## **Studies In The History Of Central Nigeria Area:**

*Studies in the History of Central Nigeria Area* Aliyu Alhaji Idrees, Yakubu A. Ochefu, 2002 Lapai Journal of Central Nigeria History, 2012 **Nigeria's Resource Wars** Egodi Uchendu, 2021-03-02 Nigeria's Resource Wars reflects on the diversity of conflicts over access to and allocation of resources in Nigeria. From the devastating effects of crude oil exploration in the Niger Delta to desertification caused by climate change and illegal gold mining in Zamfara to mention a few, Nigeria faces new dimensions of resource-related struggles. The ravaging effects of these resource conflicts between crop farmers and Fulani herders in Nigeria's Middlebelt and states across Southern Nigeria call for urgent scholarly interventions with the Fulani cattle breeders onslaught altering the histories of many Nigerian families through deaths, loss of homes and investments and permanent physical incapacity. Currently, there is an almost total breakdown of interethnic relations with political commentators acknowledging that Nigeria has never been so divided as it presently is in its history. The struggles have now degenerated into kidnaps, armed robbery and incessant targeted and random killings across the country, compounding the already complex problem of insecurity in Nigeria. The chapters in this volume engage with these issues, presenting the different arguments on resource conflicts in Nigeria. They draw insights from similar conflicts in Nigeria's colonial, post-independence past and events from around the world to proffer possible solutions to resource-related confrontations in Africa. By offering a collection of different intellectual perspectives on resource conflicts in Nigeria, this volume will be an important reference material for understanding the diversity of thought patterns that underpin the struggle and policy approaches towards resolving conflict situations in Africa. This volume will be of considerable interest to scholars of Africa, researchers in the humanities, social sciences and conflict studies, and policymakers interested in understanding the resource crisis in Africa. **Environment and Economics in Nigeria** Toyin Falola, Adam Paddock, 2012-05-23 This volume gathers contributors across a wide range of disciplines to explore the relationship between the environment, economics and development in Nigeria from the twentieth century to the present, examining issues such as violence, health and contemporary concerns about sustainability and conservation. It sheds light not just on the environmental history of Nigeria, a crucial paradigmatic case in its own right, but also offers insights into these issues as they manifest themselves throughout the developing world. *Dissent, Protest and Dispute in Africa* Toyin Falola, Emmanuel Mbah, 2016-12-19 This book provides unique and detailed perspectives on different aspects of dissent, protest and disputes and how these have in turn continued to pose challenges in Africa. The contributors argue that dissent, protest and most forms of disputes in Africa are the result of daily challenges that its people have faced and continue to encounter to this day. These challenges include, amongst others, demands for transparency, good governance and accountability, waves of instability that have created insecurity in most parts of the continent, an unsustainable level of youth unemployment, rapid population growth, a continent-wide healthcare and poverty crises and numerous environmental challenges. The chapters elevate the debates on dissent, protest and disputes.

conflict in Africa by adding new ideas and introducing new and useful interpretations The book's strength lies in the contributors ability to conflate colonial and postcolonial tendencies to show how challenges of the past are not so different from those of today while also presenting important historical issues from various scholarly perspectives Dissent Protest and Dispute in Africa will be of interest for students and scholars of African history politics and culture as well as those interested in social movements and civil society

Territoriality, Citizenship and Peacebuilding Kelechi A. Kalu, 2013-06-29 Civil conflicts in Africa range from few interstate wars to several intrastate conflicts characterized by secessionist movements irredentism coups and counter coups genocide wars of liberation to resource based wars The varied causes of conflicts in the continent's diverse and complex social formations are seen in ethnic terms and include struggles for economic environmental resources poor institutions of governance and issues of identity such as religion language and racial differences The core issue addressed in this volume is how to understand and explain the structural and analytical reasons for persistent civil conflicts in Africa The core assumption is that most civil conflicts in Africa erupt largely because of the nature of state formation in the continent Other significant variables that are explored as explanations for the persistent instances of civil conflicts in sub Saharan Africa and the slow efforts at nation building across the continent include issues of territoriality climate change ethnicity ideological incongruities institutional problems the nature of postcolonial state unreformed governance and economic structures and corruption This book also examines some sources of unresolved issues of territoriality and explains their connections to political violence and socio political and cultural tensions across sub Saharan Africa It offers suggestions on
