The Administrative Professional Online Training Indv:

Corporate E-Learning Luther Tai, 2008 Corporate e learning has become increasingly important in the contemporary universal access business world and can provide strategic and competitive advantages to corporations as a way to accelerate training and reduce the high costs of face to face learning programs However most of the books that are written about e learning do not describe in detail how corporate e learning is actually implemented within a specific company Corporate E Learning fills that gap by describing in depth how e learning programs are developed and instituted and how their effectiveness is measured from the perspective of practicing e learning professionals at IBM an early and liberal user of e learning technologies to train their global workforce Drawing on a wealth of in person interviews of numerous e learning professionals at IBM as well as recent e learning literature Tai discusses how IBM has significantly contributed to the evolution of corporate e learning In the course of doing so he makes useful comparisons with other companies and industries and draws conclusions that are applicable to any company considering utilizing e learning Companies should be careful concludes Tai to use e learning only when it makes strategic and economic sense not simply because the technology is available In addition e learning should always be used along with other more traditional means of learning and carefully monitored by feedback mechanisms to measure whether its objectives have been accomplished and how e learning programs might improve in the future Corporate E Learning is designed for classroom use in technology management courses and will also appeal to corporate professionals who are involved in training human resources development and performance improvement E-Learning, E-Education, and Online Training Giovanni Vincenti, Alberto Bucciero, Carlos Vaz de Carvalho, 2014-12-01 This book constitutes the thoroughly refereed post conference proceedings of the First International Conference on E Learning E Education and Online Training eLEOT 2014 held in Bethesda MD USA in September 2014 The 22 revised full papers presented were carefully reviewed and selected from numerous submissions and focus topics such as web based tools augmented reality mobile learning teaching frameworks and platforms virtual learning environments

Poverty for Profit Anne Kim, 2024-05-28 A Ms Magazine Most Anticipated Book A devastating investigation into the corporate poverty complex the myriad businesses that profit from the poor Poverty is big business in America The federal government spends about 900 billion a year on programs that directly or disproportionately impact poor Americans including antipoverty programs such as the earned income tax credit Medicaid and affordable housing vouchers and subsidies States and local governments spend tens of billions more Ironically these enormous sums fuel the corporate poverty complex a vast web of hidden industries and entrenched private sector interests that profit from the bureaucracies regulating the lives of the poor From bail bondsmen to dialysis providers to towing companies their business models depend on exploiting low income Americans and their political influence ensures a thriving set of industries where everyone profits except the poor while U S taxpayers foot the bill In Poverty for Profit veteran journalist Anne Kim investigates the multiple industries that infiltrate

almost every aspect of the lives of the poor health care housing criminal justice and nutrition She explains how these businesses are aided by public policies such as the wholesale privatization of government services and the political influence these industries wield over lawmakers and regulators Supported by original investigative reporting on the lesser known players profiting from the antipoverty industry Poverty for Profit adds a crucial dimension to our understanding of how structural inequality and structural racism function today
