A. DeCandido, Christie Golden, Robert Greenberger, Susan Wright, 2002-06-08 Created by the incalculably ancient Iconians whose transcendent technology is quantum levels beyond that of the Federation and its allies the Gateways offer instantaneous transport across unimaginable distances Throughout the known galaxy from Deep Space Nine to the New Frontier from the Delta Quadrant to the bridge of the Starship Enterprise the sudden reactivation of the Gateways has destabilized interstellar relations between planets and cultures previously separated by countless light years Starfleet's finest have coped with the crisis as best they can but circumstances have forced several valiant commanders to leap through separate Gateways into the unknown Captain James T Kirk of the original Starship Enterprise Captain Jean Luc Picard of Star Trek The Next Generation Colonel Kira Nerys of Deep Space Nine Captain Kathryn Janeway of the U S S Voyager Captains Calhoun and Shelby of Star Trek New Frontier Commander Nick Keller of the U S S Challenger All of these heroes for their own reasons have taken the ultimate gamble hurling themselves personally through a Gateway without any knowledge or forewarning of what lay beyond Each must face their own unique challenge struggling to find a way back to the ships and homes they left behind And waiting behind at least one of the Gateways are the ageless Iconians themselves the primordial architects of the mysterious portals causing chaos throughout the Milky Way galaxy Where did they disappear to many long eons ago and what do they want now The answer lies on the other side What Lay Beyond brings the Gateways saga to a spectacular finish in an all star collaboration by six popular bestselling Star Trek authors Among them Diane Carey Peter David Keith R A Decandido Christie Golden Robert Greenberger and Susan Wright have written dozens of Star Trek novels This is their first mega collaboration **Toward Armageddon** David Alan Rosenberg, 1983 **Adventures In Time And Space** Mary Taylor (ed), 2012-10-23 From The Entropy Effect to The Q Continuum Pocket Books has published hundreds of pulse pounding thought provoking Star Trek novels in the twenty years since Pocket Books US became the official Star Trek publisher To date there have been 87 Original Series novels featuring Captain Kirk Mr Spock and their crew 50 Next Generation novels featuring the Captain Picard and the crew of the Enterprise D and E 26 set on Captain Sisko's space station Deep Space Nine and 18 following the adventures of Star Trek's newest crew on the USS Voyager Plus there've been numerous unnumbered series novels five multi volume crossover series and several movie tie ins From this abundance of riches editor Mary Taylor has compiled the ultimate anthology of gripping writing and memorable moments guaranteed to

delight all Star Trek fans **Living with Star Trek** Lincoln Geraghty,2007-03-30 There is a wealth of literature on Star Trek and this book is a welcome and original contribution to it The book not only sets Star Trek in dialogue with ideas and stories of utopia community self improvement that are central to American culture and history but goes further to examine the ways in which these are taken up and used by ordinary fans who engage with Star Trek in complex and significant ways Lincoln Geraghty explores for example Star Trek s multiple histories and how Star Trek has used the Puritan American Jeremiad one of the nation s foundational texts to create a narrative that relates how through communal effort and personal change utopia can be achieved He discusses how fans define the series as a blueprint for the solution of such social problems in America as racism and war and shows how they have used the series to cope with personal trauma and relate to such characters as Data and Seven of Nine in moments of personal transformation This is all in all an enjoyable and revealing book on Star Trek s active relationship with its many thoughtful fans **The Gnostic Pynchon** Dwight Eddins,1990-09-22 The appearance of *Vineland* his first novel in seventeen years has rekindled critical debate on Thomas Pynchon Written before the publication of the new novel but remarkably prescient about its themes *The Gnostic Pynchon* is a provocative reading of Pynchon s work Where most critics find in Thomas Pynchon a postmodern writer of indeterministic relativistic contingent fiction Dwight Eddins also finds a man on a religious quest Pynchon s quest Eddins shows is for some principle of organic order that will provide an alternative to hopeless ambiguity or an equally hopeless choice between total chaos and total control *The Gnostic Pynchon* is a profoundly revisionist view of one of this century s most important writers **Original Sins** Lisa Alther,2010-12-14 Five childhood friends with big plans face the changing realities of life in Tennessee in the 1960s in this novel from bestselling author Lisa Alther As Sally and Emily Prince and Jed Raymond and Donny Tatro sit under their beloved Castle Tree in rural segregated Tennessee they dream big dreams But the journey from these dreams to reality is a long one As they move into their teens each faces challenges they could never have imagined Sally and Jed may take a traditional route as head cheerleader and football captain in their sports frenzied town but can their love survive some unexpected bumps in the road Emily and Raymond always the outsiders move north during the civil rights movement and must consider their connection to Southern roots and traditional gender roles And Donny as an African American teen will endure the effects of generations of discrimination and class boundaries as he tries to live out his dreams in their small factory town Along the way the five will fall in love change one another s lives grow apart and come together again In this sweeping novel Alther brings to life characters both tragic and comic as they live through the changing American socio economic landscape of the 1950s and 60s This ebook features an illustrated biography of Lisa Alther including rare photos from the author s personal collection **The Star Trek Universe** Douglas Brode,Shea T. Brode,2015-05-14 As one of the most influential shows of all time Star Trek continues to engage fans around the world But its cultural impact has grown far beyond the scope of the original seventy nine episodes The show spawned an unprecedented progeny beginning with Star

