**Assessing the Long-Term Impact of Truth Commissions** Anita Ferrara, 2014-09-19 In 1990 after the end of the Pinochet regime the newly elected democratic government of Chile established a Truth and Reconciliation Commission TRC to investigate and report on some of the worst human rights violations committed under the seventeen year military dictatorship The Chilean TRC was one of the first truth commissions established in the world This book examines whether and how the work of the Chilean TRC contributed to the transition to democracy in Chile and to subsequent developments in accountability and transformation in that country The book takes a long term view on the Chilean TRC asking to what extent and how the truth commission contributed to the development of the transitional justice measures that ensued and how the relationship with those subsequent developments was established over time It argues that contrary to the views and expectations of those who considered that the Chilean TRC was of limited success that the Chilean TRC has in fact over the longer term played a key role as an enabler of justice and a means by which ethical and institutional transformation has occurred within Chile With the benefit of this historical perspective the book concludes that the impact of truth commissions in general needs to be carefully reviewed in light of the Chilean experience This book will be of great interest and use to students and scholars of conflict resolution criminal international law and comparative legal systems in Latin America

**Sojourner Truth and Intersectionality** investigates how the story of the 19th century abolitionist and women's rights advocate Sojourner Truth has come to be an iconic feminist story and explores the continued relevance of this story for contemporary feminist debates in general and intersectionality scholarship in particular. Tracing various academic reception histories of the story of Sojourner Truth and the famous 'Ain't I a Woman' speech, the book gives insight into how this story has been taken up by feminist scholars in different times, places and political contexts. Exploring in particular how and why the story of Sojourner Truth has become a key reference for the theoretical and political framework of intersectionality, the book examines what the consequences of this connection are both for how intersectionality is understood today and how the story of Sojourner Truth is approached. The book examines key intersecting dimensions within the story of Truth and its reception, including gender, race, class and religion. This book will be of interest to students and scholars in gender, women's and feminist studies. In particular, the book will be of interest to those wishing to learn more about intersectionality and Sojourner Truth.

**Media Accountability in the Era of Post-Truth Politics** Tobias Eberwein, Susanne Fengler, Matthias Karmasin, 2019-06-28. Bringing together both leading international scholars and emerging academic talent, *Media Accountability in the Era of Post Truth Politics* maps the current state of media accountability in Europe and provides fresh perspectives for future developments in media and communication fields. As the integrity of the international media landscape is challenged by far-reaching transformations and the rise of fake news, the need for a functional system of media regulation is greater than ever. This book addresses the pressing need to re-evaluate and redefine the notion of accountability in the fast-changing field of journalism and information provision. Using comparative research and empirical data, the book's case studies address the notion of media accountability from various perspectives, considering political and societal change, economic, organisational and technological factors and the changing role of media audiences. By collecting and juxtaposing these studies, the book provides a new discussion for the old question of how we can safeguard free and responsible media in Europe, a question that seems more urgent than ever. *Media Accountability in the Era of Post Truth Politics* is an essential read for students and researchers in journalism, media and communication studies.

**Aristotle and Confucius on Rhetoric and Truth** Haixia Lan, 2016-11-10. Readings of Aristotle's and Confucius' teachings reveal that both philosophers' rhetorical thinking contain vital similarities which can help us understand cultural differences today. Much has been said about Aristotle's definition of rhetoric as the faculty of observing in any given case the available means of persuasion, but few studies have focused on his depiction of rhetoric as partly like dialectic and partly like sophistical reasoning. Yet this Aristotelian conception of rhetoric sheds light on a similarity with Confucius' teaching. Both Confucius and Aristotle see the human understanding of the truths of things as necessarily having a dimension that is open-ended and discursive.
