Judiciary, and Related Agencies**

The Advanced Technology Program Challenges And Opportunities:

The Future of the Advanced Technology Program United States. Congress. House. Committee on Science. Subcommittee on Environment, Technology, and Standards, 2001 *The Advanced Technology Program* National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, 2001-07-06 This report examines the operations of the APT reviews its extensive assessment program and provides NRC Committee findings concerning the ATP's operations and recommendations for potential improvements to the program The report includes a summary of a major conference held in April 2000 as well as seven papers including surveys of the industry participants or users of the ATP program a summary of the results of fifty awards detailed assessments of major joint ventures and a description of the current selection process It is the most comprehensive study to date of the program's origins operations achievements and assessment Its conclusion the program works *Advanced Technology Program* National Research Council, Technology and Economic Policy, Board on Science, Technology, and Economic Policy, 1999-11-21 The growth in government programs to support high technology industry within national economies and their impact on international science and technology cooperation and on the multilateral trading system are of considerable interest worldwide Accordingly these topics were taken up by STEP in a study carried out in conjunction with the Hamburg Institute for Economic Research and the Institute for World Economics in Kiel One of the principal recommendations for further work emerging from that study was a call for an analysis of the principles of effective cooperation in technology development to include lessons from national and international consortia including eligibility standards and assessments of what new cooperative mechanisms might be developed to meet the challenges of international cooperation in high technology products **Advanced Technology Program** National Research Council, Technology and Economic Policy, Board on Science, Technology, and Economic Policy, 1999-10-21 The growth in government programs to support high technology industry within national economies and their impact on international science and technology cooperation and on the multilateral trading system are of considerable interest worldwide Accordingly these topics were taken up by STEP in a study carried out in conjunction with the Hamburg Institute for Economic Research and the Institute for World Economics in Kiel One of the principal recommendations for further work emerging from that study was a call for an analysis of the principles of effective cooperation in technology development to include lessons from national and international consortia including eligibility standards and assessments of what new cooperative mechanisms might be developed to meet the challenges of international cooperation in high technology products

An Assessment of Federal Funding for Private Research and Development United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs. Subcommittee on Federal Financial Management, Government Information, and International Security, 2006 *SBIR Program Diversity and Assessment Challenges* National Research Council, Policy and Global Affairs, Committee on Capitalizing on Science, Technology, and Innovation: An Assessment of the

Small Business Innovation Research Program,2004-10-20 In response to a Congressional mandate the National Research Council conducted a review of the Small Business Innovation Research Program SBIR at the five federal agencies with SBIR programs with budgets in excess of 100 million DOD NIH NASA DOE and NSF The project was designed to answer questions of program operation and effectiveness including the quality of the research projects being conducted under the SBIR program the commercialization of the research and the program s contribution to accomplishing agency missions The first in a series to be published in response to the Congressional request this report summarizes the presentations at a symposium convened at the beginning of the project The report provides a comprehensive overview of the SBIR program s operations at the five agencies responsible for 96 percent of the program s operations Departments of Commerce, Justice, and State, the Judiciary, and related agencies appropriations for 2004 United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies,2003

Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for 2003 United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies,2002 **Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for 2003: Justification of the budget estimates, Department of Commerce** United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies,2002 *Building the Illinois Innovation Economy* National Research Council,Policy and Global Affairs,Board on Science, Technology, and Economic Policy,Committee on Competing in the 21st Century: Best Practice in State and Regional Innovation Initiatives,2013-05-06 Responding to the challenges of fostering regional growth and employment in an increasingly competitive global economy many U S states and regions have developed programs to attract and grow companies as well as attract the talent and resources necessary to develop innovation clusters These state and regionally based initiatives have a broad range of goals and increasingly include significant resources often with a sector focus and often in partnership with foundations and universities These are being joined by recent initiatives to coordinate and concentrate investments from a variety of federal agencies that provide significant resources to develop regional centers of innovation business incubators and other strategies to encourage entrepreneurship and high tech development Building the Illinois Innovation Economy is a study of selected state and regional programs to identify best practices with regard to their goals structures instruments modes of operation synergies across private and public programs funding mechanisms and levels and evaluation efforts This report reviews selected state and regional efforts to capitalize on federal and state investments in areas of critical national needs This review includes both efforts to strengthen existing industries as well as specific new technology focus areas such as nanotechnology stem cells and energy in order to improve our understanding of program goals challenges and accomplishments As a part of this review The Committee on Competing in the 21st Century

Best Practice in State and Regional Innovation Initiatives is convening a series of public workshops and symposia involving responsible local state and federal officials and other stakeholders. These meetings and symposia will enable an exchange of views, information, experience, and analysis to identify best practice in the range of programs and incentives adopted. Building the Illinois Innovation Economy summarizes discussions at these symposia, fact-finding meetings, and commissioned analyses of existing state and regional programs and technology focus areas. The committee will subsequently produce a final report with findings and recommendations focused on lessons, issues, and opportunities for complementary U.S. policies created by these state and regional initiatives.
