Chronicity Enquiries: Making Sense of Chronic Illness Li Zhenyi, Sara Rieder Bennett, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2013 Chronic illness together with people experiencing or treating it became almost mute to predominant biomedical narration pervasive in mainstream media education medical and pharmaceutical industry Contributors in this book aim to represent discuss and preserve the vanishing voices and stories on chronic illness from dimensions beyond medicine so that we may make sense of chronicity with the diversity it deserves The book also incorporates research articles which share important stories about chronicity These stories same as chronic illness in our world should not be treated in a standardised way Each reader we hope will relate the meanings of chronicity in this book to his or her own world

**Modernism and Physical Illness** Peter Fifield, 2020-07-08 T S Eliot memorably said that separation of the man who suffers from the mind that creates is the root of good poetry This book argues that this is wrong Beginning from Virginia Woolf's *On Being Ill* it demonstrates that modernism is on the contrary invested in physical illness as a subject method and stylizing force Experience of physical ailments from the fleeting to the fatal the familiar to the unusual structures the writing of the modernists both as sufferers and onlookers Illness reorients the relation to and appearance of the world making it appear newly strange it determines the character of human interactions and models of behaviour As a topic illness requires new ways of writing and thinking altered ideas of the subject and a re examination of the roles of invalids and carers This book reads the work five authors who are also known for their illness hypochondria or medical work D H Lawrence Virginia Woolf T S Eliot Dorothy Richardson and Winifred Holtby It overturns the assumption that illness is a simple obstacle to creativity and instead argues that it is a subject of careful thought and cultural significance

**Visualizing Law in the Age of the Digital Baroque** Richard K Sherwin, 2012-05-23 Visualizing Law in the Age of the Digital Baroque explores the profound impact that visual digital technologies are having on the practice and theory of law Today lawyers judges and lay jurors face a vast array of visual evidence and visual argument From videos documenting crimes and accidents to computer displays of their digital simulation increasingly the search for fact based justice inside the courtroom is becoming an offshoot of visual meaning making But when law migrates to the screen it lives there as other images do motivating belief and judgment on the basis of visual delight and unconscious fantasies and desires as well as actualities Law as image also shares broader cultural anxieties concerning not only the truth of the image but also the mimetic capacity itself the human ability to represent reality What is real and what is simulation This is the hallmark of the baroque when dreams fold into dreams like immersion in a seemingly endless matrix of digital appearances When fact based justice recedes laws proliferate within a field of uncertainty Left unchecked this condition of ontological and ethical uneasiness threatens the legitimacy of law's claim to power Visualizing Law in the Age of the Digital Baroque offers a jurisprudential paradigm that is equal to the challenge that current cultural conditions present

**Foucault's Monsters**

**and the Challenge of Law** Alex Sharpe, 2009-12-16 This book considers the legal category monster from theoretical and historical perspectives and deploys this category in order to understand contemporary anxieties surrounding transsexuals conjoined twins and transgenic humans

**Deracination** Walter A. Davis, 2001-02-15 Attempts to comprehend the traumatic significance of Hiroshima in order to construct a new theory of history

**Abraham Joshua Heschel** Stanisław Krajewski, Adam Lipszyc, 2009 The book is devoted to the thought of one of the 20th century's most interesting philosophers of religion Heschel a traditional Polish Jew who became a modern thinker was also an impressive prophet of interreligious dialogue The book is the fruit of a scholarly conference held in 2007 at the University of Warsaw in Heschel's native city on the occasion of the 100th anniversary of his birth Given the depth and scope of his thinking the papers gathered in the volume will be of interest not only to philosophers theologians and scholars of Heschel but also to those who know little about Heschel but are interested in the fundamental problems that appear at the borders between philosophy and theology religion and modernity Judaism and Christianity and more broadly problems of interfaith relations and their future Among the contributors to the volume there are many of the foremost Heschel scholars from the United States and Israel as well as authors from Poland and other European countries The authors believe that the influence of Heschel will continue to grow worldwide

**Travels with Tocqueville Beyond America** Jeremy Jennings, 2023-03-21 Alexis de Tocqueville famously wrote about democracy in America but he also lauded Catholic society in Quebec feared the nationalism he saw in Germany and controversially defended French colonization of Algeria Jeremy Jennings traces Tocqueville's lesser known travels recovering the wider insights of one of history's great political thinkers

