The Cold War Defense of the United States John E Bronson,2019-04-26 During the Cold War as part of its defense strategy against the Soviet Union the U S was forced to establish means of massive long range attack in response to Soviet advancements in weaponry These defenses detected and tracked manned bomber aircraft hostile submarines and missiles launched from the other side of the world This book shows how these defenses evolved from fledgling stop gap measures into a complex fabric of interconnected combinations of high tech equipment over 40 years Maps illustrate the extent of the geographic coverage required for these warning and response systems and charts display the time frames and vast numbers of both people and equipment that made up these forces

At Sea Against the Soviet Fleet Bryan H. Leese,2025-10-14 *At Sea Against the Soviet Fleet* is a history of the evolution of the United States Navy's Operational Intelligence culture that informs great power competition with China today *At Sea Against the Soviet Fleet* examines the critical transformation of naval intelligence during a pivotal era marked by the Cold War and the Vietnam conflict Bryan Leese meticulously details how U S Navy operational intelligence evolved to meet the complexities of modern naval warfare particularly in response to the increasing threats posed by the Soviet Navy Structured into four main parts this book begins by examining the Vietnam War and the institutionalization of shipboard operational intelligence or what Navy intelligence calls Opintel The book highlights the establishment of Integrated Operational Intelligence Centers as part of the RA 5C Vigilante program and the innovative strategies that emerged in air combat and targeting Leese goes on to underscore the necessity of Opintel to the U S Navy's close and distant blockade strategy in the 1960s and 1970s He delves into the decentralization of intelligence processes emphasizing the importance of adaptability and the need to prevent surprise attacks This evolution is framed within the transition to the Navy's Ocean Surveillance Information System a decentralized and responsive operational intelligence system The ongoing developments of shipboard intelligence capabilities are explored demonstrating how these advancements empowered naval commanders In the 1970s the organizations evolved as the revolutionary Opintel adaptations of the 1960s that leveraged cooperation without hierarchy became formalized Leese highlights the revolution to evolution process by introducing Opintel support to shipboard tactical decisions to integrate operational intelligence into comprehensive naval strategies Capturing the essence of this transformative period the author discusses the cultural dynamics within the Navy that fostered innovation and interdepartmental collaboration These developments not only contributed to maintaining a strategic edge over the Soviet Union but also laid the groundwork for future naval operations in the digital age Leese's work reveals the intricate interplay between technology strategy and personnel in creating an effective intelligence framework that allows the U S Navy to assert influence at sea setting conditions for sea control in conflict By blending rich archival research with firsthand accounts this book offers a nuanced understanding of how the Navy

serious and humorous that occurred during that time of great global conflict

Three Years Aboard a Navy Destroyer

Otis Ted Holly, 2011-04-25 This book is a sea story about a U S Navy destroyer and her crew The author served on this ship the USS Brush DD745 for 3 years and 2 months in the early 1950s Life on the Brush involved a lot of sea duty She spent most of this time at sea either conducting training exercises off the coast of California or steaming around somewhere in the Far east The Brush made 3 seven month cruises to the Orient while the author was aboard her The main objective of this book and the reason for writing it was to tell about what the crew of the Brush experienced on these 3 cruises The first cruise was made in early 1953 The Brush was sent to the Korean War theatre and spent several months there doing what destroyers do during war time The men experienced things off North Korea that they will never forget In addition to the Korean Patrol the Brush participated in the Formosa Patrol for a month or so and went to the island city of Hong Kong while she was down that way The second cruise was made in May 1954 On this cruise the brush spent most of her time in the South China Sea Formosa Strait and in the Sea of Japan The Brush commenced the third cruise in June 1955 This was more of a peace time cruise and we never had to go into harms way Although the author had a number of interesting personal experiences which he wrote about Comments by people who have read the book Three Years Aboard A Navy Destroyer As the son of one of the USS Brushs skippers identified in Ted Hollys book I was particularly fascinated to read of his and his shipmates many and varied experiences during their three Far East cruises His folksy stories of a young mans explorations of the vastness of the oceans the wonders of the orient and the uncertainties of combat are told in a detailed and entertaining style offering multiple layers of insight to life aboard a tin can in the 1950s In addition to his prose Mr Holly has included many photographs and maps which enhance and elucidate the storytelling It is a terrific read for anyone interested in the naval service in general and the unforgotten Korean War in particular Dennis Quigley Captain USMC Retired Arizona the straightforward and unglossed memories of a young sailor out of high school and soon into a U S destroyer greyhound of the seas Ted Holly was everybodys favorite sailor squared away with a great attitude in a key job around the nerve center of a 2200 tonner loaded for whatever kind of scrap This book is an honest snapshot of the times the people and the ships that sailed to the Korean Conflict Ted Brown LT USNR Retired New Hampshire This book Three Years Aboard A Navy Destroyer vividly recounts typical destroyer i e USS BRUSH DD745 operations during the final days of the Korea War and the transition into post war routine operations It accurately reports destroyer actions against North Korean trains sinking of floating mines with rifle fire the Wonsan Harbor actions and support of Korean Forces engaged in clandestine operations It also provides a typical sailors view and experiences of the liberty ports in Japan and the exotic Hong Kong as a British Colony And the author returns to Japan 29 years later and gives an interesting comparison of his experiences and the differences that he observed between his first trip and the 1982 trip The BRUSH was my first duty station after being commissioned in June 1951 until my transfer in November 1953 So I shared with the author the destroyer actions described I was amazed that he was able to

capture these events in so much detail and I enjoyed remembering the details of these events Herbert O Burton Captain USN Retired North Carolina Three Years Aboard A Navy Destroyer is a marvelous account of the experience of the author as a young sailor during a period that few since the days of World War II have had the opportunity to share While certainly many have sailed the seas and some have encountered hostile action this account fills the gap for those who have not had such an experience Ted Holly communicates in the language of the sailor his experience that draws the reader into such that it is as if he or she is there He captures the attention of the reader and presents an engaging account of the experiences of life aboard a 2200 ton vessel which is missing all of the comforts of the cruise ship from the periods of relative boredom to the periods of action with live ammunition Rev Ralph H Spiller Jr PhD LMHC CWO3 USN Retired Florida Maine Ted Hollys book is remarkable at several levels First he treats a subject from his own experience that is not often considered life on an American destroyer during the Korean War Further he lends authenticity to his narrative through the painstaking process of obtaining and relying on the actual ships logs day by day throughout his entire tenure aboard the USS Brush Added to that he as a quartermaster was well placed to hear and see much of what was happening aboard the ship Ted includes exhaustive details on some of the high points of the ships experience the shell hit in Wonsan Harbor and the attack on the submarine as examples Even for we who were aboard during much of the time covered in the book some of the events were revelations We either remembered them differently or not at all or in less detail but must defer to Teds account because of his reliance on the logs Therefore for any member of the crew during that period Teds book is an enjoyable and enlightening read Don Gordon RD 3 C USN Retired North Carolina Great book As a Destroyer Sailor aboard the USS DeHaven during the Korean War I can testify Ted has written a fine book about his navy years aboard the USS Brush If you are a navy destroyer sailor reading this book then get ready to relive an exciting experience I can recommend Teds book to anyone interested in ships shipboard life and even to one who has never been to sea An outstanding experience Bill Williams YN 2 C USN Retired Florida
