Sudan The Reconquest Reappraised:

Sudan Edward M. Spiers, 2013-07-04 In 1898 Kitchener's Anglo Egyptian army defeated the armies of dervishes at the battle of Omdurman To commemorate the event 11 historians have produced a reappraisal of the reconquest and its international repercussions They examine some of the policies personalities and issues involved British Military Operations in Egypt and the Sudan Harold E. Raugh Jr., 2008-05-02 The British Army's campaigns in Egypt and the Sudan from 1882 to 1899 were among the most dramatic and hard fought in British military history In 1882 the British sent an expeditionary force to Egypt to quell the Arabic Revolt and secure British control of the Suez Canal its lifeline to India The enigmatic British Major General Charles G Gordon was sent to the Sudan in 1884 to study the possibility of evacuating Egyptian garrisons threatened by Muslim fanatics the dervishes in the Sudan While the dervishes defeated the British forces on a number of occasions the British eventually learned to combat the insurrection and ultimately largely through superior technology and firepower vanquished the insurgents in 1898 British Operations in Egypt and the Sudan A Selected Bibliography enumerates and generally describes and annotates hundreds of contemporary current and hard to find books journal articles government documents and personal papers on all aspects of British military operations in Egypt and the Sudan from 1882 to 1899 Arranged chronologically and topically chapters cover the various campaigns focusing on specific battles leading military personalities and the contributions of imperial nations as well as supporting services of the British Army This definitive volume is an indispensable reference for researching imperialism colonial history and British military operations leadership and tactics Sudan Abdel Salam Sidahmed, Alsir Sidahmed, 2004-11-10 Stretching between the savannah and the equator Sudan is a microcosm of Africa with one leg in the Arab world and the other in Africa Sudan's development however has failed to address the differences within the country between its diverse ethnic communities This has resulted in political instability and a lack of national consensus ultimately leading to long term civil war This useful book provides a comprehensive introduction to contemporary Sudan outlining the evolution of the state with emphasis on its post independence experience It includes chapters on the history politics society international relations and economy of the country Engines for empire Edward Spiers, 2017-03-01 *Engines for Empire* examines the use of the railway by the British army from the 1830s to 1914 a period of domestic political strife and unprecedented imperial expansion The book uses a wide array of sources and images to demonstrate how the Victorian army embraced this new technology how it monitored foreign wars and how it came to use the railway in both support and operational roles The British army's innovation is also revealed through its design and use of armoured trains the restructuring of hospital trains and in its capacity to build and repair railway track bridges and signals under field conditions This volume provides insights on the role of railways in imperial development as a focus of social interaction between adversaries and as a means of projecting imperial power It will make fascinating reading for students academics and enthusiasts in military and imperial history Victorian studies railway

history and colonial warfare Slaves of Fortune Ronald M. Lamothe, 2011 The Anglo Egyptian re conquest of Sudan Churchill's River War has been well chronicled from the British point of view but we still know little about its front line troops the Sudanese soldiers of the Egyptian Army Making use of unpublished primary sources and published material located in the United Kingdom and Sudan *Slaves of Fortune* provides an historiographic correction It argues that nineteenth century Sudanese slave soldiers were social beings and historical actors shaping both European and African destinies just as their own lives were being transformed by imperial forces Jacket The Muslim Majority Robin Hadaway, 2021-09-15 More than 70 percent of Muslims worldwide practice folk Islam a syncretistic mix of theologically orthodox Islam and traditional religious beliefs and practices The Muslim Majority is unlike many published works on evangelism to Muslims which argue for either apologetic or contextualized bridge approaches These approaches are often ineffective in reaching adherents of popular Islam Instead author and missiologist Robin Hadaway outlines a contextual approach that addresses the unique perspective of popular Islam Hadaway explains the differences between folk Islam and orthodox Islam and explores best practices for reaching the vast majority of Muslims with the gospel of Jesus Christ **Networks of Domination** Paul MacDonald, 2014-05-15 In the nineteenth century European states conquered vast stretches of territory across the periphery of the international system Much of Asia and Africa fell to the armies of the European great powers and by World War I those armies controlled 40 percent of the world's territory and 30 percent of its population Conventional wisdom states that these conquests were the product of European military dominance or technological superiority but the reality was far more complex In *Networks of Domination* Paul MacDonald argues that an ability to exploit the internal political situation within a targeted territory not mere military might was a crucial element of conquest European states enjoyed greatest success when they were able to recruit local collaborators from within the society and exploit divisions among elites Different configurations of social ties connecting potential conquerors with elites were central to both the patterns of imperial conquest and the strategies conquerors employed MacDonald compares episodes of British colonial expansion in India South Africa and Nigeria during the nineteenth century and also examines the contemporary applicability of the theory through an examination of the United States occupation of Iraq The scramble for empire fundamentally shaped and continues to shape the international system we inhabit today Featuring a powerful theory of the role of social networks in shaping the international system *Networks of Domination* bridges past and present to highlight the lessons of conquest *The Boer War* John Gooch, 2013-10-23 This collection of essays by leading British and South African scholars looking at the Boer War focuses on three aspects how the British Military functioned the role of the Boers Afrikaners and Zulus and the media presentation of the war to the public Lord Salisbury and Nationality in the East Shih-tsung Wang, 2019-06-07 This study explains how Salisbury viewed cultural conflicts between the East and the West how he treated Oriental nationality and nationalist aspirations in British dominions in the East and how he directed British policy in the Eastern world in a time when

