David Herman

Story Logic:

Story Logic David Herman, 2004-01-01 Featuring a major synthesis and critique of interdisciplinary narrative theory Story Logic marks a watershed moment in the study of narrative David Herman argues that narrative is simultaneously a cognitive style a discourse genre and a resource for writing Because stories are strategies that help humans make sense of their world narratives not only have a logic but also are a logic in their own right providing an irreplaceable resource for structuring and comprehending experience Story Logic brings together and pointedly examines key concepts of narrative in literary criticism linguistics and cognitive science supplementing them with a battery of additional concepts that enable many different kinds of narratives to be analyzed and understood By thoroughly tracing and synthesizing the development of different strands of narrative theory and provocatively critiquing what narratives are and how they work Story Logic provides a powerful interpretive tool kit that broadens the applicability of narrative theory to more complex forms of stories however and wherever they appear Story Logic offers a fresh and incisive way to appreciate more fully the power and significance of narratives

Fundamentals of Story Logic Therese Budniakiewicz, 1992-01-01 Drawing largely on Propp's and Greimas work on the narrative this book is aimed at consolidating and extending their views through a series of concrete applications The volume offers a critical examination of narrative structure in terms of its two basic syntactic units or sets of operations namely the eventual or dynamic configurations corresponding to communication or to contract or more general to the structure of exchange Because of the emphasis it lays on the logical frame underlying the syntagmatic dimension of the story the book contributes to an integrated descriptive model deliberately centered on narrative semiotics as a branch of descriptive poetics The discussion of value in its social and legal context brings to light the links between the theory of narrative and its anthropological sources This book shows that a strict concern with story logic requires a reevaluation of the basic premises of semiotic theory and raises important epistemological questions about its evolution

Story Logic and the Craft of Fiction Catherine Brady, 2010-09-15 This book illuminates how technique serves story logic the particular way fiction makes meaning Writers raid the cupboard of theory looking for what works and generic rules don't account for the rich variety of strategies they employ For writers who are past the beginner stage Brady offers a closer look at craft fundamentals including plot characterization patterns of imagery and style The lively lucid discussion draws on vivid examples from classic and contemporary fiction ranging from George Eliot and William Faulkner to Haruki Murakami and Toni Morrison Because it supplies the analytical tools needed to read as a writer this text will enrich the reader's approach to any work of fiction energizing discussion in a workshop or craft course

The Story of Your Life Steve Madison, 2020-10-12 And so the time has come for you to tell the story of your life How will you do it A straightforward linear narrative Perhaps you will adopt an experimental approach Do you aim to produce something of great artistic merit Will you tell the story simply or do you want to convey something complex and beguiling Will you be scrupulously truthful or do you intend to

embroider the facts and events Perhaps you want to present a fantasy version of your life rather than the real thing Perhaps you want others to admire you and respect you so you will censor all the unsavory and disreputable things you did You definitely won't be presenting awarts and all account Or maybe you want people to know exactly who you are so you will tell it exactly as it is You will show the world your true self and they can take it or leave it What kind of audience do you want Do you seek people of refinement and the highest taste or are you eager for the masses to crowd in to hear your tale Are you an elitist or a populist Do you want to have as large an audience as possible or as select an audience as you can find Is quality better than quantity Will you produce a crowd pleasing thriller or a high minded meditation Perhaps a horror story captures the essence of your life or a sci fi or a western or a rom com It is more tragedy than comedy or did the laughs and fun times flow thick and fast There are so many factors to consider A life is not an easy thing and its telling is even harder Come inside and learn how to tell the story of your life **Collaborative Screenwriting and Story Development** Marc
