branch acting as bankers for the Confederacy's procurement agents Merseyside with its extensive docks and numerous shipyards quickly became the epicenter of Confederate operations in Europe Several British businessmen bought ships specifically to run supplies through the Union blockade leaving relationships between the United States and Britain strained close to breaking point The book relates the history of Trenholm's commercial empire its pre war expansion into Liverpool and the pivotal role it played in supporting the Confederate war effort The involvement of other Liverpool based entrepreneurs and their successes and failures in blockade running is described Background histories of the Merseyside ship builders who constructed warships and blockade runners for the Confederacy are included as well as several mini biographies of the Liverpool based captains who smuggled out warships and braved the Union blockade Details of each ship built on Merseyside for involvement in the Civil War are listed The role of the United States consular service and its extensive Liverpool based spy ring is described as are the efforts of the United States ambassador in London to influence British government policy on neutrality The author a direct descendant of a Liverpool ship builder and a blockade running captain brings new insights and previously unpublished facts to light in this fascinating chapter of history **Congressional Record** United States.