the Western Powers were plunging into a struggle for spheres of predominance In pursuit of British imperial interests Salisbury was outwardly determined but acutely aware of the inherent moral conflicts He understood that the expansion of Europe was inevitable but taking into account the rights and feelings of the Eastern nations he endeavoured to reduce his country's impact on the peoples subjected to British control Hence his preference for the generally peaceful invasion effected by informal empire Following an introductory discussion on Salisbury's ideas and policy particularly in the light of his treatment of nationality this research investigates his record in India Turkey Egypt and China to argue for a strikingly sympathetic attitude in his dealings with Eastern nationalities While it is a truism to say that British imperialism was coloured by Christian beliefs and liberal principles it has not yet been appreciated how far Salisbury succeeded in reconciling the moral and practical demands of Western civilization upon itself with the requirements of power

Islam and the European Empires David Motadel, 2014-09-05 At the height of the imperial age European powers ruled over most parts of the Islamic world The British French Russian and Dutch empires each governed more Muslims than any independent Muslim state European officials believed Islam to be of great political significance and were quite cautious when it came to matters of the religious life of their Muslim subjects In the colonies they regularly employed Islamic religious leaders and institutions to bolster imperial rule At the same time the European presence in Muslim lands was confronted by religious resistance movements and Islamic insurgency Across the globe from the West African savanna to the shores of Southeast Asia Muslim rebels called for holy war against non Muslim intruders Islam and the European Empires presents the first comparative account of the engagement of all major European empires with Islam Bringing together fifteen of the world's leading scholars in the field the volume explores a wide array of themes ranging from the accommodation of Islam under imperial rule to Islamic anti colonial resistance A truly global history of empire the volume makes a major contribution not only to our knowledge of the intersection of Islam and imperialism but also more generally to our understanding of religion and power in the modern world

A Living Anachronism? Lothar Höbelt, F. R. Bridge, 2010 John Charmley Unravelling Silk Princess Lieven Metternich and Castlereagh David Brown Palmerston and Austria Alan Sked Austria and the Galician massacres of 1846 T O Otte Knavery or Folly The British Official Mind and the Habsburg Monarchy 1856 1914 Helmut Rumpel Die Dalmatienreise Kaiser Franz Josephs am Vorabend der Orientkrise 1875 Lothar Höbelt The Bosnian Crisis Revisited Austrian Liberals vs Andrassy Isabel Pantenburg Der menschliche Faktor in der Politik am Beispiel des Prinzen Eulenburg Holger Afflerbach Das wilhelminische Kaiserreich zwischen Nationalstaat und Imperium Mark Cornwall The Habsburg Elite and the Southern Slav Question

