## **Studies In Area Linguistics:**

**Studies in Linguistic Geography (RLE Linguistics D: English Linguistics)** John M. Kirk, Stewart Sanderson, J.D.A. Widdowson, 2014-01-10 The publication in the past ten years of linguistic atlases of England and Scotland has not only advanced our knowledge of the lexical and morphological variety inherent in the English language but has made it possible to establish a number of methodological principles for the study of language both in its contemporary distribution and in its historical evolution The essays in this volume by contributors to the linguistic atlases and other dialectologists describe some of the problems that bedevil the study of dialect and the methodological solutions employed to minimise them They also survey the contributions that linguistic cartography can make to the study of English and of language in general The considerations it embodies are of major importance for the student of language and in addition the book is an invaluable companion to the Atlases

**Studying Dialect** Rob Penhallurick, 2018-02-22 This book provides an accessible yet comprehensive introduction to the study of the dialects of English as they are spoken around the world from the earliest dialect dictionaries of the sixteenth century to contemporary research emerging from the field of geolinguistics Organised into ten thematic chapters it explores and evaluates the methods and purposes of each approach to the study of dialectal variation with full explanations of technical terms throughout Illuminating one of the most productive fields of interest in language study this compelling book is essential reading for students of dialect and regional difference in English

**Language contact** Rik van Gijn, Hanna Ruch, Max Wahlström, Anja Hasse, 2023-09-28 Contact linguistics is the overarching term for a highly diversified field with branches that connect to such widely divergent areas as historical linguistics typology sociolinguistics psycholinguistics and grammatical theory Because of this diversification there is a risk of fragmentation and lack of interaction between the different subbranches of contact linguistics Nevertheless the different approaches share the general goal of accounting for the results of interacting linguistic systems This common goal opens up possibilities for active communication cooperation and coordination between the different branches of contact linguistics This book therefore explores the extent to which contact linguistics can be viewed as a coherent field and whether the advances achieved in a particular subfield can be translated to others In this way our aim is to encourage a boundary free discussion between different types of specialists of contact linguistics and to stimulate cross pollination between them

**Afrikaans Linguistics** WAM Carstens, Nerina Bosman, 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics Afrikaans Linguistics Contemporary Perspectives marks a seminal contribution to the field This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly

communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language. The chapters in this book, written by prominent South Africans as well as international scholars working in the field of Afrikaans, serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century. The primary focus remains on illuminating 21st-century research trajectories, offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics.

*Logic and Linguistics* Helmut Schnelle, Niels Ole Bernsen, 1989. The present volume on *Logic and Linguistics* is one in a series of five presenting the findings of a joint European study in cognitive science, 1987-88. The study was organised and funded as a collaborative network by the research unit FAST (Forecast and Assessment in Science and Technology) of the Commission of the European Communities and comprised about 35 scientists from the core disciplines of cognitive science. The research disciplines represented in the network were cognitive psychology, logic and linguistics, cognitive neuroscience, human-computer interaction and artificial intelligence.

Corpus Linguistics and Second Language Acquisition Xiaofei Lu, 2022-10-24. In *Corpus Linguistics and Second Language Acquisition*, Xiaofei Lu comprehensively reviews empirical studies that employ corpus linguistic methods to investigate issues in second language variation, processing, production and development. These methods enable advanced students and researchers to examine learner and task variables that condition variation in second language use; understand the effects of various input factors on second language processing and production; track group longitudinal trajectories of second language development and the input learner and task factors that affect such trajectories; profile inter and intra learner variability and individual variation in second language longitudinal development. This book will serve as an excellent resource for students and researchers with interests in corpus linguistics and second language acquisition.

**Concise Encyclopedia of Applied Linguistics** Margie Berns, 2010-03-20. *Concise Encyclopedia of Applied Linguistics* formalizes, organizes and analyzes the relation of knowledge about language to decision making in practice.
