Cinthia Lara,2015-02-01 El subdesarrollo económico es un problema del campo económico que tiene y puede ser evaluado
desde la perspectiva crítica Además es un problema que aqueja a una gran proporción de la población mundial colocándola en un nivel
de vida considerablemente bajo esto debe conducir al análisis de la responsabilidad moral que tenemos con la organización
política económica y social de un sistema que no puede seguir excluyendo a millones de personas a cambio del bienestar de
unos pocos La desigualdad económica implicar una relación asimétrica en la distribución de bienes y servicios En este
escenario la falta de igualdad económica coloca a unos como los beneficiados de dicho sistema y a otros les corresponde la
riqueza la afirmación mientras que a otros les atañen los efectos nocivos la pobreza la negación esto deviene en la dicotomía
existente entre ricos y pobres Es fundamental no perder de vista la existencia de ambos polos pues con frecuencia el sistema
ha de buscar resaltar sus ventajas a costa del olvido y exclusión del extremo opuesto cual si no fuera parte del mismo sistema
o fuera producto de fenómenos ajenos El sustentar la desigualdad apelando a que trae una proporción de bienestar a negar los
efectos contraproducentes que el mismo concepto indica es decir negar a que existe alguien a quien dicho sistema no
favorece El beneficio que puede producir para unos no justifica el mal que produce para otros De esta manera veremos que
la desigualdad implica cuestiones éticas en tanto que puede evaluarse en qué medida los efectos producidos son buenos o
malos Una perspectiva crítica ser la que intente mostrar la invalidez de un sistema desigual dando razones para su posible

de Polavieja,2024-09-17 El presente libro titulado Historia de la teología de la liberación del Concilio Vaticano II a la CELAM de Puebla consiste en un análisis y desarrollo de dicha instancia eclesial en su doble contexto geopolítico concéntrico el de América Latina y el del mundo desde el final de concilio hasta finales de los años setenta coincidiendo con el asesinato de monseñor Romero la elección de Wojtyła para la sede petrina y la victoria de la revolución sandinista de Nicaragua De esta manera podemos considerar a la teología de la liberación como una gran corriente que al interior de las iglesias principalmente la católica pero también las reformadas pretende una revolución cultural intraeclesial para posibilitar una revolución social extraeclesial que a su vez pueda crear un nuevo orden sociopolítico que luche de modo efectivo contra el hambre la pobreza y la desigualdad No es casual que dicha realidad surja en la Suramérica de los sesenta pues se trata del contexto de un subcontinente que alberga de modo simultáneo la mayor población católica del mundo y las mayores tasas planetarias de desigualdad Algo de esto y más percibí el pequeño grupo de entonces jóvenes teólogos latinoamericanos Dussel Gutiérrez Boff que acudí a Europa a doctorarse y que ya de vuelta se dio a la labor de difundir una nueva visión del cristianismo donde el pecado ya no era el ateísmo sino la pobreza Por todo ello y en un contexto planetario de guerra fría y de polaridad ideológica en el cual América Latina a excepción de Cuba era el patio trasero de EEUU gracias a un sinnúmero de golpes de Estado invasiones y todo tipo de conculcaciones a los DDHH fue inevitable que la teología de la liberación sufriera una implacable persecución de doble naturaleza la política militar de la CIA y la teológica administrada del Vaticano Reacción inútil pues como dijo el arzobispo Romero antes de su asesinato si me matan resucitaré en el pueblo salvadoreño
