Sampson,Reginald Charles Churchill,1970-02-02 Based on The Cambridge history of English literature Satire & The State Matt Fotis,2020-03-31 Satire The State focuses on performance based satire most often seen in sketch comedy from 1960 to the present and explores how sketch comedy has shaped the way Americans view the president and themselves Numerous sketch comedy portrayals of presidents that have seeped into the American consciousness Chevy Chase s Gerald Ford Dana Carvey s George H W Bush and Will Ferrell s George W Bush all worked to shape the actual politician s public persona The book analyzes these sketches and many others illustrating how comedy is at the heart of the health and function of American democracy At its best satire aimed at the presidency can work as a populist check on executive power becoming one of the most important weapons for everyday Americans against tyranny and political corruption At its worst satire can reflect and promote racism misogyny and homophobia in America Written for students of Theatre Performance Political Science and Media Studies courses as well as readers with an interest in political comedy Satire The State offers a deeper understanding of the relationship between comedy and the presidency and the ways in which satire becomes a window into the culture principles and beliefs of a country *Cinema and Social Change in Germany and Austria* Gabriele Mueller,James M.

Skidmore,2012-09-01 During the last decade contemporary German and Austrian cinema has grappled with new social and economic realities The cinema of consensus a term coined to describe the popular and commercially oriented filmmaking of the 1990s has given way to a more heterogeneous and critical cinema culture Making the greatest artistic impact since the 1970s contemporary cinema is responding to questions of globalization and the effects of societal and economic change on the individual This book explores this trend by investigating different thematic and aesthetic strategies and alternative methods of film production and distribution Functioning both as a product and as an agent of globalizing processes this new cinema mediates and influences important political and social debates The contributors illuminate these processes through their analyses of cinema s intervention in discourses on such concepts as national cinema the effects of globalization on social mobility and the emergence of a global culture The essays illustrate the variety and inventiveness of contemporary Austrian and German filmmaking and highlight the complicated interdependencies between global developments and local specificities They confirm a broader trend toward a more complex critical and formally diverse cinematic scene This book

offers insights into the strategies employed by German and Austrian filmmakers to position themselves between the commercial pressures of the film industry and the desire to mediate or even attempt to affect social change It will be of interest to scholars in film studies cultural studies and European studies *Lives of the Illustrious* ,1856
