The Acts Of Our Being A Reflection On Agency And Responsibility

David Shoemaker, Neal Tognazzini

The Acts Of Our Being A Reflection On Agency And Responsibility:

The Acts of Our Being Edward Pols, 1982 **The Mystery and Agency of God** Frank G. Kirkpatrick, 2014 There are two philosophical commitments requisite to Christian belief that God is the ultimate mystery and that God is present and active in the world Attempting to avoid the trappings of a radical distantiation and the immanent collapse of God and world Frank Kirkpatrick argues for a theory of agency and action that preserves the mystery of God while providing a philosophically robust account of divine action in created time and space Kirkpatrick proposes a way around the stalemates that have stymied thought on divine agency and enters into conversation with significant figures in systematic theology

Oxford Studies in Agency and Responsibility David Shoemaker, 2015-09-17 Oxford Studies in Agency and Responsibility is a series of volumes presenting outstanding new work on a set of connected themes investigating such questions as What does it mean to be an agent What is the nature of moral responsibility Of criminal responsibility What is the relation between moral and criminal responsibility if any What is the relation between responsibility and the metaphysical issues of determinism and free will What do various psychological disorders tell us about agency and responsibility How do moral agents develop How does this developmental story bear on questions about the nature of moral judgment and responsibility What do the results from neuroscience imply if anything for our questions about agency and responsibility OSAR thus straddles the areas of moral philosophy and philosophy of action but also draws from a diverse range of cross disciplinary sources including moral psychology psychology proper including experimental and developmental philosophy of psychology philosophy of law legal theory metaphysics neuroscience neuroethics political philosophy and more It is unified by its focus on who we are as deliberators and inter actors embodied practical agents negotiating sometimes unsuccessfully a world of moral and legal norms **Agency and Responsibility** Jeanette Kennett, 2003-10-02 Is it ever possible for people to act freely and intentionally against their better judgement Is it ever possible to act in opposition to one's strongest desire If either of these questions are answered in the negative the common sense distinctions between recklessness weakness of will and compulsion collapse This would threaten our ordinary notion of self control and undermine our practice of holding each other responsible for moral failure So a clear and plausible account of how weakness of will and self control are possible is of great practical significance Taking the problem of weakness of will as her starting point Jeanette Kennett builds an admirably comprehensive and integrated account of moral agency which gives a central place to the capacity for self control Her account of the exercise and limits of self control vindicates the common sense distinction between weakness of will and compulsion and so underwrites our ordinary allocations of moral responsibility She addresses with clarity and insight a range of important topics in moral psychology such as the nature of valuing and desiring conceptions of virtue moral conflict and the varieties of recklessness here characterised as culpable bad judgement and does so in terms which make their relations to each other and to the challenges of real life obvious Agency and Responsibility

concludes by testing the accounts developed of self control moral failure and moral responsibility against the hard cases provided by acts of extreme evil **Oxford Studies in Agency and Responsibility Volume 5** D. Justin Coates, Neal A.

Carola Roloff, Wolfram Weiße, Michael Zimmermann, 2020 The growing pluralization of religion and culture in Europe means that we encounter an increasing number of Buddhist immigrants as well as Western converts Against this background in June 2018 the Academy of World Religions and the Numata Center for Buddhist Studies at the University of Hamburg Germany

invited scholars of Theravada East Asian and Tibetan Buddhism. The questions discussed referred to: Does Buddhism matter today? What can it contribute? Must Buddhism adapt to the modern world? How can Buddhism adapt to a non-Asia context? When Buddhism travels, what must be preserved if Buddhism is to remain Buddhism? The contributions in this volume show not only that Buddhism matters in the West but that it already has its strong impact on our societies. Therefore, universities in Europe should include Buddhist theories and techniques in their curricula. Proceedings of the American Catholic Philosophical Association, 1983. Agency, Freedom, and Responsibility in the Early Heidegger Hans Pedersen, 2020-08-25. This book employs Heidegger's work of the 1920s and early 1930s to develop distinctively Heideggerian accounts of agency, freedom, and responsibility, making the case that Heidegger's thought provides a compelling alternative to the mainstream philosophical accounts of these concepts. Hans Pedersen demonstrates that Heidegger's thought can be fruitfully used to develop a plausible alternative understanding of agency that avoids the metaphysical commitments that give rise to the standard free will debate. The first several chapters are devoted to working out an account of the ontological structure of human agency, specifically focusing on the Heideggerian understanding of the role of mental states, causal explanations, and deliberation in human agency, arguing that action need not be understood in terms of the causal efficacy of mental states. In the following chapters, building on the prior account of agency, Pedersen develops Heideggerian accounts of freedom and responsibility. Having shown that action need not be understood causally, the Heideggerian view thereby avoids the conflict between free will and determinism that gives rise to the problem of free will and the correlative problem of responsibility.
