Alan Shepard,2018-02-06 This title was first published in 2002 In the topsy turvy 1580s and 1590s as the episodic Anglo Spanish war became the greatest threat to English security since circa 1066 Marlowe rose up in the London theatres like some Phaeton of the entertainment industry taking war itself as a central subject of his art This book reads his plays especially Tamburlaine Edward II The Massacre at Paris and Doctor Faustus as part of a bright new conversation then taking place in London about the nature of state security and martial law the decorum of playing the soldier on stage the rhetoric of warfever and the necessity for draconian prescriptions about English manhood Those public conversations spilling out of Whitehall the church pulpits and the pubs took center stage during the few years the playwright worked in London The author argues that the Marlowe plays wrestle with the philosophical assumptions about the nature of war and the role and status of soldiers in English culture **Curated Decay** Caitlin DeSilvey,2017-02-14 Transporting readers from derelict

homesteads to imperiled harbors postindustrial ruins to Cold War test sites Curated Decay presents an unparalleled provocation to conventional thinking on the conservation of cultural heritage Caitlin DeSilvey proposes rethinking the care of certain vulnerable sites in terms of ecology and entropy and explains how we must adopt an ethical stance that allows us to collaborate with rather than defend against natural processes Curated Decay chronicles DeSilvey s travels to places where

experiments in curated ruination and creative collapse are under way or under consideration It uses case studies from the United States Europe and elsewhere to explore how objects and structures produce meaning not only in their preservation and persistence but also in their decay and disintegration Through accessible and engaging discussion of specific places and their stories it traces how cultural memory is generated in encounters with ephemeral artifacts and architectures An interdisciplinary reframing of the concept of the ruin that combines historical and philosophical depth with attentive storytelling Curated Decay represents the first attempt to apply new theories of materiality and ecology to the concerns of critical heritage studies

England Resounding Keith Alldritt, 2019-08-26 The spectacular revival of serious music in England is a chief feature of the history of British culture from the turn of the twentieth century and after For some two centuries the art form had stagnated in England which was referred to notoriously by a German commentator as the land without music But then came a great renaissance In the three linked essays that make up this book Keith Alldritt the most recent biographer of Vaughan Williams examines the several phases and genres of this revival A number of composers including Gustav Holst Arnold Bax and William Walton contributed to the renewal But this book presents the renaissance as centrally a continuity of enterprise sometimes of riposte running from Elgar to Vaughan Williams and then to Benjamin Britten Their concern was with music at its most serious though not unceasingly humourless All three explored music's frontier with philosophy They also probed the psychological impact of the unprecedentedly violent and destructive century in which they practised their art Going beyond musicological comment England Resounding essays insights into the historical geopolitical and personal events that elicited the major works of these three great composers
