The Adolescent Passage Peter Blos,1979 **The Adolescent Passage** Peter Blos,1979 The Adolescent as Decision-Maker ,2014-06-28 This book reviews current theories and research on adolescent development and their implications for education It is organized around the theme of the adolescent as decision maker and covers areas of normal development that are crucial for the transition to independence The issues raised by the thoughtful reviews will stimulate discussion and debate and will provide new perspectives on adolescence **Transpersonal Psychology in Psychoanalytic Perspective** Michael Washburn,1994-01-01 In this book Michael Washburn provides a psychoanalytic foundation for transpersonal psychology Using psychoanalytic theory Washburn explains how ego development both prepares for and creates obstacles to ego transcendence Spiritual development he proposes can be properly understood only in terms of the ego development that precedes it For example many difficulties encountered in spiritual development can be traced to repressive underpinnings of ego development and significant gender differences in spiritual development can be traced to corresponding gender differences that emerge during ego development Washburn draws on a wide range of psychoanalytic perspectives in discussing ego development and uses both Eastern and Western sources in discussing spiritual development In rethinking transpersonal psychology in psychoanalytic terms he explains how essential elements of Jungian thought can be grounded in psychoanalytic theory **Adolescent Development** David E. Balk,1994 Synthesizing information about early middle and late adolescence in every chapter this text presents adolescence as a normal part of the human life span connected to but qualitatively distinct from middle childhood and from young adulthood *Romeo and Juliet* Harold Bloom,2009 William Shakespeare s play about two star crossed lovers is studied in most high schools and colleges

Family Transitions Philip A. Cowan,E. Mavis Hetherington,2013-03-07 This volume the result of the second annual Summer Institute sponsored by the Family Research Consortium focuses on family transitions both normative and non normative The subject of family transitions has been a central concern of the consortium largely because studies of families in motion help to highlight mechanisms leading to adaptation and dysfunction This text represents a collective effort to understand the techniques individuals and families employ to adapt to the pressing issues they encounter along their life course *Development of Mental Representation* Irving E. Sigel,2013-06-17 There is a general and extensive literature in the development of representational thought and symbolic processes because of its centrality in human evolution However the umbrella of science and its method does not necessarily lead to a coherent conceptual model or agreements among scholars These basic differences among various disciplines have led to the creation of new and exciting realms of research This book considers how representational or symbolic thought develops for children s use in a wide array of these circumstances *Identity in Adolescence* Jane Kroger,2004 Fully updated to include the most recent research and theoretical developments in the field the third edition of Identity in Adolescence examines the two way interaction of

individual and social context in the process of identity formation Setting the developmental tradition in context Jane Kroger begins by providing a brief overview of the theoretical approaches to adolescent identity formation currently in use This is followed by a discussion of five developmental models which reflect a range of attempts from the oldest to among the most recent efforts to describe this process and include the work of Erik Erikson Peter Blos Lawrence Kohlberg Jane Loevinger and Robert Kegan Although focussing on each theorist in turn this volume also goes on to compare and integrate the varied theoretical models and research findings and sets out some of the practical implications for social response to adolescents Different social and cultural conditions and their effect on the identity formation process are also covered as are contemporary contextual narrative and postmodern approaches to understanding and researching identity issues The book is ideal reading for students of adolescence identity and developmental psychology Psychoanalytic Perspectives on Identity and Difference Brent Willock, Lori C. Bohm, Rebecca Coleman Curtis, 2016-11-10 Every day clinicians encounter challenges to empathy and communication while struggling to assist patients with diverse life histories character sexuality gender psychopathology cultural religious political racial and ethnic backgrounds Most writing pertaining to ideas of similarity discrepancy and the Other has highlighted differences Psychoanalytic Perspectives on Identity and Difference Navigating the Divide offers a different focus emphasising points of contact connection and how divisions between people can be transcended In depth case material astutely elucidated by diverse theoretical approaches furnishes stimulating ideas and valuable suggestions for facilitating a meeting of minds and psychological growth in patients who might otherwise be difficult or impossible to engage Exploring how psychoanalysts can navigate obstacles to understanding and communicating with suffering individuals topics covered include internal experience of likeness and difference in the patient in the analyst and how analysts can find echoes of themselves in patients Psychoanalysts and psychotherapists will appreciate the importance and value of this wide ranging groundbreaking exploration of these insufficiently addressed dimensions of human experience
