Subverting Colonial Authority Challenges To Spanish Rule In Eighteenth Century Southern Andes:

Subverting Colonial Authority Sergio Serulnikov, 2003-09-23 Latin American colonial history looking at Spanish indigenous relations The Spanish Atlantic World in the Eighteenth Century Allan J. Kuethe, Kenneth J. Andrien, 2014-05-12 This book covers the evolution of royal policy in Spanish America as eighteenth century Spain modernized its empire and transformed itself into a power of the first order Tracing the interplay between war and reform the analysis confronts the diverse realities of the Spanish Atlantic world which stretched from the northern Mexican borderlands to Argentina and Chile Unlike earlier studies on eighteenth century Spain this work incorporates the early Bourbon experience into the narrative and integrates the impressive reemergence of the Royal Armada into a fuller picture of administrative commercial fiscal ecclesiastical and military change *The End of Iberian Rule on the American Continent, 1770-1830* Brian R. Hamnett, 2017-04-03 Brian R Hamnett offers a comprehensive and comparative assessment of the independence era in both Spanish America and Brazil **The Cambridge Companion to the Rule of Law** Jens Meierhenrich, Martin Loughlin, 2021-08-12 Introduces students scholars and practitioners to the theory and history of the rule of law **The Cambridge Companion to Latin American Independence** Marcela Echeverri, Cristina Soriano, 2023-03-23 Innovatively revisits Latin American independence and its significance for the Age of Atlantic Revolutions The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary

scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

Tamanaha, Caroline Sage, Michael J. V.
