Philosophy and Art in Gurdjieff's Beelzebub Anna T. Challenger, 2021-07-26 This book demonstrates that the most forceful contribution to George Gurdjieff's world view is Sufism understood as the tradition of seeking truth wherever it can be found especially at the meeting place of the world religions Gurdjieff's masterpiece *Beelzebub's Tales to His Grandson* is philosophically analyzed in its use of literary devices to jolt the reader into radical transformation *History of Islamic Philosophy* Oliver Leaman, Seyyed Hossein Nasr, 2020-08-17 Islamic philosophy has often been treated as being largely of historical interest belonging to the history of ideas rather than to philosophical study This volume successfully overturns that view Emphasizing the living nature and rich diversity of the subject it examines the main thinkers and schools of thought discusses the key concepts of Islamic philosophy and covers a vast geographical area This indispensable reference tool includes a comprehensive bibliography and an extensive index *Repentance and the Return to God* Atif Khalil, 2018-09-21 This book offers the first extensive treatment in a European language of tawba in Islam Conventionally translated as repentance tawba includes the broader sense of returning to God Khalil examines this wider notion in the early period of Sufism with a particular focus on the formative years of the tradition between Mu'izz and Abi al-Makk Beginning with an extensive survey of the semantic field of the term as outlined in Arabic lexicography Khalil offers a detailed analysis of the concept in Muslim scripture He then examines tawba as a complex psychological process involving interior conversion and a complete unwavering commitment to the spiritual life The ideas of a number of prominent figures from the first few centuries of Islam are used to illuminate the historical development of tawba and its role in early praxis-oriented Sufism *Islamic Spirituality* Seyyed Hossein Nasr, 2013-11-05 Originally published 1987 The first part of the volume is concerned with The Roots of the Islamic Tradition and Spirituality These are seen to include the Qur'an as the central theophany of Islam the Prophet who received the word of God and made it known to mankind and the rites of Islam The second part examines the divisions of the Islamic community with their distinctive pieties and emphases Sunnism and Shi'ism and female spirituality Part III is devoted to Sufism its nature and origin its early development its various spiritual practices and its science of the soul The Bloomsbury Companion to Islamic Studies Clinton Bennett, 2013-02-14 A comprehensive one volume reference

Pizzorno, Michael T. good Because of the attack on the World Trade Center on September 11 2001 the very concept of religion underwent a paradigm shift Instead of standing for virtue and piety peace and harmony the word religion also came to be inextricably associated with evil aggression and terror People around the world began to question whether the religious and secular dimensions of modern life can be reconciled whether the different religions of the world can ever coexist in harmony Indeed the very future of religion itself has sometimes seemed to be uncertain or at least suspect
