Help For Parents! Maximized Parenting, 112 Solutions to the Parenting Problems of Today Francis Edo Olotu, Catherine Olubukunola Olotu, 2014-02-24 Effective parenting is about raising well adjusted children who are assets to society Maximized Parenting is a book which promotes effective parenting through equipping parents with the knowledge that fosters proper foundation for parenting According to Partnership for 21st Century Skills 2006 and American Management

Association's AMA 2010 Survey many employers believe that higher education is failing in its role to adequately develop needed skills in students. Parents with the help of this book can bridge the knowledge gap between what higher education provides and what the employment industry requires. The book is for parents who consider parenting as one of their most important responsibilities in life. One of the greatest assets a child could have is dutiful parents from whom he/she learns the act of parenting. Parents without this privilege are large in number and to them parenting is a dark continent which they find difficult to navigate. This book is written to inform, inspire and impart knowledge about parenting in the 21st century. The book would enable parents interact with their children in a way that would motivate them to be outstanding persons in life. In this information age you cannot limit your child to how you were brought up or what you know because he/she was born in another era. The gamut of issues covered in this book will equip you to bring up your child to be successful in life. Issues treated in this book will help you know healthy parenting methods that are best for your child. The book contains a very broad mix of issues a parent would encounter at every stage of a child's life. It is written from the perspective that a parent's job is for life and as such parents need help to sustain their long-term commitment to their children. Issues covered include character building, instilling moral values into children, basic life skills at every stage of life, sexuality education and handling children with special needs. While the information in this book is specifically for parents, the information would be useful to fathers, groups, men's groups, women's groups, grandparents, extended family members and childcare providers that have opportunities to relate to children. Research now and again has shown that a family is more important to a child's school success than how much money the family makes or how much education the parents have. No parent who has read this book should ever ask, "How can I make my child a success in life?" The social commentator Michael Novak wrote on the importance of family: "One unforgettable law has been learned through all the disasters and injustices of the last thousand years: if things go well with the family, life is worth living; when the family falters, life falls apart." The goal of Maximized Parenting is to fill the knowledge gap in you that will make you a better parent as well as an inspiration to other parents of the 21st century. Choose to be an intentional parent who will put in the needed time, energy and efforts to raise successful children. Know that expensive toys and vacations are a poor substitute for the valuable time you need to spend with your children. Refuse to outsource your parenting duties to caregivers and boarding schools and you will be a stakeholder in the next generations through your children who will pass on your legacies. Remember when a parent dies, one thing that cannot be buried with him/her is his/her impact on the lives of his/her children; those things become a living memorial in his/her children.

Emerging Trends in Technology for Education in an Uncertain World Dwi Nanto, Maila Rahiem, Tita Maryati, 2021-12-24. Presently people are facing a condition called VUCA (Volatility, Uncertainty, Complexity and Ambiguity) where this condition is described as a turbulent, uncertain, complicated, unclear condition. The world of work and industry is changing quickly driven by the development of technology, information and communication. Advances in computer technology, artificial intelligence, robotics

which is also called as the industrial revolution 4.0 eras are of significant influence on environment and people. A time where humans must learn quickly and an era where the future is unpredictable where choices for various conditions are increasing and mindsets are changing. The big challenge for educational institutions especially Islamic educational institutions today is how to prepare young people on various aspects of cognitive, mental and spiritual preparedness to face the changing environment. Development in the real world is far more complex than what is learned in the classroom so it is necessary to educate and transform curriculum that is directed in accordance with the demands of present times. The 6th International Conference on emerging trends in technology for education in facing VUCA (Volatility, Uncertainty, Complexity and Ambiguity) is designed not only to share research but also to offer recommendations to governments, educational institutions and other stakeholders to improve the quality of education through technology based educational programs. The conference was held by Faculty of Education UIN Syarif Hidayatullah Jakarta. Scholars, researchers, policy makers, teachers and students from various countries participated and worked together to discuss how to improve the quality of education in the Muslim community. Guided by UIN Jakarta, the 6th ICEMS of 2020 provided opportunities for various educational stakeholders especially in Muslim Communities around the world to share their creative and innovative works, opinions and experiences in open academic forums.

