Plett, 2023-08-14 This volume is the first comprehensive reference work on English Renaissance rhetoric and poetics It is arranged in four sections A bibliographies B primary sources C secondary sources D indices Section B lists more than 500 books on rhetoric and poetics published in the British Isles and abroad between 1479 and 1660 Detailed information is provided on each of them transcription of the title page of the editio princeps call number of the library copy consulted further historical and modern editions together with the relevant secondary literature Section C covers the whole range of applied rhetoric and poetics totalling some 2 000 titles between 1900 and 1994 It deals systematically with such topics a General Studies Rhetorical Genres and Rhetoric Poetics and Individual Authors An introductory essay outlines the principles of the bibliography *Stylistic Virtue and Victorian Fiction* Matthew Sussman, 2021-07-01 What is style and why does it matter This book answers these questions by recovering the concept of stylistic virtue once foundational to rhetoric and aesthetics but largely forgotten today Stylistic virtues like ease and grace are distinguishing properties that help realize a text s essential character First described by Aristotle they were integral to the development of formalist methods and modern literary criticism The first half of the book excavates the theory of stylistic virtue during its period of greatest ascendance in the late eighteenth and nineteenth centuries when belletristic rhetoric shaped how the art of literary style and the aesthetic were understood The second half offers new readings of Thackeray Trollope and Meredith to show how stylistic virtue changes our understanding of style in the novel and challenges conventional approaches to interpreting the ethics of art *The Rhythms of English Poetry* Derek Attridge, 2014-07-10 Examines the way in which poetry in English makes use of rhythm The author argues that there are

three major influences which determine the verse forms used in any language the natural rhythm of the spoken language itself the properties of rhythmic form and the metrical conventions which have grown up within the literary tradition He investigates these in order to explain the forms of English verse and to show how rhythm and metre work as an essential part of the reader's experience of poetry

Principles of Letter-writing Justus Lipsius, 1996 As part of the sixteenth century's intellectual triumvirate which included Joseph Scaliger and Isaac Casaubon Justus Lipsius formulated a humanist scholarship aimed ultimately at practical application in both public and personal affairs Justus Lipsius distinguished himself as a student of the classics first at the Jesuit college at Cologne and then at the university in Leuven Louvain In 1569 soon after completing his studies he published a precocious volume of *Varia Lectiones* a collection of philological observations on classical texts This initial work had significant and lasting effects on his career the most immediate being an appointment as Latin secretary to Cardinal Granvelle chief minister of Philip II in the Low Countries who took the young man to Rome where he was introduced to international power politics as well as to the treasures of Italian libraries including the Vatican's After two years in Rome Lipsius began his uneasy roaming traveling from Vienna to Jena to Cologne serving in a variety of posts In 1579 he accepted a position at Leiden University in Holland where he found a haven from his home province for nearly thirteen years It was there that he delivered the lectures on letter writing that later became *Epistolica Institutio* In 1591 when Leiden University became too stridently Calvinist for Lipsius he returned to Leuven as professor of Latin and was once again reconciled with the Catholic Church There he remained for the rest of his life resisting numerous appeals from foreign courts and especially from Italian churchmen As a particularly suitable commentator on the letter Lipsius like so many humanist scholars was a prolific correspondent and published many of his own letters In the manner typical of his age he used the published letter as a kind of forerunner to the scholarly article Yet his chief distinction as an epistolary theorist lies in his view of the letter as a means of personal expression His purpose was to recover the classical Roman view of the letter as written conversation a conception lost during the Middle Ages and only imperfectly restored during the earlier Renaissance Hence the *Epistolica Institutio* assumes an important position in the Lipsius canon as an effort to restore the authentic features of the classical genre it bespeaks the humanist scholar in marking out a space for individual self definition during a period of increasingly powerful and alienating social and religious pressures it anticipates the ideological preoccupations of the contemporary world

The Epistemic Music of Rhetoric Steven B. Katz, 1996 Katz English North Carolina State U examines the correlation between Reader Response Criticism and the philosophy of science engendered by the Copenhagen School of New Physics and assesses the scientific empiricism that controls the parameters of reading and writing theory to look at the possibility of teaching reading and writing as rhetorical music He reinterprets Cicero's rhetorical theory in light of recent revisionist scholarship and sketches a temporal model of affective response in reading and writing

Crises of the Sentence Jan Mieszkowski, 2019-04-02 There

are few forms in which so much authority has been invested with so little reflection as the sentence Though a fundamental unit of discourse it has rarely been an explicit object of inquiry often taking a back seat to concepts such as the word trope line or stanza To understand what is at stake in thinking or not thinking about the sentence Jan Mieszkowski looks at the difficulties confronting nineteenth and twentieth century authors when they try to explain what a sentence is and what it can do From Romantic debates about the power of the stand alone sentence to the realist obsession with precision and revision to modernist experiments with ungovernable forms Mieszkowski explores the hidden allegiances behind our ever changing stylistic ideals By showing how an investment in superior writing has always been an ethical and a political as well as an aesthetic commitment Crises of the Sentence offers a new perspective on our love hate relationship with this fundamental compositional category
