Brenda Jackson,Penguin Books Staff,Ronald L McDonald,1974-06-15 *Speaking Freely* Floyd Abrams,2006-04-04 The rights guaranteed in the First Amendment including freedom of expression are among the fundamental touchstones of our democracy In *Speaking Freely* Floyd Abrams who for over thirty years has been our most eloquent and respected advocate for uncensored expression recounts some of the major cases of his remarkable career landmark trials and Supreme Court arguments that have involved key First Amendment protections With adversaries as diverse as Richard Nixon and Wayne Newton and allies as unlikely as Kenneth Starr Abrams takes readers behind the scenes to explain his strategies the ramifications of each decision and its long term significance presenting a clear and compelling look at the law in action

Triangle of Death Bradley O'Leary,2003-11-20 Here are the facts a President John F Kennedy supported the coup d tat that resulted in the assassination of Diem b twenty one days later Kennedy was assassinated c forty eight hours after JFK s murder the FBI deported a French assassin a fact that was not reported at the time even to the Warren Commission d this deportation order came from the Office of the Attorney General Robert F Kennedy Bradley O Leary and L E Seymour present a convincing argument that implicates not Lee Harvey Oswald but rather a conglomerate of conspirators in the death of beloved President Kennedy Using actual CIA documents interviews and evidence *Triangle of Death* will alter everything you thought you knew about John F Kennedy s death **Opium's Orphans** P. E. Caquet,2022-07-06 Upending all we know about the war on drugs a history of the anti narcotics movement s origins evolution and questionable effectiveness *Opium s Orphans* is the first full history of drug prohibition and the war on drugs A no holds barred but balanced account it shows that drug suppression was born of historical accident not rational design The war on drugs did not originate in Europe or the United States and even less with President Nixon but in China Two Opium Wars followed by Western attempts to atone for them gave birth to an anti narcotics order that has come to span the globe But has the war on drugs succeeded As opioid deaths and cartel violence run rampant contestation becomes more vocal and marijuana is slated for legalization *Opium s Orphans* proposes that it is time to go back to the drawing board **Geog.3** ,2002 Pontiff Gordon Thomas,Max Morgan-Witts,2014-07-01 The story of Paul VI John Paul I and John Paul II and an assassination plot by the New York Times bestselling coauthors of *The Day the World Ended* The Vatican has remained one of the last unexamined mysteries of the modern world For centuries pomp and pageantry have hidden from view the dramatic sometimes sinister realities that haunt the office of Supreme Pontiff and the men who make up his papacy Gordon Thomas and Max Morgan Witts now bring their tremendous investigative talent to this most secret of institutions offering us an unrivaled portrait and day to day account of the lives personalities and relationships of the three most recent popes an equally fine account of the hour by hour deliberations of the closely guarded conclaves at which two popes were elected in the fateful year of 1978 and a remarkable

rendering of the concrete issues facing the institutional papacy in foreign affairs economic matters and the human factor the highly individual ambitions loyalties and hatreds that characterize the men and women who serve the Holy Father The result is a book that is ahead of the world s headlines a book that makes headlines of its own Not only have the authors brought the world of the Vatican into the open their sleuthing has uncovered several major news stories Pontiff includes a day to day account of the assassination attempt by Mehmet Ali Agca upon John Paul II Agca s history and family his right wing political connections his activities and jailing in Turkey his escape from jail aided by the KGB his movements through terrorist training camps in Libya and Syria and a complete investigation of the Bulgarian connection that led to the shooting in St Peter s Square Here also is the story of John Paul II s involvement with the creation of Solidarity in Poland and his almost daily secret contacts with Lech Walesa as well as the unprecedented letter to Brezhev threatening his resignation from the papal throne In addition owing to the authors intricate web of connections at the Vatican including many cardinals the book contains previously unknown information about the man entrusted with the Church s money Paul Marcinkus and his relationship with the shadowy Michele Sindona Pontiff is a fascinating revelation of a world previously unknown to us and an intimate view of a few men in Rome trying to lead an increasingly unwilling world to their own vision of salvation

The Lebanese Connection Jonathan Marshall, 2012-05-16 Long before Mexico Colombia and Afghanistan became notorious for their contributions to the global drug traffic Lebanon was a special target of U S drug agents for harboring the world s greatest single transit port in the international traffic in narcotics In the words of one American official certain of the largest traffickers are so influential politically and certain highly placed officials so deeply involved in the narcotic traffic that one might well state that the Lebanese Government is in the narcotics business Using previously secret government records The Lebanese Connection uncovers for the first time the story of how Lebanon s economy and political system were corrupted by drug profits and how by financing its many ruthless militia Lebanon s drug trade contributed to the country s greatest catastrophe its fifteen year civil war from 1975 to 1990 In so doing this book sheds new light on the dangerous role of vast criminal enterprises in the collapse of states and the creation of war economies that thrive in the midst of civil conflicts Taking a regional approach to the drug issue Jonathan Marshall assesses the culpability of Syria Israel and of Palestinian factions and other groups that used Lebanon as their battleground On the international level he documents Lebanon s contribution to the hard drug problem of major consuming countries from the days of the French Connection through the Pizza Connection as well as Lebanon s unrivaled place in the global hashish market

