Sue Williamson:

Sue Williamson Mark Gevisser, 2015 Since South Africa's transition to democracy in 1994 Sue Williamson has continued to address social issues such as the AIDS epidemic through installations and artworks that combine photographic image video and text Her oeuvre reveals a deep appreciation of narrative but also a commitment to research and reporting she makes her artworks by telling history in the personal register through the eyes and words of those most deeply involved Sue Williamson's work is represented in many public collections including the Tate Modern and the Victoria and Albert Museum the MoMa the National Museum of African Art Smithsonian Institution just to name a few Her recent awards include a Visual Art Research fellowship from the Smithsonian Institution and a Creative Arts Fellowship at Bellagio Italy from the Rockefeller Foundation *Sue Williamson*, **Sue Williamson** Rory Bester, 2005 **Breaking the Silence** Ellen Grünkemeier, 2013 South Africa is one of the countries in the world most affected by HIV AIDS and yet until recently the epidemic was barely visible in South African literature Much can be gained from approaching the South African epidemic through creative texts such as novels photographs films cartoons and murals because they produce and circulate meanings of HIV AIDS and its various facets such as its origin transmission routes and physical manifestations Other aspects explored are the denial of HIV AIDS its stigmatisation discriminatory practices modes of disclosure access to anti retroviral medication as well as the role of alternative treatment Creative texts which are open to different and possibly contradictory readings can serve as a starting point to increase the cultural visibility of the virus and to challenge dominant ideas about the epidemic The cultural constructions of HIV AIDS should be carefully examined because the meanings are pervasive and have very real consequences they play a powerful role both in determining which issues receive attention and in shaping public understanding of the virus **She Who Imagines** Laurie Cassidy, Maureen H. O'Connell, 2012-11-01 The idea and ideal of beauty has been used to oppress women of different ages body types skin color and physical ability The theoretical discussion of aesthetics has also been conditioned by these same dynamics of power and oppression In *She Who Imagines* a diverse set of scholars challenges the exclusion and false definitions while constructing capacious ideas that discover beauty in unexpected places In these essays the authors draw on a variety of arts media painting photography portraiture craftwork poetry and hip hop music thereby joining beauty to truth and in a richly defining way to the practice of justice In a variety of ways all the essays link women's definitions of beauty with experiences of suffering and hence with the yearning for justice All clearly prize resistance to degradation as an essential element of thought [Sue Williamson at the Goodman Gallery, March 1994](#) Sue Williamson, Andrew Putter, Goodman Gallery (Johannesburg, South Africa), 1994 *The Cultures of Entanglement* Suzanne Anker, Sabine Flach, 2024-03-04 The symbolic meaning of plants their relevance to religion and the metaphorical provocations in the order of knowledge culture and political power underline the role of plants as something more than passive objects Current theoretical and artistic discourses have been seeking access to the world independently of

man by focusing on the nonhuman other The contributors to this volume examine the historical philosophical and scientific findings that generate this idea In what way are such perspectives manifest in contemporary art Do artists develop a particular approach that enables nonhuman life forms like plants insects or animals to have an impact **Biko's Ghost** Shannen L. Hill, 2015-05-21 When you say Black is Beautiful what in fact you are saying is Man you are okay as you are begin to look upon yourself as a human being With such statements Stephen Biko became the voice of Black Consciousness And with Biko's brutal death in the custody of the South African police he became a martyr an enduring symbol of the horrors of apartheid Through the lens of visual culture Biko's Ghost reveals how the man and the ideology he promoted have profoundly influenced liberation politics and race discourse in South Africa and around the globe ever since Tracing the linked histories of Black Consciousness and its most famous proponent Biko's Ghost explores the concepts of unity ancestry and action that lie at the heart of the ideology and the man It challenges the dominant historical view of Black Consciousness as ineffectual or racially exclusive suppressed on the one side by the apartheid regime and on the other by the African National Congress Engaging theories of trauma and representation and icon and ideology Shannen L Hill considers the martyred Biko as an embattled icon his image portrayals assuming different shapes and political meanings in different hands So too does she illuminate how Black Consciousness worked behind the scenes throughout the 1980s a decade of heightened popular unrest and state censorship She shows how in streams of imagery that continue to multiply nearly forty years on Biko's visage and the ongoing life of Black Consciousness served as instruments through which artists could combat the abuses of apartheid and unsettle the rainbow nation that followed The Justice of Visual Art Eliza Garnsey, 2020 Drawing on novel case studies this book provides the first substantive theoretical framework for understanding transitional justice and visual art