How Fighting Ends Holger Afflerbach, Hew Strachan, 2012-07-26 There are many histories of how wars have begun but very few which discuss how they have ended This book fills that gap Beginning with the Stone Age and ending with globalized terrorism it addresses the specific issue of surrender rather than the subsequent establishment of peace At its heart is the individual warrior or soldier and his or her decision to lay down arms In the ancient world surrender

led in most cases to slavery but a slave still lived rather than died In the modern world international law gives the soldiers rights as prisoners of war and those rights include the prospect of their eventual return home But individuals can surrender at any point in a war and without having such an effect that they end the war The termination of hostilities depends on a collective act for its consequences to be decisive It also requires the enemy to accept the offer to surrender in the midst of combat In other words like so much else in war surrender depends on reciprocity on the readiness of one side to stop fighting and of the other to accept that readiness This volume argues that surrender is the single biggest contributor to the containment of violence in warfare offering the vanquished the opportunity to survive and the victor the chance to show moderation and magnanimity Since the rules of surrender have developed over time they form a key element in understanding the cultural history of warfare

Confiscation Or Coexistence Andrew Connor, 2022-10-24 It is generally accepted that Roman administrators arriving in Egypt in the aftermath of Augustus annexation of the province confiscated en masse the land and other property belonging to the temples of Egypt estimated at as much as one third of the country It is further accepted that this confiscation doomed the temples by removing their economic support and making them subservient to the Roman state and that this in turn led to the collapse of Egyptian religion In *Confiscation or Coexistence* Egyptian Temples in the Age of Augustus author Andrew Connor takes direct issue with both claims The interpretative consensus developed after the publication of a handful of key documents P Tebt 2 302 especially alongside BGU 4 1198 and 1200 and P Berl Leihg 1 5 Connor offers a fundamentally revised interpretation of these texts building from a fresh examination of the papyri themselves The book frames the interpretation in a wider discussion of Roman interactions with Egyptian religion including material from inside and outside Egypt and locates the development of an interpretative consensus in early 20th century scholarship within the wider context of empire and colonization at the time In doing so Connor explores these papyri through their historical intellectual and linguistic contexts alongside a number of other important texts bearing on the relationship between the temples and the Roman state

Arguing about Empire Martin Thomas, Richard Toye, 2019-02-21 *Arguing about Empire* analyses the most divisive arguments about empire between Europe's two leading colonial powers from the age of high imperialism to the post war era of decolonization Focusing on the domestic contexts underlying imperial rhetoric *Arguing about Empire* adopts a case study approach treating key imperial debates as historical episodes to be investigated in depth The episodes in question have been selected both for their chronological range their variety and above all their vitriol Some were straightforward disputes others involved cooperation in tense circumstances These include the Tunisian and Egyptian crises of 1881-2 which saw France and Britain establish new North African protectorates ostensibly in co operation but actually in competition the Fashoda Crisis of 1898 when Britain and France came to the brink of war in the aftermath of the British re conquest of Sudan the Moroccan crises of 1905 and 1911 early tests of the Entente Cordiale when Britain lent support to France in the face of German threats the 1922 Chanak

crisis when that imperial Entente broke down in the face of a threatened attack on Franco British forces by Kemalist Turkey World War Two which can be seen in part as an undeclared colonial war between the former allies complicated by the division of the French Empire between De Gaulle s Free French forces and those who remained loyal to the Vichy Regime and finally the 1956 Suez intervention when far from defusing another imperial crisis Britain colluded with France and Israel to invade Egypt the culmination of the imperial interference that began some eighty years earlier **British Muslim**

Fictions C. Chambers,2012-03-09 Through interviews with leading writers including Ahdaf Soueif and Hanif Kureishi this book analyzes the writing and opinions of novelists of Muslim heritage based in the UK Discussion centres on writers work literary techniques and influences and on their views of such issues as the hijab the war on terror and the Rushdie Affair

