One of the significant historical influences on *La Belle* was the Italian art movement of 17th-century naturalism, which emphasized the scientific language to design the body. Another was the French Neoplatonism, which had "world view" thinking. The fact that we were brought to the natural world and to the body and the lower body. There was just a group of Italian scientists, called the physiologists or anatomists, who were devoted to the research of the human body. The anatomists' research allowed a great advancement thinking and gave scientific knowledge to medicine and philosophy of the 17th century. Italian art was considered, particularly by French artists, as the most beautiful. Other artists, such as the German artist Johann Heinrich Woltz, also

They share many traits with birds of paradise, known for their elaborate displays. The birds perform a variety of song, song-like displays from a great distance, sometimes to the entire group. Males perform a courtship dance, but the dance is not as elaborate as that of birds of paradise.

It is useful to compare these data to the findings of Thomsen and Christensen (1998), who used a more extensive sample of Norwegian hospitals, almost twice as large as that used in this study, to all possible causes of death. They find that the Norway's hospitals' composite scores across the hospital rankings are still significant, but neither as strong as the findings reported in this study. Interestingly, in the 1990s, the same authors found that the quality of nursing care was
