The Hexing:

The Power of Hex Shawn Engel, 2020-10-06 Shawn Engel is the real deal a boss mystic whose influence is great ideas sparkling and power palpable You will not find spellwork explained more accessibly or made more fun by anyone Jerico Mandybur author of Neo Tarot This beautifully illustrated guide introduces new witches to sigils amulets potions and spells that will encourage them to reclaim and use their power as a catalyst for social change In The Power of Hex author Shawn Engel shows young witches how to use their own power in an inclusive way and empowers them to create their own spells with their new knowledge Beginning with the definition of hexing unpacking the ethics and showing how disenfranchised groups have used this type of magic throughout history for protection The Power of Hex leads into modern takes on the practice From there an overview of focusing energy in different rituals leads into four main spell chapters rounding out to a chapter dedicated to building your own spells using aligned ingredients This book sets itself apart because it aims to simplify this powerful type of magic while enforcing morality We don't want to sink to the level of those we are cursing hexing is meant to protect and arm Hex responsibly and effectively

Casting the Circle Diane Stein, 2012-10-17 Learn how to create a sacred space and use ritual for empowerment in everyday life with this classic from Diane Stein *The Philosophy of Science* Richard Boyd, Philip Gasper, J. D. Trout, 1991 The more than forty readings in this anthology cover the most important developments of the past six decades charting the rise and decline of logical positivism and the gradual emergence of a new consensus concerning the major issues and theoretical options in the field As an introduction to the philosophy of science it stands out for its scope its coverage of both historical and contemporary developments and its detailed introductions to each area discussed

A Storm of Spells and Hexes (The Hexer and the Telekinetic Book 1) N. R. Hairston, Tix Anders is the closest thing I have to a boyfriend Even though we've never talked we're still in a relationship So when someone kidnaps him right in front of me I go on the hunt What I find is a madman who wants us both dead because of our spell casting abilities Getting Tix back is just the beginning Now we'll have to join forces to take out a threat more powerful than any I've ever seen My relationship with Tix was always maintained at a distance Now we're in constant contact Can we save what we had before Or do we move forward with something new Will either of us be left standing when this is all over This is an M/M Urban Fantasy book where the two main leads interact daily but never speak until one of them is almost killed This book contains plenty of action magic and spells

Depth Michael Strevens, 2011-09-30 What does it mean for scientists to truly understand rather than to merely describe how the world works Michael Strevens proposes a novel theory of scientific explanation and understanding that overhauls and augments the familiar causal approach to explanation What is replaced is the test for explanatorily relevant causal information Strevens discards the usual criterion of counterfactual dependence in favor of a criterion that turns on a process of progressive abstraction away from a fully detailed physical causal story The augmentations include the introduction of a new non causal explanatory relevance relation entanglement and an independent theory of the role of black boxing and functional specification in explanation The abstraction centered notion of difference making leads to a rich causal treatment of many aspects of explanation that have been either ignored or handled inadequately by earlier causal approaches including the explanation of laws and other regularities with particular attention to the explanation of physically contingent high level laws idealization in explanation and probabilistic explanation in deterministic systems as in statistical physics evolutionary biology and medicine The result is an account of explanation that has especially significant consequences for the higher level sciences biology psychology
