*The Facts on File Companion to the French Novel* Karen L. Taylor, 2006 French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization

**The Philosophy of Parochialism** Radomir Konstantinovic, 2021-10-07 The *Philosophy of Parochialism* is Radomir Konstantinovi's 1928 2011 most celebrated and reviled book First published in Belgrade as *Filosofija palanke* in 1969 it attracted keen attention and controversy through its unsparing critique of Serbian and any other nationalism in Yugoslavia and beyond The book was prophetic seeming to anticipate not only the bloody disintegration of Yugoslavia in the 1990s but also the totalitarian turn in politics across the globe in the first decades of the new century With this translation English speaking audiences can at last discover one of the most original writers of eastern European late modernism and gain an important and original perspective into contemporary politics and culture in the West and beyond This is a book that seems to age in reverse as its meanings become deeper and more universal with the passage of time Konstantinovi's book resists easy classification mixing classical Montaigne like essay prose poetry novel and literary history The word philosophy in the book's title refers to the solitary activity of reflection and critical thinking and is also paradoxical according to the author a defining characteristic of parochialism is precisely its intolerance toward this kind of self reflexivity In Konstantinovi's analysis parochialism is not simply a characteristic of a geographical region or a cultural political and historical formation these are all just manifestations of the parochial spirit as the spirit of insularity His book illuminates the current moment in which insularity undergirds not only ethnic and national divisions but also dictates the very structure of everyday life and where individuals can easily find themselves locked in an echo chamber of social media The *Philosophy of Parochialism* can help us understand better not only the dead ends of ethnic nationalism and other atavistic ideologies but also of those cultural forces such as digital technologies that have been built on the promise of overcoming those ideologies

*Narrative Transformations from L'Astrée to Le Berger Extravagant* Leonard Hinds, 2002 Though Honoré d'Urfé's *L'Astrée* 1607 28 and Charles Sorel's *Le berger extravagant* 1627 28 use similar imagery of death entombment and renewal Hinds French language and literature Indiana U argues that they use them to different ends Indeed he says the latter is a parody of the first and between them lies a watershed between romanticism and the reaction against it

Annotation copyrighted by Book News Inc Portland OR *Power Play in Latin Love Elegy and its Multiple Forms of Continuity in Ovid's >Metamorphoses* José Manuel Blanco Mayor, 2017-02-20 Conceived as a necessary reconsideration of the pristine elegiac question in Ovid's *Metamorphoses* this book intends to offer an analysis of the function of elegiac discourse within Ovid's magnum opus from the perspective of metapoetics To that end the author undertakes in the first section a close re-reading of some relevant passages of Latin love elegy From a prism that takes into account the

characteristically elegiac multivocality the genre reveals itself as an agonistic discourse in which the poet dramatises his metaliterary power relation with the puella who is unveiled as the synthesis of the distinct sub products of his poetic activity Thereupon the author proceeds to scrutinise how elegiac elements are assimilated and transformed as they become integrated within the framework of Ovid's poem of changing forms Far from being a mere stylistic ornament the presence of an elegiac register in many erotic passages tells us about Ovid's stance towards love as a metapoetic trope By reworking elegiac tradition to the point of transforming it into a novum corpus the poet ultimately substantiates the mutability of generic categories
