Glascock,Hector Neff,Kevin J. Vaughn,2019-03-15 This cohesive edited volume showcases data collected from more than seven thousand ceramic artifacts including pottery figurines clay pipes and other objects from sites across South America Covering a time span from 900 BC to AD 1500 the essays by leading archaeologists working in South America illustrate the diversity of ceramic provenance investigations taking place in seven different countries An introductory chapter provides a background for interpreting compositional data and a final chapter offers a review of the individual projects Students scholars and researchers in archaeological study on the interactions between the indigenous peoples of South America and studies of their ceramics will find this volume an invaluable reference   *When a Flower Is Reborn* Rosa Isolde Reque Paillalef,2002-08-06 Testimonial text by a Mapuche woman with commentary and other ethnographic interventions by a U S historian   [Reclaiming the Political in Latin American History](#) Gilbert M. Joseph,2001-12-25 A collection of essays and case studies on Latin America which suggest new historiographical approaches and political strategies linking materialist analysis to constructivist understandings of power meaning identity and agency   *Becoming Mapuche* Magnus Course,2011-11-30 A nuanced exploration of one of the largest and least understood indigenous peoples the Mapuche of Chile In addition to accounts of the intimacies of everyday kinship and friendship the book also offers ethnographic analyses of the major social events of contemporary rural Mapuche life   **Shamans of the Foye Tree** Ana Mariella Bacigalupo,2010-01-01 Drawing on anthropologist Ana Mariella Bacigalupo s fifteen years of field research Shamans of the Foye Tree Gender Power and Healing among Chilean Mapuche is the first study to follow shamans gender identities and performance in a variety of ritual social sexual and political contexts To Mapuche shamans or machi the foye tree is of special importance not only for its medicinal qualities but also because of its hermaphroditic flowers which reflect the gender shifting components of machi healing practices Framed by the cultural constructions of gender and identity Bacigalupo s fascinating findings span the ways in which the Chilean state stigmatizes the machi as witches and sexual deviants how shamans use paradoxical discourses about gender to legitimatize themselves as healers and at the same time as modern men and women the tree s political use as a symbol of resistance to national ideologies and other components of these rich traditions The first comprehensive study on Mapuche shamans gendered practices Shamans of the Foye Tree offers new perspectives on this crucial intersection of spiritual social and political power   *Patients, Doctors and Healers* Dorthe Brogård Kristensen,2018-12-17 Recognizing the

interplay between biomedicine and indigenous medicine among the Mapuche in Southern Chile this book explores notions of culture and personhood through the bodily experiences and medical choices of patients Through case studies of patients in the context of medical pluralism Kristensen argues that medical practices are powerful social symbol indicative of overarching socio political processes As certain types of extreme and violent experiences known as olvidos lack a framework that allows them to be expressed openly they therefore surface as symptoms of an illness often with no apparent organic pathology In these contexts indigenous medicine thanks to its sensitivity to socio political contexts provides a space for articulation and management of collective experiences and suffering among patients in Southern Chile

**La nostalgia de los orígenes**

Joan Prat, 2018-12-13 El gran mito del origen de Occidente es el libro del Génesis que narra la creación del mundo y de la humanidad con énfasis en tres momentos críticos: la armonía y plenitud de la existencia paradisíaca original, la desobediencia y caída y finalmente la posibilidad de recuperar el paraíso perdido. La nostalgia de los orígenes muestra que existen cuatro grandes vías para retornar a dicho origen: la senda chamánica que persigue fusionar los diferentes mundos y planos en la persona del chamán; la viaje mística que es la senda del conocimiento esotérico que conduce a la completitud de los inicios; la vía monástica que es la que busca la salvación a través de la ascensión y la renuncia; y la vía mística que es la que se centra en la unión con lo Absoluto o lo Divino. A pesar de las aparentes diferencias entre el chamán, el gnosticista, el monje y el místico, Prat nos muestra cómo estas figuras persiguen el mismo objetivo: revivir aquella edad de oro y plenitud inicial. La metodología utilizada combina habilmente los aspectos teóricos con el trabajo de campo antropológico presentado a través de microetnografías y experiencias participantes. El presente texto es la culminación de los intereses teóricos etnográficos que han animado las investigaciones de toda la vida del autor.

*El largo viaje de los mitos* Stefano Tedeschi, 2020-04-15

El encuentro entre los mitos clásicos de origen grecolatino y las culturas de la que hoy llamamos Latinoamérica es un tema para una biblioteca entera. Los posibles enfoques son virtualmente infinitos y la selección de ensayos presentados aquí lo demuestran. Una característica singular de este encuentro es su capacidad de estimular estudios de parte de investigadores de ambas orillas del Atlántico: una capacidad que se vuelve a realizar en las 31 contribuciones de este libro a cargo de autores procedentes de 12 países diferentes que además ofrecen referencias cruzadas que el lector puede detectar siguiendo el orden de las secciones o buscando en los ensayos resonancias inditas. Se sabe de sobra que en las nuevas tierras apenas conocidas desembarcaron junto a los exploradores personajes invisibles que habían viajado clandestinamente en las memorias culturales y en los primeros libros que llegaron allí. Eran los seres mitológicos que acompañaron a Colón y a sus seguidores desde el primer viaje de 1492: sirenas, endriagos, amazonas, acalafos, patagones y otras figuras fantásticas que habían excitado la imaginación europea desde tiempos remotos y que encontraron allí nuevos espacios para reproducirse.