**Romantic Science** Noah Heringman, 2012-02-01 Although romantic science may sound like a paradox much of the romance surrounding modern science the mad scientist the intuitive genius the utopian transformation of nature originated in the Romantic period Romantic Science traces the literary and cultural politics surrounding the formation of the modern scientific disciplines emerging from eighteenth century natural history Revealing how scientific concerns were literary concerns in the Romantic period the contributors uncover the vital role that new discoveries in earth plant and animal sciences played in the period's literary culture As Thomas Pennant put it in 1772 Natural History is at present the favourite science over all Europe and the progress which has been made in it will distinguish and characterise the eighteenth century in the annals of literature As they examine the social and literary ramifications of a particular branch or object of natural history the contributors to this volume historicize our present intellectual landscape by reimagining and redrawing the disciplinary boundaries between literature and science Contributors include Alan Bewell Rachel Crawford Noah Heringman Theresa M Kelley Amy Mae King Lydia H Liu Anne K Mellor Stuart Peterfreund and Catherine E Ross

**Madmoments: or First verse attempts** Henry Ellison (of Christchurch, Oxford.), 1839 Absolute Music and the

Construction of Meaning Daniel Chua, 1999-11-25 This book is born out of two contradictions first it explores the making of meaning in a musical form that was made to lose its meaning at the turn of the nineteenth century secondly it is a history of a music that claims to have no history absolute music The book therefore writes against that notion of absolute music which tends to be the paradigm for most musicological and analytical studies It is concerned not so much with what music is but with why and how meaning is constructed in instrumental music and what structures of knowledge need to be in place for such meaning to exist From the thought of Vincenzo Galilei to that of Theodore Adorno Daniel Chua suggests that instrumental music has always been a critical and negative force in modernity even with its nineteenth century apotheosis as absolute music **The Bookman**, 1901 Imagining the British Atlantic after the American Revolution Michael

Meranze, Saree Makdisi, 2016-01-28 Between 1750 and 1820 tides of revolution swept the Atlantic world From the new industrial towns of Great Britain to the plantations of Haiti they heralded both the rise of democratic nationalism and the subsequent surge of imperial reaction In *Imagining the British Atlantic after the American Revolution* nine essays consider these revolutionary transformations from a variety of literary visual and historical perspectives On topics ranging from painting and poetry to prison reform the essays challenge and complicate our understandings of revolution and reaction within the transatlantic imagination Drawing on examples from different local and regional contexts they demonstrate the many remarkably local ways that revolution and empire were experienced in London Pennsylvania Pitcairn Island and points in between Published by the University of Toronto Press in association with the UCLA Center for Seventeenth and Eighteenth Century Studies and the William Andrews Clark Memorial Library **Victorian demons** Andrew Smith, 2017-06-01

*Victorian demons* provides the first extensive exploration of largely middle class masculinities in crisis at the fin de siècle It analyses how ostensibly controlling models of masculinity became demonised in a variety of literary and medical contexts revealing the period to be much more ideologically complex than has hitherto been understood and makes a significant contribution to Gothic scholarship Andrew Smith demonstrates how a Gothic language of monstrosity drawn from narratives such as *The Strange Case of Dr Jekyll and Mr Hyde* and *Dracula* increasingly influenced a range of medical and cultural contexts destabilising these apparently dominant masculine scripts He provides a coherent analysis of a range of examples relating to masculinity drawn from literary medical legal and sociological contexts including Joseph Merrick *The Elephant Man* the Whitechapel murders of 1888 Sherlock Holmes's London the writings and trials of Oscar Wilde theories of degeneration and medical textbooks on syphilis **Aesthetics of Music** Stephen Downes, 2014-06-27

*Aesthetics of Music* Musicological Approaches is an anthology of fourteen essays each addressing a single key concept or pair of terms in the aesthetics of music collectively serving as an authoritative work on musical aesthetics that remains as close to the music as possible Each essay includes musical examples from works in the 18th 19th and into the 20th century Topics have been selected from amongst widely recognised central issues in musical aesthetics as well as those that have been somewhat

neglected to create a collection that covers a distinctive range of ideas All essays cover historical origins sources and developments of the chosen idea survey important musicological approaches and offer new critical angles or musical case studies in interpretation      **Food and Philosophy** Fritz Allhoff,Dave Monroe,2009-02-09 Food it joins Wine Philosophy and Beer Philosophy in in the Epicurean Trilogy Essays are organized thematically and written by philosophers food writers and professional chefs Provides a critical reflection on what and how we eat can contribute to a robust enjoyment of gastronomic pleasures A thoughtful yet playful collection which emphasizes the importance of food as a proper object of philosophical reflection in its own right      Social Laws - An Outline of Sociology G. Tarde,2012-11-07 This early work originally published in 1899 contains the leading ideas of one of the most authoritative and distinguished writers in sociology and social psychology at the turn of the last century Gabriel Tarde here outlines his three principal works on general sociology and the internal bond that unites them A fascinating read for any sociologist amateur or professional alike Contents Include Editors Preface Authors Preface Introduction The Repetition of Phenomena The Opposition of Phenomena The Adaptation of Phenomena Conclusion Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork      **Social Laws** Gabriel de Tarde,1899
