Studies In The Structure Of The Urban Economy:

Studies in the Structure of the Urban Economy Edwin S. Mills, Resources for the Future, 1972 Focuses on decentralization of metropolitan areas as one of the key issues of urban economics [Studies in the Structure of the Urban Economy](#) Edwin S. Mills, 1972 **An Essay on Urban Economic Theory** Yorgos Y. Papageorgiou, David Pines, 2012-12-06 Over the past thirty years urban economic theory has been one of the most active areas of urban and regional economic research Just as static general equilibrium theory is at the core of modern microeconomics so is the topic of this book the static allocation of resources within a city and between cities at the core of urban economic theory An Essay on Urban Economic Theory well reflects the state of the field Part I provides an elegant coherent and rigorous presentation of several variants of the monocentric city model as the centerpiece of urban economic theory treating equilibrium optimum and comparative statistics Part II explores less familiar and even some uncharted territory The monocentric model looks at a single city in isolation taking as given a central business district surrounded by residences Part II in contrast makes the intra urban location of residential and non residential activity the outcome of the fundamental tradeoff between the propensity to interact and the aversion to crowding the resulting pattern of agglomeration may be polycentric Part II also develops models of an urbanized economy with trade between specialized cities and examines how the market determined size distribution of cities differs from the optimum This book launches a new series Advances in Urban and Regional Economics The series aims to provide an outlet for longer scholarly works dealing with topics in urban and regional economics *Fifty Years of Regional Science* Raymond Florax, David A. Plane, 2013-04-17 This book contains the complete text of the special Golden Anniversary issue of the flagship journal of the Regional Science Association International RSAI Papers in Regional Science Volume 83 Number 1 as well as the full text of Walter Isard s Presidential Address The future near and far of regional science Professor Isard originally delivered the speech in a special plenary session of the fiftieth North American Meetings of the Regional Science Association International The session began with a ceremonial kickoff to the year long celebration of the multidisciplinary field s first 50 years At the ceremony held on the morning of Friday November 21 2004 at the DoubleTree Hotel in Philadelphia we presented Walter Isard the founder of our multidisciplinary field as well as Antoine Bailly the President of the Regional Science Association International and David Boyce the Association s Archivist with commemorative first copies of the anniversary issue This book entitled Fifty Years of Regional Science consists of a compendium of thought papers authored by a representative sampling of some of the field s leading scholars For the special journal issue we originally titled the collection The Brightest of Dawns *Urban Transport Economics* Hensher, 1977-07-07 *Handbook of Regional and Urban Economics* Peter Nijkamp, E.S. Mills, P.C. Cheshire, 1986 Fifteen essays in this handbook are divided into four parts Part I surveys basic spatial and spatially related research Part II surveys literature on specific urban markets Part III is devoted to studies of urban development and problems in developing countries Part IV contains papers on specific

urban problems and sectors **Simulating the Urban Economy** P. Smith, W.I. Morrison, 2012-12-06 First published in 1974 The demand for input output models at the urban and regional levels is growing rapidly as planners and government officers are becoming increasingly aware of the value and potential of the approach in subnational studies Input output models provide a basis for the detailed study of the economic system emphasising clearly the interrelationships present in an economy The present study attempts to integrate previous work aimed at the production of non survey input output tables at the regional level **Urban Housing Markets** Larry S. Bourne, John R. Hitchcock, 1978-12-15 The Conference on Urban Housing Markets sponsored by the Centre for Urban and Community Studies in October 1977 was the first major conference on housing to be held in Canada since the First Canadian Housing Conference sponsored by the Canadian Welfare Council in 1968 This volume is at once a record of the Conference and a review of important recent research on urban housing markets and related public policy issues The book captures the flavor of a lively debate between academics and policy analysts and the commentaries and discussion sections provide in non technical language a statement of some major questions confronting government policy on housing In addition to its use as a record of an important Canadian conference the book is a valuable collection of recent housing research The ten papers cover a wide variety of topics ranging from conceptual and methodological issues on the one hand to critiques of Canadian housing policies on the other They indicate the range of issues which must be taken into account in assessing housing policy Taken together with the discussion material which helps to focus attention on strategic issues in both Canada and the United States they provide a useful introduction to current debates over housing policy The Urban Mosaic of Post-Socialist Europe Sasha Tsenkova, Zorica Nedovic-Budic, 2006-12-02 The book explores urban dynamics in post socialist Europe 15 years after the fall of communism The urban mosaic metaphor expresses the complexity diversity and uniqueness of the processes and spatial outcomes in post socialist cities The book examines the urban development and the policy and planning processes that have resulted from the socio economic political and institutional transformations characterizing the move to markets and democracy The emerging urban phenomena are illustrated with in depth case studies sensitive to historical themes cultural issues and the socialist legacy Cities featured in the book include Kazan St Petersburg Moscow Warsaw Prague Komarno Budapest Belgrade Bucharest Sofia and Tirana The edited volume is organized around the following four themes the driving forces of post socialist change urban processes and spatial change housing and retail sector transformation and urban planning and policy responses Economic Factors in Urban Planning Studies Robert C. Colwell, 1966 **The Geography of Urban Transportation** Genevieve Giuliano, Susan Hanson, 2017-03-31 A comprehensive update the fourth edition of this leading text features numerous chapters by new authors addressing the latest trends and topics in the field The book presents the foundational concepts and methodological tools that readers need in order to engage with today s pressing urban transportation policy issues Coverage encompasses passenger and freight dynamics in the American metropolis the local and regional transportation planning process and

