Studies In Religious Fundamentalism:

Studies in Religious Fundamentalism Lionel Caplan, 1987-01-01 This book examines the specific circumstances that nurture fundamentalist beliefs and practices It studies contemporary fundamentalist developments in several continents involving groups associated with five major religions The authors answer important questions regarding the rationality of fundamentalism its complex link with modernism the nature of its relationship to a sacred text and its perspectives on history and knowledge No fixed set of qualities defines fundamentalism Since it implies a view of the universe and a discourse about the nature of truth it encompasses and transcends the religious domain For that reason every movement or cause is potentially fundamentalist **Religious Fundamentalism in the Middle East** Mansoor Moaddel, Stuart A. Theology in a Social Context Robin Gill, 2012 Over the last thirty years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology John Milbank dismissed the sociology of religion as a radically secularising discipline and championed an approach to theology now known as radical orthodoxy yet a decade later radical orthodoxy has lost a good deal of its support with critics arguing that it is too circular and enclosed within its own premises The time is now right to revisit the dialogue between theologians and sociologists prior to Milbank s intervention In this new trilogy on Sociological Theology Robin Gill makes a renewed contribution to mapping of three abiding ways of appropriately relating theology and interactionist sociology namely the social context of theology the social determinants of theology and the social significance of theology **Handbook of the Psychology of Religion and Spirituality, Second Edition**

Religious Fundamentalism and Social Identity Peter Herriot, 2014-02-25 The attacks on the World Trade Centre and the Pentagon in the United States of September 11th 2001 brought the phenomenon of religious fundamentalism to the world's attention Sociological research has clearly demonstrated that fundamentalists are primarily reacting against modernity and believe that they are fighting for the very survival of their faith against the secular enemy But we understand very little about how and why people join fundamentalist movements and embrace a set of beliefs values and norms of behaviour which are counter cultural This is essentially a question for social psychology since it involves both social relations and individual selves Drawing on a broad theoretical perspective social identity theory Peter Herriot addresses two key questions why do fundamentalists identify themselves as an in group fighting against various out groups And how do the psychological needs for self esteem and meaning motivate them Case studies of Mohammed Atta the leader of the 9/11 hijackers and of the current controversy in the Anglican Church about gay priests and bishops demonstrate how fruitfully this theory can be applied to fundamentalist conflicts It also offers psychologically sensible ways of managing such conflicts rather than treating fundamentalists as an enemy to be defeated Religious Fundamentalism and Social Identity is unique in applying social identity theory to fundamentalism and rare in that it provides psychological in addition to sociological analyses of the phenomenon It is a valuable resource for courses in social psychology which seek to demonstrate the applicability of social psychological theory to the real world

Conceptualizing Extreme Beliefs and Behaviors Rik Peels, John Horgan, 2025 This book explores challenging conceptual issues in defining analyzing conceptualizing and operationalizing notions such as extremism radicalization fanaticism and terrorism The focus is theoretical but the work is empirically embedded Rather than adding yet further definitions of phenomena like extremism it seeks to make progress by addressing underlying conceptual issues Specifically it explores four crucial questions about extremism fundamentalism fanaticism conspiracy theorizing and terrorism First how should each of these extreme phenomena be defined in a fruitful manner and what are the desiderata in seeking definitions of each of them Second how should the project of defining and conceptualizing these phenomena be

undertaken in terms of necessary and sufficient conditions or family resemblances or INUS conditions and based on datasets or intuitions about particular cases or common understandings in the public debate or yet something else Third what is the role of normativity in defining these extreme phenomena that is the proper place of normative or even pejorative concepts and the normative framework of the researcher Fourth and finally how do the phenomena of extremism fanaticism fundamentalism terrorism and conspiracism relate to one another and to things such as apocalypticism nationalism cults charisma and state terror This second volume in the Extreme Belief and Behavior Series lays the conceptual groundwork that the other volumes in the series will build on Provided by publisher
