The Ambiguous Embrace:

The Ambiguous Embrace Charles Leslie Glenn, 2000 This is a time of far reaching change and debate in American education and social policy spurred in part by a rediscovery that civil society institutions are often better than government at meeting human needs As Charles Glenn shows in this book faith based schools and social agencies have been particularly effective especially in meeting the needs of the most vulnerable However many oppose providing public funds for religious institutions either on the grounds that it would threaten the constitutional separation of church and state or from concern it might dilute or secularize the distinctive character of the institutions themselves Glenn tackles these arguments head on He builds a uniquely comprehensive and persuasive case for faith based organizations playing a far more active role in American schools and social agencies And most importantly he shows that they could do so both while receiving public funds and while striking a workable balance between accountability and autonomy Glenn is ideally placed to make this argument A leading expert on international education policies he was for many years the director of urban education and civil rights for the Massachusetts Department of Education and also serves as an Associate Minister of inner city churches in Boston Glenn draws on all his varied experience here as he reviews the policies and practices of governments in the United States and Europe as they have worked with faith based schools and also with such social agencies as the Salvation Army and Teen Challenge He seeks to answer key theoretical and practical questions Why should government make greater use of faith based providers How could they do so without violating First Amendment limits What working relationships protect the goals and standards both of government and of the organizations that the government funds Glenn shows that with appropriate forms of accountability and a strong commitment to a distinctive vision of service faith based organizations can collaborate safely with government to their mutual benefit and that of those they serve This is a major contribution to one of the most important topics in political and social debate today

Minister of inner city churches in Boston Glenn draws on all his varied experience here as he reviews the policies and practices of governments in the United States and Europe as they have worked with faith based schools and also with such social agencies as the Salvation Army and Teen Challenge He seeks to answer key theoretical and practical questions Why should government make greater use of faith based providers How could they do so without violating First Amendment limits What working relationships protect the goals and standards both of government and of the organizations that the government funds Glenn shows that with appropriate forms of accountability and a strong commitment to a distinctive vision of service faith based organizations can collaborate safely with government to their mutual benefit and that of those they serve This is a major contribution to one of the most important topics in political and social debate today **Ambiguous Embrace** :: ,2002 This is a time of far reaching change and debate in American education and social policy spurred in part by a rediscovery that civil society institutions are often better than government at meeting human needs As Charles Glenn shows in this book faith based schools and social agencies have been particularly effective especially in meeting the needs of the most vulnerable However many oppose providing public funds for religious institutions either on the grounds that it would threaten the constitutional separation of church and state or from concern it might dilute or secularize the d **The Ambiguity Advantage** D. Politics, Taxes, and the Pulpit Nina J. Crimm, Laurence H. Winer, 2011 In *Politics Taxes and the Pulpit* Nina J Crimm and Laurence H Winer examine the provocative mix of religion politics and taxes involved in the controversy over houses of worship engaging in electoral political speech The authors analyze the dilemmas associated with federal tax subsidies benefiting nonprofit houses of worship conditioned on their refraining from political campaign speech The Supreme Court's recent *Citizens United* decision invalidating federal campaign finance restrictions on corporations political campaign speech makes the remaining analogous restrictive tax laws constraining many nonprofit entities all the more singular and problematic particularly for houses of worship Crimm and Winer explore the multifaceted constitutional tensions arising from this legal structure and implicating all fundamental values embodied in the First Amendment free speech and free press the free exercise of religion and the avoidance of government establishment of religion They also examine the history and economics of taxation of houses of worship The authors conclude that there exists no means of fully resolving the irreconcilable clashes in a constitutionally permissible and politically and socially palatable manner Nonetheless Crimm and Winer offer several feasible legislative proposals for reforming tax provisions that likely will generate considerable debate If Congress adopts the proposed reforms however the revised system should substantially ameliorate the disquieting constitutional tensions induced by the current tax laws and curb the growing emotionally charged atmosphere about the role of religion in the public sphere

Educational Leadership in Changing Times Trevor Male, 2024-09-20 The 21st century is characterised by continuous changes which place huge demands on leaders in educational settings requiring them to face change before they are engulfed by it This book provides advice and guidance on how to lead effectively in times that also feature added complexity which together could fundamentally change the way in which we organise and deliver learning The contributors are experienced and outstanding leaders from a wide range of educational settings including state independent and international organisations All contributors have been members of the MBA Educational Leadership International run by the UCL Centre for Educational Leadership at the London Institute of Education Top ranked Faculty of Education in the world for last eleven years This book will be invaluable for scholars and students in postgraduate programmes in educational leadership Organised into two sections it provides an overview from multiple perspectives of the changes already apparent before offering case studies from a variety of settings

The American Model of State and School Charles L. Glenn, 2012-04-26 *State and Schools* argues that the American educational model represents a third way of organizing the provision of schooling and that this accounts for some of its strengths as well as some of its weaknesses Charles L Glenn looks closely at the tradition of democratic localism in the management of schooling and the powerful and anti democratic effect of the

emerging education profession which has in some respects the characteristics of a religious movement more than of a true profession A sweeping chronological survey State and Schools includes chapters on the colonial background schooling in the New Republic the creation of an education profession and the progressive education movement among others Glenn s primary purpose in this authoritative and thoroughly researched book is to illustrate the deep roots of ways of thinking about schools that have made it difficult for policy makers and the public to do what needs to be done to enable schools to function as they should for our society and for future generations

Canadian Federalist Experiment Frederick Vaughan, 2003

Frederick Vaughan looks at changes that have taken place in Canada since 1867 arguing that Pierre Trudeau s 1982 Constitution Act quietly undermined the monarchic character of the constitution by introducing republican principles of government leaving Canada clinging to the wreckage of the old aristocratic order while attempting to provide a new order founded on republican equality