Newman,1989-03-01 This is an excerpt from the 4 volume dictionary of economics a reference book which aims to define the subject of economics today 1300 subject entries in the complete work cover the broad themes of economic theory This extract concentrates on social economics **Computable General Equilibrium Approaches In Urban And Regional**

Policy Studies Masayuki Doi,2006-06-15 Computable General Equilibrium CGE approaches have been used extensively over the past 25 years to analyze government and other policies for both developed and developing countries Advances in methodology computation techniques and data availability including Social Accounting Matrix SAM data have allowed researchers to use CGE models to study the potential policy impacts of tax trade environmental issues etc at the urban and regional levels as well as the macro level What is common with these policy topics is that they cause structural long term impacts including price changes and income growth on various entities households enterprises government and other regions countries and industrial sectors of economies CGE modeling can compute a new equilibrium of each industry s market clearance upon the incorporation of such a policy shock and evaluates the policy alternative as compared with the benchmark equilibrium in terms of industrial sector wise and aggregated prices outputs GDP and many other indicators

The Myth of the North American City Michael Goldberg,John Mercer,2011-11-01 The continuing tendency to continentalize Canadian issues has been particularly marked in the area of urban studies where United States based research findings methodologies and attitudes have held sway In this book Goldberg and Mercer demonstrate that the label North American City as widely used is inappropriate and misleading in discussion of the distinctive Canadian urban environment Examining such elements of the cultural context as mass values social and demographic structures the economy and political institutions they reveal salient differences between Canada and the United States One of the most important of the many contextual differences is the strong collective sense in Canada which accepts more public intervention in social and economic matters in contrast to the American commitment to individualism Canadians consequently expect a livable central city which is compact and well served by public transit and which has a fiscally sound local government To demonstrate these issues the discussion includes a detailed cross national empirical analysis of over 300 North American metropolitan areas along some three dozen dimensions including density transportation household change and structure income and fiscal disparities and

economic structure Since much urban planning in Canada is based upon the continentalist assumption this volume should generate a reassessment of policy and encourage the development of a research base to suit the distinctiveness of the Canadian experience With growing pressures to take a North American view of Canadian policies it is vitally important that the differences delineated in this book are understood not just for their urban policy implications but for broader purposes as well

An Economic Analysis of the Impact of Oil Prices on Urban Structures James R. Melvin, David T. Scheffman, Ontario Economic Council, 1983-12-15 This study examines ways in which residents of Canadian cities are affected by increases in petroleum prices The authors apply economic models of residential and industrial location to determine the response of individuals and firms to higher oil prices in the short run and the long run The short run effects include conservation of higher price petroleum products and reduction in other expenditures the long run effects include movement closer to employment centres changes in urban densities rents and house prices and the substitution of other forms of transit The implications for municipal zoning the provision of parks the location of schools and other public facilities and plans for road building and expressways are also considered

Handbook of Regional and Peter Nijkamp, Edwin S. Mills, 1986 This second volume of the Handbook presents professional surveys of all the important topics in urban economics The first section contains 6 surveys on locational analysis the second 5 surveys of specific urban markets and the third part presents 5 surveys of government policy issues The book brings together exhaustive research by distinguished scholars from many countries It is the only complete survey volume of urban economics and should serve as a reference volume to scholars and graduate students for many years For more information on the Handbooks in Economics series please see our home page on <http://www.elsevier.nl/locate/hes>

Planning and Profit in the Urban Economy T.A. Broadbent, 2013-01-11 First Published in 2006 This text tries to answer some of the questions posed in the introduction to the British edition of *After the Planners* what is the relationship between government and industry and what is the role of planning within this relationship

Human Resources in the Urban Economy Mark Perlman, 2016-03-22 Due to the urbanisation of American society and the economic problems that accompanied it a series of conferences was held to explore the economics of human resources Originally published in 1963 this study draws together papers from the first conference dealing mainly with the under utilisation and misallocation of human resources as well as wage rates migration patterns and education in urban societies and the impact they have on the American labour force This title will be of interest to students of Environmental Studies and Economics