Trek The Next Generation followed by three additional series of space exploration Film versions featuring Captain Kirk Mr Spock and other original crew members first appeared in 1979 followed by a number of successful sequels and ultimately a reboot of the original show From the modest ambitions of the show s creator Gene Roddenberry Star Trek gradually transformed into a true franchise an expanded universe that continues to grow In The Star Trek Universe Franchising the Final Frontier Douglas and Shea T Brode have collected several essays that examine the many incarnations that have arisen since the original program concluded its run in 1969 Every aspect of media into which Star Trek has penetrated is covered in this collection the four television shows literature toys games and the big screen reboot of the original series featuring the Enterprise and her crew Essays address a number of elements particularly how the franchise has had an impact on gaming fandom and even technology Other essays consider how race gender and sexuality have been addressed by the various shows and films After a half century of boldly exploring topical issues that concern all of humanity Star Trek warrants serious attention now more than ever Looking beyond the entertainment value of its many versions The Star Trek Universe a companion volume to Gene Roddenberry s Star Trek offers provocative essays that will engage scholars of gender studies race studies religion history and popular culture not to mention the show s legions of fans around the planet *The Whole Story* John E. Simkin,1996 This work is the only comprehensive guide to sequels in English with over 84 000 works by 12 500 authors in 17 000 sequences From Paris with Love William H. Friedman,2017-09-28 This collection includes poems from two weeks in Paris France where I and Mrs Maguy Joseph visited for seven straight summers or seasons Then there are also variety of poems about black white race relations The weeks these poems were done were gloomy and cold in October that year And rain bothered my arthritic right leg Nonetheless I feel the selection of poems were sufficient for this book Even the October leaves hadn't turned color yet as I had hoped for But these problems seemed surmountable why Because I had my partner at home to think about while I was temporarily away There are some other poems to fill out this selection too A few are about the primary campaign between Hillary Clinton and Bernie Sanders At the present time I m working on poems with rhymed stanzas **The Fall of the House of Bush** Craig Unger,2008-09-04 Conventional wisdom has it that the Middle East crisis is the product of a clash of civilizations between Islam and the West THE FALL OF THE HOUSE OF BUSH frames that conflict as part of an entirely different paradigm namely the ongoing war between faith and reason between fundamentalisms Islamic Jewish Christian and the modern scientific post Enlightenment world It tells the story of how radical neoconservative ideologues secretly formed an alliance with the Christian Right in the Bush White House and how driven by delusional idealism and ideological and religious zeal they waged unilateral and pre-emptive war in the Middle East as well as a domestic war against reason science and civil liberties Extending the investigative reach deployed so devastatingly in HOUSE OF BUSH HOUSE OF SAUD Craig Unger s brilliant expos shows the real intentions and likely outcomes of the Bush administration s true playbook **At Sixes and Sevens** Mallory Van Arthur,2016-09-12 Mallory Van Arthur didn't signal the

public when he wrote his first poem His poems consist of his stygian and copacetic days He may not write words down every second but his mind is always outlining any form of creativity The somber poems aren't meant to raise controversy because Mallory knows how his mind works The love poems are meant to be up for debate since his love life seems to be related to his personal issues Mallory is a huge fan of Slipknot because their melody haves him reincarnate each time a song starts and finishes a million times Books in Print Supplement ,2002 **Recollections in Tranquility** Richard Joseph
