactions with native and non native speakers of the language in question Studies adopting a psycholinguistic perspective are well represented and updated in this volume Other chapters re examine communication strategies from a sociolinguistic perspective exploring the strategies non native speakers and their conversational partners use to create shared meanings in ongoing discourse These studies reveal how communication strategies can serve to construct participants identities and social relationships Finally the book incorporates a number of chapters which cover strategy like behaviour in other related areas such as language pathology child bilingualism normal native adult interaction and mother tongue education These studies add fresh dimensions to the study of communication strategies showing how the concept can usefully be extended beyond the realm of second language acquisition and use and pointing out the commonalities in many domains of language behaviour   **The Handbook of Communication Science** Charles R. Berger,Michael E. Roloff,David R. Ewoldsen,2009-04-30 This revision of a classic volume presents state of the art reviews of established and emerging areas of communication science and provides an intellectual compass that points the way to future theorizing about communication processes In this Second Edition of The Handbook of Communication Science editors Charles R Berger Michael E Roloff and David Roskos Ewoldsen bring together an impressive array of communication scholars to explore and synthesize the varying

perspectives and approaches within the dynamic field of communication science After first addressing the methods of research and the history of the field the Handbook then examines the levels of analysis in communication individual to macro social the functions of communication such as socialization and persuasion and the contexts in which communication occurs such as couples families organizations and mass media Key Features Draws on the scholarship and expertise of leading communication scholars who explore different aspects of the field Covers all facets of communication science from the historical and theoretical to the practical and applied Covers the latest theoretical developments in the field as well as alternative methodologies and levels of analysis Explores key communication contexts of the 21st century including interpersonal dimensions of health communication the scientific investigation of marital and family communication and computer mediated communication Includes incisive analyses literature reviews bibliographies and suggestions for future research The Handbook of Communication Science Second Edition is an essential reference resource for scholars practitioners and students It is appropriate for upper level undergraduate or graduate courses in Communication and Media Studies and Mass Communication **Language and Communication in Mental Retardation** Sheldon Rosenberg,Leonard Abbeduto,2013-05-13 Research on language and communication development and intervention in persons with mental retardation has been conducted at a fast and furious pace during the last two decades Past attempts to summarize this research have been rather restricted focusing on a single narrowly defined substantive domain such as lexical development or of a single etiology such as Down Syndrome This volume in contrast presents a critical integrative review of research and theory on language development and processing across all domains and a variety of etiologies In addition many previous attempts to review portions of this research have failed to consider the research within the context of current theory and data from developmental psycholinguistics and linguistics A major contribution of this book is the emphasis on relevant work outside of mental retardation for understanding and treating the language and communication problems of persons with mental retardation Finally this book is comprehensive and up to date across all the areas of language covered including appropriate introductory material in linguistics and psychology discussions of the innateness cognition first and motherese views of normal language acquisition In addition the authors extensive bibliography is valuable in and of itself to any serious student or professional in the area **Second Language Educational Experiences for Adult Learners** John M. Norris,John McE. Davis,Veronika Timpe-Laughlin,2017-04-21 Second Language Educational Experiences for Adult Learners provides an up to date review of the theory and practice of adult second language education The primary objective is to introduce core ideas that should inform the design development and delivery of language learning experiences that take the typical forms of materials courses teaching and assessment Divided into three sections the book first addresses what we know about adult second language acquisition and how individuals may acquire languages differently from each other In the second section key educational design elements from pedagogical methods to curriculum to assessment are then introduced

from the perspective of research based understandings about effective practices Rounding out the volume is an overview of critical issues for language educational innovation including supporting teachers localizing materials and instruction evaluating and improving education and working with technology Each chapter concludes with a set of recommended design principles that should guide readers toward high quality valuable and empirically supported language educational experiences This volume will be of interest to researchers and students investigating instructed language learning designers creating useful language learning materials and language teaching innovators seeking to improve outcomes in diverse instructional settings around the world   Communication Beth Bonniwell Haslett,2013-12-16 First Published in 1987 This book provides an outline for a descriptive basis for the study of human communication by advocating a pragmatic approach to communication based on the study of language use in context It covers work on verbal communication in many disciplines and represents a variety of underlying assumptions and methods of analysis This book blends both European and North American scholarship for a broadly focused analysis in a form suitable for beginners and those looking to expand their established understanding   A Case for Psycholinguistic Cases Gabriela Appel,Hans W. Dechert,1991-10-25 This volume comprises ten papers presented as plenary lectures on the occasion of the Second World Congress of the International Society of Applied Psycholinguistics ISAPL at the University of Kassel Germany from July 27 31 1987 The articles collected in this volume focus on the production comprehension and acquisition of languages from various empirical and theoretical points of view This volume is case based in that it does not claim to cover the full range of present day psycholinguistic enquiry It attempts though to make a case out of a representational variety of psycholinguistic phenomena which might provide a window on a unified theory of language production comprehension and acquisition From this perspective this volume aims at the presentation and discussion of various cases which through analogical reasoning may serve to shed light on and to solve new cases   **Research in Clinical Pragmatics** Louise Cummings,2017-01-05 This is the first volume to present individual chapters on the full range of developmental and acquired pragmatic disorders in children and adults In chapters that are accessible to students and researchers as well as clinicians this volume introduces the reader to the different types of pragmatic disorders found in clinical populations as diverse as autism spectrum disorder traumatic brain injury and right hemisphere language disorder The volume also moves beyond these well established populations to include conditions such as congenital visual impairment and non Alzheimer dementias in which there are also pragmatic impairments Through the use of conversational and linguistic data the reader can see how pragmatic disorders impact on the communication skills of the clients who have them The assessment and treatment of pragmatic disorders are examined and chapters also address recent developments in the neuroanatomical and cognitive bases of these disorders   **Sharing Thoughts** José Luis Bermúdez,Matheus Valente,Víctor M. Verdejo,2025-07-08 Philosophical work on the nature of thought has until recently focused primarily on what it is for an individual to think leaving aside important questions about the

intersubjective dimension of thought For example In what sense if any can thoughts really be shared Is there a shareability requirement on successful communication disagreement or the transmission of knowledge Do particular types of thought such as those based on perception or self location raise distinctive challenges to their shareability More generally how should we understand the communication and coordination of our thoughts in exchanges with others Are there distinctive rationality constraints governing the intersubjective aspects of thought Sharing Thoughts brings together original work by established and emerging philosophers to address these and related foundational issues while also paying attention to more specific questions such as the interplay between the intersubjectivity of thought and the internalism externalism debate the elucidation of first person or egocentric thought our capacity for joint thinking the conditions for knowledge transmission and collective inquiry the expression of thought in music and more   **Models of Reference** Kees van Deemter,Emiel Krahmer,Albert Gatt,Roger P.G. van Gompel,2017-04-28 To communicate speakers need to make it clear what they are talking about Referring expressions play a crucial part in achieving this by anchoring utterances to things Examples of referring expressions include noun phrases such as this phenomenon it and the phenomenon to which this Topic is devoted Reference is studied throughout the Cognitive Sciences from philosophy and logic to neuro psychology computer science and linguistics because it is thought to lie at the core of all of communication Recent years have seen a new wave of work on models of referring as witnessed by a number of recent research projects books and journal Special Issues The Research Topic Models of Reference in Frontiers in Psychology is a new milestone focusing on contributions from Psycholinguistics and Computational Linguistics The articles in it are concerned with such issues as audience design overspecification visual perception and variation between speakers