Royalty and Diplomacy in Europe, 1890-1914 Roderick R. McLean,2007-07-26 This 2001 book examines the diplomatic role of royal families in the era before the outbreak of the First World War It argues that previous historians have neglected for political reasons the important political and diplomatic role of monarchs during the period Particular attention is given to the Prusso German Russian and British monarchies The Prusso German and Russian monarchies were central in their countries diplomacy and foreign policy principally as a result of their control over diplomatic and political appointments However the book also argues that the British monarchy played a much more influential role in British diplomacy than has been accepted hitherto by historians Individual themes examined include relations between Kaiser Wilhelm II and Tsar Nicholas II the political significance of the ill feeling between Wilhelm II and his uncle King Edward VII the role of Edward VII in British diplomacy and the impact of royal visits on pre 1914 Anglo German relations **Bayonet to Barrage** Stephen Manning,2021-10-01 How advances in weapons technology transformed the British soldier s experience of war during the nineteenth century How did technical advances in weaponry alter the battlefield during the reign of Queen Victoria In 1845 in the first Anglo Sikh War the outcome was decided by the bayonet just over fifty years later in the second Boer War the combatants were many miles apart How did this transformation come about and what impact did it have on the experience of the soldiers of the period Stephen Manning in this meticulously researched and vividly written study describes the developments in firepower and using the first hand accounts of the soldiers shows how their perception of battle changed Innovations like the percussion and breech loading rifle influenced the fighting in the Crimean War of the 1850s and the colonial campaigns of the 1870s and 1880s in particular in the Anglo Zulu War and the wars in Egypt and Sudan The machine gun was used to deadly effect at the Battle of Omdurman in 1898 and equally dramatic advances in artillery took warfare into a new era of tactics and organization Stephen Manning s work provides the reader with an accurate and fascinating insight into a key aspect of nineteenth century military history *Rorke's Drift and Isandlwana* Ian F. W. Beckett,2019-01-03 This volume recounts the battles of Isandlwana and Rorke s Drift exploring how they were fought how they have been remembered and what they mean for us today The battle of Isandlwana on 22 January 1879 the first major battle in the Anglo

Zulu war witnessed the worst single day's loss of British troops between the battle of Waterloo in 1815 and the opening campaigns of the First World War in August 1914. Moreover, decisive defeat at the hands of the Zulu came as an immense shock to a Victorian public that had become used to easy victories over less technologically advanced indigenous foes in an expanding empire. The successful defence of Rorke's Drift which immediately followed the encounter at Isandlwana and for which 11 Victoria Crosses were awarded averted military disaster and went some way to restore wounded British pride but the sobering memory of defeat at Isandlwana lingered for many years while the legendary tale of the defence of Rorke's Drift was reawakened for a new generation in the epic 1964 film Zulu starring Michael Caine. In this new volume in the Great Battles series Ian F. W. Beckett tells the story of both battles investigating not only their immediate military significance but also providing the first overarching account of their continuing cultural impact and legacy in the years since 1879 not just in Britain but also from the once largely inaccessible and overlooked Zulu perspective.

Major Powers and Peacekeeping

Rachel E. Utley, 2017-03-02. The problems of peacekeeping in Somalia, Rwanda and former Yugoslavia marked a turning point for major powers in international military peacekeeping. Major support for a more pro-active UN role in peacekeeping has not been forthcoming and where major power involvement is deemed vital, non-UN peace operations have increasingly become the norm. This valuable volume explores the continuing significance of peacekeeping in international affairs particularly in terms of its military dimensions and examines the priorities and perspectives of the major powers in relation to their military participation in international peacekeeping and wider peace operations in the twenty-first century. It is ideal for scholars and students interested in contemporary international politics, international relations, international organizations, security and strategic studies, conflict resolution and foreign policy analysis.

Ambiguities of Empire

Robert Holland, Sarah Stockwell, 2013-09-13. This book comprises essays offered by friends, colleagues and former students in tribute to Andrew Porter on the occasion of his retirement from the Rhodes Chair in Imperial History at the University of London. The contributors, including many distinguished historians, explore through a variety of case studies ambiguities of empire and of imperial and quasi-imperial relationships reflecting important themes in Professor Porter's own writing. Whilst the range of articles reflects the breadth of Andrew Porter's scholarly collaborations and interests, the chapters focus in particular on two aspects of imperial history which have been the subject of his particular attention: religion and empire and the end of empire. The book contains original pieces on the history of British imperialism, currently the subject of considerable scholarly attention. The book will be invaluable to students and scholars of empire, religion and colonialism. This book was published as a special issue of the Journal of Imperial and Commonwealth History.
