The Harvard File:

The File Serge Lang, 2012-12-06 The File is a collection of documents from a major dispute involving a number of American college professors mainly mathematicians statisticians and sociologists The controversy was ignited by the mathematician Serge Lang's reaction to a questionnaire The 1977 Survey of the American Professoriate distributed by E C Ladd of the University of Connecticut and S M Lipset of Stanford The ensuing discussion in part acrimonious and personal soon involved a large group of active and passive participants and included issues such as survey techniques evaluation of academic work public and political honesty and McCarthyism at Harvard The Harvard File John F. Hamlin, 1988

The Paradiso Files Timothy M. Burke, 2008-04-15 The story transcends Boston with an insider's view of the criminal justice system The Boston Globe A captivating work of true crime investigative journalism that makes a powerful case against a previously unexposed Boston serial killer In this bold and suspenseful true crime story former homicide prosecutor Timothy M Burke makes his case against one Leonard Paradiso Lenny The Quahog was convicted of assaulting one young woman and paroled after three years but Burke believes that he was guilty of much more that Paradiso was a serial killer who operated in the Boston area and maybe farther afield for nearly fifteen years assaulting countless young women and responsible for the deaths of as many as seven Burke takes the reader inside the minds of prosecutors police investigators and one very dangerous man who thought he had figured out how to rape and murder and get away with it The Paradiso Files generated headlines when first published in February 2008 Nine days later Paradiso died at the age of sixty five without commenting on any of Burke's accusations including that he murdered Joan Webster a Harvard graduate student who disappeared from Logan Airport in 1981 Boston area prosecutors announced in September 2008 that Burke's revelations had led them to reopen the unsolved murder cases of three young women Melodie Stankiewicz Holly Davidson and Kathy Williams There were too many similarities between the individual cases to ignore a prosecutor involved in the new investigation said Burke's account leaves little doubt that Paradiso's deeds should go down in infamy alongside those of the Boston Strangler

The NLM Technical Bulletin, 1990 *The Structure of Ideas* Jared Schroeder, 2024-06-18 In his historic 1919 dissent Justice Oliver Wendell Holmes named and thus catalyzed the creation of the marketplace of ideas This conceptual space has ever since been used to give shape to American constitutional notions of the freedom of expression It has also eluded clear definition as jurists and scholars have contested its meaning for more than a century In *The Structure of Ideas* Jared Schroeder takes on the task of mapping the various iterations of the marketplace from its early foundations in Enlightenment beliefs in universal truths and rational actors to its increasingly expansive parameters for protecting expression in the arenas of commercial corporate and online speech Schroeder contends that in today's information landscape marked by the rapid emergence of artificial intelligence the marketplace is failing to provide a space where truths succeed and falsity fails AI and networked technologies have thoroughly overpowered all traditional pictures of the marketplace up to now Schroeder

proposes various theoretical interventions that would revise the marketplace for the current moment and concludes by describing a new space built around algorithms AI and virtual communication

Seeing Race Again Kimberlé Williams Crenshaw, 2019-02-05 Every academic discipline has an origin story complicit with white supremacy Racial hierarchy and colonialism structured the very foundations of most disciplines research and teaching paradigms In the early twentieth century the academy faced rising opposition and correction evident in the intervention of scholars including W E B Du Bois Zora Neale Hurston Carter G Woodson and others By the mid twentieth century education itself became a center in the struggle for social justice Scholars mounted insurgent efforts to discredit some of the most odious intellectual defenses of white supremacy in academia but the disciplines and their keepers remained unwilling to interrogate many of the racist foundations of their fields instead embracing a framework of racial colorblindness as their default position This book challenges scholars and students to see race again Examining the racial histories and colorblindness in fields as diverse as social psychology the law musicology literary studies sociology and gender studies Seeing Race Again documents the profoundly contradictory role of the academy in constructing naturalizing and reproducing racial hierarchy It shows how colorblindness compromises the capacity of disciplines to effectively respond to the wide set of contemporary political economic and social crises marking public life today
