The American Religious Debate Over Birth Control, 1907-1937 Kathleen A. Tobin, 2017-07-06 The ongoing debates on the morality of artificial birth control sparked a heated public debate in the early twentieth century in an already religiously fragmented United States Many denominations took part in the deliberations both publicly and privately In examining the ideas about contraception and birth control at that time this book considers the cultural environment religion and its connection to the roots of birth control the questioning of religious doctrine the Protestants view of birth control the Lambeth conferences of 1930 the influence of conservatives and the influence of Catholics Also discussed is the historical context of fundamentalists versus modernists neo Malthusianism eugenics immigration the movement for legalization organized by Margaret Sanger and how the Catholic Church came to lead religious resistance to artificial birth control

The Schism of '68 Alana Harris, 2018-03-02 This volume explores the critical reactions and dissenting activism generated in the summer of 1968 when Pope Paul VI promulgated his much anticipated and hugely divisive encyclical Humanae Vitae which banned the use of artificial contraception by Catholics Through comparative case studies of fourteen different European countries it offers a wealth of new data about the lived religious beliefs and practices of ordinary people as well as theologians interrogating traditional teachings in areas relating to love marriage family life gender roles and marital intimacy Key themes include the role of medical experts the media the strategies of progressive Catholic clergy and laity and the critical part played by hugely differing Church State relations In demonstrating the Catholic Church s important and overlooked contribution to the
