Human Connections: Teaching experiences in Chongqing, China and beyond Suresh Nanwani, 2024-11-25 Human Connections is about the author's integrative journey of teaching experiences in China and beyond focusing on two central questions What matters most and How to improve The author's narrative to answering these questions is expressed in dynamic values acquired through learning and teaching episodes Organization Development OD theories from a western outlook including Appreciative Inquiry and Living along with ikigai yoga meditation and tai chi from an eastern perspective are examined holistically to provide insights into meaningful relationships between teacher and students Student postcards classroom presentations and group photographs create innovative building blocks in traversing the teacher's journey of scholarship with students friends and colleagues The lessons gathered contribute to the author's living educational theory research approach culminating with a living poster extolling the values that inspire and give purpose to humans By overcoming cultural and linguistic differences all teacher and students alike gain from their personal experiences Through fostering human connections they generate and embellish their being This book will appeal to

OD academics and practitioners students teachers and readers interested in learning more about human connections and the optimal development of living fruitful lives *Your College Experience* John N. Gardner,A. Jerome Jewler,1997 This book offers students insights activities and strategies for achieving goals and creating positive experiences throughout the college years Drawing on the authors experiences in the areas of student orientation and retention this text engages students in developing strengths and awareness in all aspects of college life Many interactive and writing based activities prepare students to actively participate in the campus community and take charge of their college careers **The Impact of a Sense of Belonging in College** Erin Bentrim,Gavin W. Henning,2023-07-03 Sense of belonging refers to the extent a student feels included accepted valued and supported on their campus The developmental process of belonging is interwoven with the social identity development of diverse college students Moreover belonging is influenced by the campus environment relationships and involvement opportunities as well as a need to master the student role and achieve academic success Although the construct of sense of belonging is complex and multilayered a consistent theme across the chapters in this book is that the relationship between sense of belonging and intersectionality of identity cannot be ignored and must be integrated into any approach to fostering belonging Over the last 10 years colleges and universities have started grappling with the notion that their approaches to maintaining and increasing student retention persistence and graduation rates were no longer working As focus shifted to uncovering barriers to student success while concurrently recognizing student success as more than solely academic factors the term student sense of belonging gained traction in both academic and co curricular settings The editors noticed the lack of a consistent definition or an overarching theoretical approach as well as a struggle to connect disparate research A compendium of research applications and approaches to sense of belonging did not exist so they brought this book into being to serve as a single point of reference in an emerging and promising field of study