Boys and Girls Learn Differently! A Guide for Teachers and Parents Michael Gurian, 2010-08-26. A thoroughly revised edition of the classic resource for understanding gender differences in the classroom. In this profoundly significant book, author Michael Gurian has revised and updated his groundbreaking book that clearly demonstrated how the distinction in hard wiring and socialized gender differences affects how boys and girls learn. Gurian presents a proven method to educate our children based on brain science, neurological development and chemical and hormonal disparities. The innovations presented in this book were applied in the classroom and proven successful with dramatic improvements in test scores during a two year study that Gurian and his colleagues conducted in six Missouri school districts. Explores the inherent differences between the developmental neuroscience of boys and girls. Reveals how the brain learns. Explains when same sex classrooms are appropriate and when they are not. This edition includes new information on a wealth of topics including how to design the ultimate classroom for kids in elementary, secondary, middle and high school.

Journal of Character Education Jacques S. Benninga, Marvin W. Berkowitz, 2015-12-01. The Journal of Character Education is the only professional journal in education devoted to character education. Educating Character Through Stories David Carr, Tom Harrison, 2015-01-14 What could be the point of teaching such works of bygone cultural and literary inheritance as Cervantes Don Quixote and Shakespeare s *The Merchant of Venice* in schools today This book argues that the narratives and stories of such works are of neglected significance and value for contemporary understanding of human moral association and character However in addition to offering detailed analysis of the moral educational potential of these and other texts the present work reports on a pioneering project recently pursued by the Jubilee Centre for Character and Virtues concerned precisely with the use of these and other stories for moral and character education in schools The success of the Knightly Virtues project is an inspiring story in its own right and should therefore be of enormous interest to all schools teachers and parents rightly concerned with this all important aspect of their children s educational development

Research Relating to Children Clearinghouse for Research in Child Life (U.S.), **Research Relating to Children** , 1959 Home Schooling in China Xiaoming Sheng, 2019-11-15 Home Schooling in China seeks to provide a better understanding of the social movement of home schooling in China In this book the author addresses several major themes of home education including marketization social stratification culture religion Confucianism gender policy gender and home schooling This book draws a broad attention to the in depth information to the relationship of marketisation social stratification and home education in China It

offers an implication for a better understanding not only for influences of religion e g Christianity but also the effects of Confucianism on the growth of home education in China With a strong theoretical foundation the book comprehensively untangles the key possible factors that shape China s social movement of home education The book offers a background on theories and research methodology as well as reports on empirical studies that analyse the influences of marketisation on home schooling social stratification and the development of home schooling This book is ideal reading for academics researchers and postgraduate students in the fields of Confucianism social class gender and education in China **Guide Book to Childhood** American Institute of Child Life,1913 **Handbook of Prosocial Education** Philip M. Brown,Michael W. Corrigan,Ann Higgins-D'Alessandro,2012-10-12 Handbook of Prosocial Education is the definitive theoretical practical and policy guide to the prosocial side of education the necessary second side of the educational coin Academic teaching and learning are the first side of education however academic success depends upon the structures and support of prosocial educational efforts from promoting positive school climate to fostering student and teacher development to civic literacy and responsible and critical citizenship participation The Handbook of Prosocial Education chapters written by highly respected researchers and outstanding educators represent the wide range of research based prosocial interventions from pre school through high school The chapters explore and explain how prosocial education helps teachers create effective classroom learning environments to support the development of the whole student principals encourage positive school climate and superintendents work to improve the health and well being of their systems As readers will learn when done well prosocial education develops the capacities and competencies of students teachers and school administrators that lead to a more autonomous positive self concept greater sense of purpose more socially responsible behaviors and increased connections between families schools and communities This book pulls together in one place for the first time the various threads that create the prosocial education tapestry making a compelling case for the necessity of changing national educational policy that continues to be ever more oriented to only the academic side of the educational coin thus jeopardizing the foundational and historic purpose of educating our children for their full human development and participation in our democracy **The School Executive** ,1924 American Educational Digest ,1924