Historical Perspectives on Organized Crime and Terrorism James Windle, John Morrison, Aaron Winter, Andrew Silke, 2018-02-20 In recent years in the context of the War on Terror and globalization there has been an increased interest in terrorism and organized crime in academia yet historical research into such phenomena is relatively scarce This book resets the balance and emphasizes the importance of historical research to understanding terrorism and organized crime This book explores historical accounts of organized crime

and terrorism drawing on research from around the world in such areas as the USA UK Ireland France Colombia Somalia Burma Turkey and Trinidad and Tobago Combining key case studies with fresh conceptualizations of organized crime and terrorism this book reinvigorates scholarship by comparing and contrasting different historical accounts and considering their overlaps Critical lessons learned are drawn out from each chapter providing valuable insights for current policy practice and scholarship This book is an indispensable guide for understanding the wider history of terrorism and organized crime It maps key historical changes and trends in this area and underlines the vital importance of history in understanding critical contemporary issues Taking an interdisciplinary approach and written by leading criminologists historians and political scientists this book will be of particular interest to students of terrorism counter terrorism organized crime drug policy criminology security studies politics international relations sociology and history More Dangerous Ground Roger Cook, 2007 *More Dangerous Ground* takes a fascinating look behind the scenes of *The Cook Report* and offers a provocative insight into what makes Roger Cook tick **Space, Time, and Organized Crime** Alan A. Block, 2024-11-01 Most research on organized crime reveals only a limited sense of its history Our understanding suffers as a result *Space Time and Organized Crime* shows how arguments about the sources consequences and extent of crime are distorted as a consequence of crude empiricism Originally published in Europe in 1991 as *Perspectives on Organizing Crime* this book is a timely blend of history criticism and research Fully one fourth of this new edition contains hitherto unpublished materials especially relevant to the American experience *Space Time and Organized Crime* describes the background of Progressive Era New York It then broadens its scope by exploring the changes in drug production and distribution in Europe from about 1925 to the mid 1930s Block addresses such little explored issues as the ethnicity of traders the structure of drug syndicates and the impact of legislation that attempted to criminalize increasing aspects of the world's narcotic industry prior to the Second World War He then goes on to present organized crime's involvement with transnational political movements intelligence services and political murders *Space Time and Organized Crime* concentrates on ambiguities evident in organized crime control such as the U S Internal Revenue Service's protection of criminal off shore financial interests and the contradictions found in America's war on drugs *Space Time and Organized Crime* demonstrates that the essential nature of crime in the twentieth century regardless of where it takes place cannot be understood without sound historical studies and a more sophisticated criminological approach Block's unique blend of stratification in a historical context will be of special interest to historians sociologists criminologists and penologist *Cocaine Fiends and Reefer Madness* Michael Starks, 2015-04-28 From the very beginning filmmakers have struggled to free themselves from censorship and manipulation by special interest groups and this struggle is clearly evident in the history of drug films *Cocaine Fiends and Reefer Madness* is an exhaustive exploration of the history of the depiction of psychoactive drugs in motion pictures from Thomas Edison's *Opium Smoker* 1894 to *Cocaine Cowboys* 1978 Included are over 400 silent and 1 000 sound films as well as nearly 500 drug abuse films 85

experimental films and 135 television programs More than 150 stills most never before published and many extremely rare illustrate the text Arranged chronologically as well as by drug type and often by country this book shows that far from being a recent phenomenon drug films were made in nearly every country and period that produced a significant body of films Visit Edison s first film studio reflect on the filmic consequences of Cocteau s opium addiction with Kenneth Anger s early experiences with magic mushrooms see Charles Laughton smuggling cocaine inside a statue of the Buddha and watch Douglas Fairbanks Sr consuming vast quantities of opium and cocaine in a World War I Sherlock Holmes parody

Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *The Golden Triangle* Ko-lin Chin,2011-02-23 The Golden Triangle region that joins Burma Thailand and Laos is one of the global centers of opiate and methamphetamine production Opportunistic Chinese businessmen and leaders of various armed groups are largely responsible for the manufacture of these drugs The region is defined by the apparently conflicting parallel strands of criminality and efforts at state building a tension embodied by a group of individuals who are simultaneously local political leaders drug entrepreneurs and members of heavily armed militias Ko lin Chin a Chinese American criminologist who was born and raised in Burma conducted five hundred face to face interviews with poppy growers drug dealers drug users armed group leaders law enforcement authorities and other key informants in Burma Thailand and China The Golden Triangle provides a lively portrait of a region in constant transition a place where political development is intimately linked to the vagaries of the global market in illicit drugs Chin explains the nature of opium growing heroin and methamphetamine production drug sales and drug use He also shows how government officials who live in these areas view themselves not as drug kingpins but as people who are carrying the responsibility for local economic development on their shoulders
