**Managing People in Commercial Kitchens** Charalampos Giousmpasoglou,Evangelia Marinakou,Anastasios Zopiatis,John Cooper,2022-01-17 Managing People in Commercial Kitchens A Contemporary Approach uses original research to argue that senior managers head chefs should differentiate their people management practices in kitchen brigades from those used in the hospitality industry more generally induction socialisation and performance evaluation due to the group s strong occupational identity and culture The understanding of chefs work from a management perspective is critical for successful hospitality operations but has been historically under researched Chapters provide a detailed account of chefs work in commercial kitchens from an HRM perspective Using occupational identity and culture as a vehicle this book explores the different aspects of managerial work in commercial kitchen settings general management leadership education and training skills and competencies managing deviant behaviour managing stress and managing diversity focused on gender segregation The final chapter looks at future perspectives on this unique working environment and the many challenges arising from the latest developments such as the COVID 19 pandemic Providing both theoretical insights and practical applications with the use of case studies throughout this will be of great interest to upper level students and researchers in hospitality as well as a useful reference for current managers in the field

**Lean Culture for the Construction Industry** Gary Santorella,2017-09-19 Many of the struggles that we are currently experiencing when attempting to implement Lean in the construction environment are the direct result of applying Lean tools out of proper context Understanding Lean as an overall operating system will help to avert this all too common pitfall An in depth exploration of the application of Lean initiatives in the construction industry Lean Culture for the Construction Industry Building Responsible and Committed Project Teams Second Edition provides updated chapters with new insights on the

relationships between owners architects general contractors and subcontractors demonstrating how Kaizen events focused on building positive culture through vulnerability based trust improved processes and eliminated work stoppages Lean tools alone don't lead to successful Lean initiatives the missing piece is culture Written by a veteran consultant in the construction field the book draws a connection between how construction professionals act as leaders and how their attitude and behavior affect productivity and waste daily While value stream mapping is an important tool for righting broken processes and resolving conflicts future state maps will fail if leaders continue to work in silos protect their territories and don't see that their success is directly tied to the success of their co-leaders The author expands the notion of ethics beyond the simple litmus test of right and wrong so team leaders can adopt professional and productive attitudes and behaviors toward the implementation of Lean improvements This book demonstrates how in an industry where waste is rampant and depends on wide range of people and personalities to successfully build a job Lean thinking can make the difference between a profitable competitive construction team and mass inefficiencies stunted profitability and lost future opportunities
