Serial Revolutions 1848 Clare Pettitt, 2022-02-10 1848 was a pivotal moment not only in Europe but in much of the rest of the world too Marx's scornful dismissal of the revolutions created a historiography for 1848 that has persisted for more than 150 years Serial Revolutions 1848 shows how far from being the failure that Karl Marx claimed them to be the revolutions of 1848 were a powerful response to the political failure of governments across Europe to care for their people Crucially this revolutionary response was the result of new forms of representation and mediation until the ragged and the angry could see themselves represented and represented as a serial phenomenon such a political consciousness was impossible By the 1840s the developments in printing transport and distribution discussed in Clare Pettitt's Serial Forms The Unfinished Project of Modernity 1815 1848 Oxford University Press 2020 had made the social visible in an unprecedented way This print revolution led to a series of real and bloody revolutions in the streets of European cities The revolutionaries of 1848 had the temerity to imagine universal human rights and a world in which everyone could live without fear hunger or humiliation If looked at like this the events of 1848 do not seem such poor incidents as Marx described them nor such an embarrassing failure after all Returning to 1848 we can choose to look back on that springtime of the peoples as a moment of tragicomic failure obliterated by the brutalities that followed or we can look again and see it as a proleptic moment of stored potential an extraordinary series of events that generated long distance and sustainable ideas about global citizenship international co operation and a shared and common humanity which have not yet been fully understood or realised **The Formula for**
