Success Factor:

The Success Factor Ernane Iung, 2017-08-15 Small business owners know that success doesn't follow a script and neither should they. The Success Factor will take small business owners through the first most important things to consider when starting a company and will contrast conventional wisdom on the topic with the latest ground-breaking but proven unconventional wisdom. By the time small business owners finish reading *The Success Factor: Unconventional Wisdom for Small Business Success*, they'll have goals, a timeline, a business model, and a product/service offering in place for their small business or start-up. Additionally, they'll gain an understanding of how their ideal customer thinks, where and how to find them, and how to market in a way that attracts the customers they want. Lastly, they'll learn to do more of the things they love, how to get paid faster, and how to keep more of the money they earn than they ever thought possible. *The Success Factor* Ruth Gotian, 2022-01-03 WINNER Book Excellence Awards 2024 Leadership WINNER Independent Press Award 2022 Business Motivational FINALIST Next Generation Indie Book Awards 2023 Career WINNER International Book Awards 2023 Business Motivational. What do astronauts, Olympic champions, and Nobel laureates do differently that allows them to achieve at such a high level? High achievers share the same four attributes: intrinsic motivation, perseverance, strong foundation, and constantly learning through informal means. The key to their success is that they do all four of these things at the same time. Based on research and in-person interviews with astronauts, Nobel Prize winners, and Olympic champions, *The Success Factor* outlines the approach that individuals aspiring to improve their performance can adopt. Using these four shared attributes as a guide, *The Success Factor* helps you reach your peak by applying the lessons of high achievers in your own life: identify your passion using a Passion Audit, learn how and where to find a mentor and how to build a mentoring team, develop your own community of practice, pursue your interests through informal learning, manage your time and energy. *The Success Factor* comes with online resources that feature a downloadable Passion Audit worksheet, Mentoring Team worksheet, and Goal Audit worksheet. The book offers scripts for approaching potential mentors and a list of uncommon places to find a mentor, such as webinars, airports, and social media. *The Success Factor* features exclusive interviews with high achievers, including such people as Dr. Tony Fauci, NIH/NIAID Institute Director; Dr. Mike Brown, Nobel Prize winner; Dr. Peggy Whitson, Former NASA Chief Astronaut; Maxine Clark, founder and former CEO of Build A Bear Workshop; and Steve Kerr, eight-time NBA Champion and head coach of the Golden State Warriors. *Success Factor: Change Management* Reiner Czichos, 2015-12-09 That companies are able to manage a lasting change, they have to bring their employees in change projects. Success Factors of Corporate Spin-Offs Alexander Tübke, 2004 Corporate Spin Off processes are very interesting phenomena for management theory and practice In theory Corporate Spin Offs are both a driver and a result of organisational change offering the possibility to investigate an area where companies are genuinely sharing experience and best practice Although Corporate Spin Offs can be clearly distinguished from other types of start ups and divestments and despite combining key characteristics in a unique way existing investigation is sparse and heterogeneous In practice Corporate Spin Off processes are frequent and highly successful but not as well regarded as Merger Acquisition strategies and less understood by the decision makers The present work was designed to meet these demands by analysing the success factors of Corporate Spin Offs their relative contribution to the process and the role of the different actors involved Based on an extensive literature review and a new Spin Off typology a broad range of success factors and success dimensions is proposed Using a combination of multivariate models the responses from 211 European companies to a questionnaire are analysed and typologies derived Among the single factors customer participation the transfer of managerial and market related experience and the main motivation are the most important ones for the Spin Off process and its success The typologies reveal characteristic factors sets showing for example that high growth Spin Offs benefited over proportionally from sector growth or the access to relations with customers or suppliers This produces a new and comprehensive perspective on the relative contribution of each success factor their interaction and the behaviour of both the parent and the Spin Off companies in the process These results are highly valuable for managers scientists in the field and policy makers
