**Sudan in Crisis** G. Norman Anderson, 1999 We badly need more writings of this genre The poor communication between diplomatic professionals and academic area scholars is deplorable This work has the potential to speak to both groups Scholars and practitioners should pay attention L Carl Brown Princeton University This is the story of how a promising North African democracy by failing to solve crucial problems both at home and abroad brought about its own overthrow by Islamic militants Since gaining independence in 1956 Sudan has repeatedly stumbled in attempts to establish a stable democratic government Sudan in Crisis tells the story of this failure and seeks to explain its causes G Norman Anderson former American ambassador provides a first hand account of Sudan s third try at democracy He analyzes the problems plaguing the democratically elected government of Prime Minister Sadiq al Mahdi civil war and related famine religious and ethnic antagonisms political instability economic deterioration the presence of Libyan terrorists and the ineffective efforts of the government to cope with them He also analyzes the policies of the United States and Sudan during this period and cites specific instances in which each helped to undermine Sudanese democracy including Washington s earlier strong support of Sudanese dictator Ja far Numayri and its relatively lukewarm support of democracy and Sadiq al Mahdi s foreign policy of nonalignment which favored the extremist regimes of Libya and Iran while antagonizing potential friends such as the United States Egypt and Saudi Arabia Sudan in Crisis also addresses the issue of Sudan s future after the current junta With many of the leaders who mismanaged democratic government now waiting again in the wings the question remains whether they have learned the lessons of the past G Norman Anderson is a former career diplomat specializing in Arab affairs and Eastern Europe He was the American ambassador to Sudan from 1986 to 1989 During the recent Yugoslav crisis he headed an international peace mission in the former Yugoslav Republic of Macedonia *Politics of Democratic Breakdown* Gangsheng Bao, 2022-05-30 Democratic breakdown as a political and historic event can impact the fate of millions if not hundreds of millions of people by changing the political complexion of a country This book attempts to systematically explain why democracies collapse The author s main theoretical argument is based on the examination of two factors One is political cleavages among voters These can cause serious political conflicts and may lead to fierce political confrontation and major upheaval at the society level The other revolves around the types of political and institutional arrangements under democratic regimes Centrifugal democratic regimes are likely to weaken government capacity or state capacity rendering governments incapable of effectively resolving political conflicts and when these two factors come together political conflicts are less likely to be controlled effectively These situations can evolve into serious political crises and eventually lead to the collapse of democratic regimes The empirical research of this book is based on a comparative historical analysis of Germany Nigeria Chile and India Examining democratic collapses from both theoretical and empirical perspectives this book will be of interest to those engaged in the study of democracy Political Science Comparative Politics and Political Theory **The New**

Sudan's development, however, has failed to address the differences within the country between its diverse ethnic communities. This has resulted in political instability and a lack of national consensus, ultimately leading to long-term civil war. This useful book provides a comprehensive introduction to contemporary Sudan, outlining the evolution of the state with emphasis on its post-independence experience. It includes chapters on the history, politics, society, international relations, and economy of the country      Hope for the Afflicted Jairo de Oliveira, 2023-06-29 There is a humanitarian disaster unfolding before our eyes: a global tragedy that affects men, women, and children. We are referring to the largest humanitarian crisis of our generation, which has shaped our world and produced over 100 million people forcibly displaced globally. Amid such a challenging scenario, the global church is called to consider some unavoidable questions: How can Christians respond to the current migration crisis? What are some resources available to Christians to help them transform this tragic reality? What are some strategic approaches for bringing hope to asylum seekers and refugees? In this book, Jairo de Oliveira deals with these and many other related questions based on his interactions with the Fur, a Muslim people group from Darfur, Sudan, living as asylum seekers and refugees in Jordan in the Middle East. After providing a thorough historical background and cultural analysis of the Fur, the author commends a contextualization model and fruitful practices that emerged from his study of the people. *Hope for the Afflicted* serves as a manual and practical guide for those who feel called to engage the current migration crisis by proclaiming the hope of the gospel and discipling asylum seekers and refugees worldwide      US Foreign Policy and the Horn of Africa Peter Woodward, 2016-02-11 Examining US involvement in the Horn of Africa, this volume addresses the relationship between the US and the Islamic movement in this region. Peter Woodward explores the interests of the United States in the region through two cases: Sudan and Somalia. He also discusses the effects of the Eritrean-Ethiopian war on US policy and posture in the region, along with the effects of other regional wars. The book looks at the relationship between US perceptions of Islamism and brings a unique perspective to the ongoing debate over US policy in the Islamic
