35 Tips for Students to Succeed in Corporate America Sharon Hill, 2007-04-09 This book contains 35 tips for college graduates entering the corporate work force **Free From Corporate America - A Tactical Guide to Success On Your Own Terms** Jon Reed, 2009-03-21 Today's workers are free agents who sink or swim on their own. So what are you going to do about it? Get Free from Corporate America. Jon wrote this book for people like himself: those who want to succeed but on their own terms. The best way to take control of your future is to adopt an entrepreneurial approach to your career. This does not necessarily mean starting your own business. It does mean developing skills and assets that will improve your position. Free from Corporate America puts business ideas to the ultimate test: will they pay the rent? It's not easy to claim a better life while facing the real world limitations of time and budget. But if you're tired of get-rich-quick happy talk and need a better way forward, Free from Corporate America is your kind of book.

Ensuring Minority Success in Corporate Management Donna E. Thompson, Nancy DiTomaso, 2012-12-06 To be a corporate executive in America is to achieve a universally recognized measure of personal and professional success. The high income, privilege, prestige, and authority enjoyed by most corporate executives all attest to making it. That is why the advancement of racial and ethnic minorities into the executive suite is one of the key barometers of the nation's progress toward full equality of opportunity. But the quest for equal opportunity in corporate management has been difficult and frustrating. Black, Hispanic, and Asian men and women are rarely found among those who run or significantly influence the direction of American corporations. The wide gap between the expectation and the reality is a continuing topic of interest to business leaders and racial and ethnic minorities as well as to scholars of the business scene. This book, edited by Thompson and DiTomaso, contributes significantly to our understanding of this problem and most importantly provides useful guidelines on what to do about it. Interest in the diversity of corporate management comes at a time of unprecedented challenge to United States success in the world economy. American business must now compete against aggressive producers and financiers in Western Europe and Japan. More competition also has emerged from some of the rapidly developing countries in Latin America and the Pacific Rim. Our ability to design, manufacture, sell, and export goods and services in a global marketplace will increasingly determine our standard of living and prominence on the world stage.
