Studies in Pre-Vesalian Anatomy Levi Robert Lind, 1975 *Anatomie Geschichte* 1600 **The Purple Island and Anatomy in Early Seventeenth-century Literature, Philosophy, and Theology** Peter Mitchell, 2007 Sets out to reconstruct and analyze the rationality of Phineas Fletcher's use of figurality in *The Purple Island* 1633 a poetic allegory of human anatomy This book demonstrates that the analogies and metaphors of literary works share coherence and consistency with anatomy textbooks *The Feeling Heart in Medieval and Early Modern Europe* Katie Barclay, Bronwyn Reddan, 2019-12-02 The heart is an iconic symbol in the medieval and early modern European world In addition to being a physical organ it is a key conceptual device related to emotions cognition the self and identity and the body The heart is read as a metaphor for human desire and will and situated in opposition to or alongside reason and cognition In medieval and early modern Europe the feeling heart the heart as the site of emotion and emotional practices informed a broad range of art literature music heraldry medical texts and devotional and ritual practices This multidisciplinary collection brings together art historians literary scholars historians theologians and musicologists to highlight the range of meanings attached to the symbol of the heart the relationship between physical and metaphorical representations of the heart and the uses of the heart in the production of identities and communities in medieval and early modern Europe *A Tribute to Adam Politzer* A. Mudry, 2015-02-02 **Shakespearean Maternities** Chris Laoutaris, 2008-06-20 This study explores maternity in the disciplines of early modern England Placing the reproductive female body centre stage in Shakespeare's theatre Laoutaris ranges beyond the domestic sphere in order to recuperate the wider intellectual epistemological and archaeological significance of maternity to the Renaissance imagination Focusing on anatomy in *Hamlet* natural history in *The Tempest* demonology in *Macbeth* and heraldry in *Antony and Cleopatra* this book reveals the ways in which the maternal body was figured in and in turn contributed towards the re-conceptualisation of bodies of knowledge Laoutaris argues that Shakespeare resists a monolithic concept of motherhood presenting instead a range of contested maternities which challenge the distinctive ways of knowing these early disciplines worked to impose on the order of created nature **The Resounding Soul** Samuel Kimbriel, Eric Austin Lee, 2016-09-29 It is surely not coincidental that the term soul should mean not only the centre of a creature's life and consciousness but also a thing or action characterised by intense vivacity that bike's got soul It also seems far from coincidental that the same contemporary academic discussions that have largely cast aside the language of soul in their quest to define the character of human mental life should themselves be so bloodless or so lacking in soul *The Resounding Soul* arises from the opposite premise that the task of understanding human nature is bound up with the more critical task of learning to be fully human The papers collected here are derived from a conference in Oxford sponsored by the Centre of Theology and Philosophy and explore the often surprising landscape that emerges when human consciousness is approached from this angle Drawing upon literary philosophical theological historical and musical

modes of analysis these essays remind the reader of the power of the ancient language of soul over against contemporary impulses to reduce fragment and overly determine human selfhood **Bibliography of the History of Medicine** ,1979
