The Accursed Share Vols 2 And 3 The History Of Eroticism And Sovereignty:

Gothic Sovereignty Jon Horne Carter, 2022-02-01 Gang related violence has forced thousands of Hondurans to flee their country leaving behind everything as refugees and undocumented migrants abroad To uncover how this happened Jon Carter looks back to the mid 2000s when neighborhood gangs were scrambling to survive state violence and mass incarceration locating there a critique of neoliberal globalization and state corruption that foreshadows Honduras s current crises Carter begins with the story of a thirteen year old gang member accused in the murder of an undercover DEA agent asking how the nation s seductive criminal underworld has transformed the lives of young people He then widens the lens to describe a history of imperialism and corruption that shaped this underworld from Cold War counterinsurgency to the War on Drugs to the near impunity of white collar crime as he follows local gangs who embrace new trades in the illicit economy Carter describes the gangs transformation from neighborhood groups to sprawling criminal societies even in the National Penitentiary where they have become political as much as criminal communities Gothic Sovereignty reveals not only how the revolutionary potential of gangs was lost when they merged with powerful cartels but also how close analysis of criminal communities enables profound reflection on the economic legal and existential discontents of globalization in late liberal nation states

The Routledge Handbook of Subalterns across History Saurabh Dube, Ishita Banerjee, 2025-05-30 Subaltern Studies has marked both a major departure in South Asian studies and indexed broader shifts in the critical humanities and social sciences This volume explores what it means today to set to work studies of subaltern subjects in our rapidly mutating social worlds This handbook spans diverse historical ethnographic and geopolitical spaces drawing in the Antipodes and the Americas Diasporas and Oceanic worlds Africa and the Middle East apart from Europe and many South Asias overlapping arenas in which the subaltern continues to find distinct yet substantive articulations It also seeks to meaningfully juxtapose practices and processes of gender and race indigeneity and indenture age and sexuality slavery and apartheid the Adivasi and the Dalit settler colonialisms and nations nature and environment caste and tribe diaspora and blackness capital and property science and technology media and cinema the body and dance heteronormativity and queerness state and governance and politics and justice In these ways the study un frames disciplinary boundaries and maps emergent terrains exactly articulating pressing subjects and rethinking distinct subalternities This book is aimed at researchers scholars and advanced undergraduate and graduate students in the critical human sciences especially history anthropology social theory and cultural gender and literary studies

Philosophy Across Borders Emma Ingala, Gavin Rae, 2024-11-14 This book brings into conversation geographically diverse theorists to question the meaning purpose and place of conceptual borders in philosophy It shows how contemporary theory is constituted by a dynamic practice in which the boundaries created to define it are simultaneously overcome in their establishment Philosophy has often taken itself to be distinguished from and superior to alternative ways of thinking To do so philosophical thinking has found itself rigidly affirming the need to think within

borders to obtain conceptual clarity and certainty and or secure its own independent existence The chapters in this volume call into question the need to retreat behind demarcated boundaries that mark the domain of philosophy proper to instead offer a performative account of how philosophy can creatively work across geographical cultural linguistic borders without foreclosing that analysis conceptually In so doing the contributors tackle issues including the historical establishment of philosophical borders the metaphysics of philosophical borders the relationship between Western and non Western thinking the ethics of transgressing borders and the political implications of Western rationality on and for non Western societies Philosophy Across Borders will therefore be of interest to scholars and advanced students working in philosophy aesthetics critical theory comparative philosophy cultural studies feminist theory history of ideas political theory and postcolonial studies

Countersexual Manifesto Paul B. Preciado, 2018-12-18 Countersexual Manifesto is an outrageous yet rigorous work of trans theory a performative literary text and an insistent call to action Seeking to overthrow all constraints on what can be done with and to the body Paul B Preciado offers a provocative challenge to even the most radical claims about gender sexuality and desire Preciado lays out mock constitutional principles for a countersexual revolution that will recognize genitalia as technological objects and offers step by step illustrated instructions for dismantling the heterocentric social contract He calls theorists such as Derrida Foucault Butler and Haraway to task for not going nearly far enough in their attempts to deconstruct the naturalization of normative identities and behaviors Preciado s claim that the dildo precedes the penis that artifice not nature comes first in the history of sexuality forms the basis of his demand for new practices of sexual emancipation He calls for a world of sexual plasticity and fabrication of bio printers and dildonics and he invokes countersexuality s roots in the history of sex toys pornography and drag in order to rupture the supposedly biological foundations of the heterocentric regime His claims are extreme but supported through meticulous readings of philosophy and theory as well as popular culture The Manifesto is now available in English translation for its twentieth anniversary with a new introduction by Preciado Countersexual Manifesto will disrupt feminism and queer theory and scandalize us all with its hyperbolic but deadly serious defiance of everything we ve been told about sex

Global Fragments Anke Bartels, Dirk Wiemann, 2007 While the world seems to be getting ever smaller and globalization has become the ubiquitous buzz word regionalism and fragmentation also abound This might be due to the fact that far from being the alleged production of cultural homogeneity the global is constantly re defined and altered through the local This tension pervading much of contemporary culture has an obvious special relevance for the new varieties of English and the literature published in English world wide Postcolonial literatures exist at the interface of English as a hegemonic medium and its many national regional and local competitors that transform it in the new English literatures Thus any exploration of a globalization of cultures has to take into account the fact that culture is a complex field characterized by hybridization plurality and difference But while global or transnational cultures may allow for a new cosmopolitanism that produces ever changing fluid

identities they do not give rise to an egalitarian global village an asymmetry between centre and periphery remains largely intact albeit along new parameters The essays collected in this volume offer readings of literary theoretical and filmic texts from the postcolonial world These texts are read as attempts to articulate the global with the local from a perspective of immersion in the actual diversity of life worlds focusing on such issues as consumption identity politics and modes of affiliation In this sense they are global fragments locally refracted figurations of an experience of world wide interconnectedness

The Self-Emptying Subject Alex Dubilet, 2018-04-03 Against the two dominant ethical paradigms of continental philosophy Emmanuel Levinas's ethics of the Other and Michel Foucault's ethics of self cultivation The Self Emptying Subject theorizes an ethics of self emptying or kenosis that reveals the immanence of an impersonal and dispossessed life without a why Rather than aligning immanence with the enclosures of the subject The Self Emptying Subject engages the history of Christian mystical theology modern philosophy and contemporary theories of the subject to rethink immanence as what precedes and exceeds the very difference between the human self and the divine other between the subject and transcendence By arguing that transcendence operates and subjects life in secular no less than in religious domains this book challenges the dominant distribution of concepts in contemporary theoretical discourse which insists on associating transcendence exclusively with religion and theology and immanence exclusively with modern secularity and philosophy The Self Emptying Subject argues that it is important to resist framing the relationship between medieval theology and modern philosophy as a transition from the affirmation of divine transcendence to the establishment of autonomous subjects Through an engagement with Meister Eckhart G W F Hegel and Georges Bataille it uncovers a medieval theological discourse that rejects the primacy of pious subjects and the transcendence of God Eckhart retrieves a modern philosophical discourse that critiques the creation of self standing subjects through a speculative re writing of the concepts of Christian theology Hegel and explores a discursive site that demonstrates the subjecting effects of transcendence across theological and philosophical operations and archives Bataille Taken together these interpretations suggest that if we suspend the antagonistic relationship between theological and philosophical discourses and decenter our periodizing assumptions and practices we might encounter a yet unmapped theoretical fecundity of self emptying that frees life from transcendent powers that incessantly subject it for their own ends
